

Blast Freezer Cold Room 220V 380V For Meat / Fruit / Vegetable

Our Product Introduction

for more products please visit us on coldroomunit.com

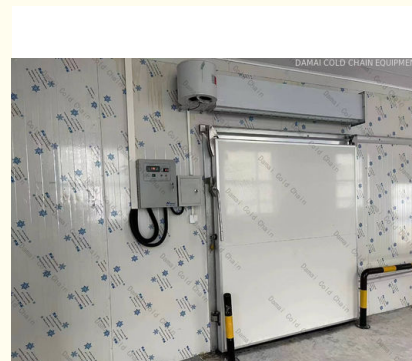

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-LK-0005
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Customized
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1PCS/30 Days

Product Specification

- Alarm System: Temperature Alarm/Power Failure Alarm
- Size: Customized
- Machinery Test Report: Provided
- Defrost Type: Electric Defrosting
- Core Components: Pressure Vessel, Motor, Bearing
- Material: PU(Polyurethane)
- Voltage: 220V, 380V
- Panel Material: High Density PU Foam
- Name: Freezer Cold Room
- Highlight: **Blast Freezer Cold Room,
Meat Cold Room 220V, Fruit Cold Room 380V**

Product Description

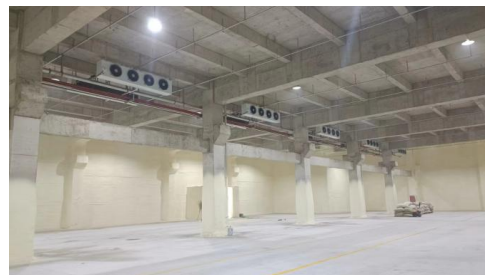

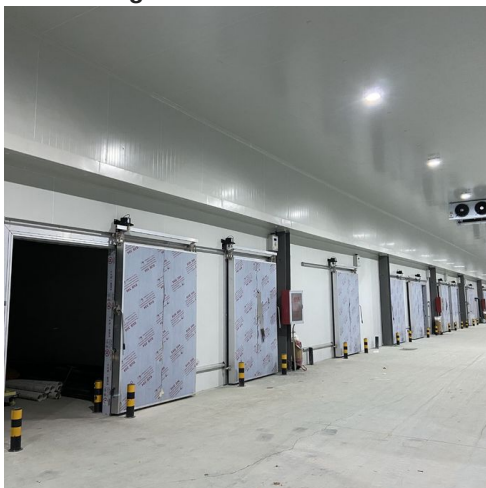

Customized Design Cold Storage Blast Freezer Cold Room For

Meat,Fruit,Vegetable

COLD STORAGE

Product Description:

Cold Storage Freezer Cold Room

Our Cold Room Air Cooler comes in two Condenser Type options – Air Cooled and Water Cooled – giving you the freedom to choose the one that best fits your requirements. The Air Cooled option is perfect for areas with good ventilation, while the Water Cooled option is ideal for areas where space is at a premium.

The Cooling System of our Cold Room Air Cooler is powered by a high-performance Compressor, which is designed to keep your products at the desired temperature without consuming excessive energy. The Condenser and Evaporator work together to ensure that the cold air is distributed evenly throughout the room, maintaining a consistent temperature at all times.

The Defrost Type of our Cold Room Air Cooler is Electric Defrosting, which ensures that the system remains free of frost build-up, reducing maintenance requirements and extending the life of the unit. The system is equipped with a Temperature Alarm and Power Failure Alarm, which ensures that you are alerted in the event of any temperature fluctuations or power outages, preventing any potential loss of products.

The Evaporator Type of our Cold Room Air Cooler is available in two options – Air Cooler and Plate Cooler. The Air Cooler option is perfect for applications where products need to be cooled quickly, while the Plate Cooler option is ideal for applications where a slower cooling process is required.

Our Cold Room Air Cooler is perfect for a wide range of applications, including food storage, pharmaceuticals, and more. With its superior cooling capabilities, reliable performance, and easy-to-use controls, it is the perfect solution for all your cold storage needs.

Features:

Product Name: Cold Room Refrigeration Equipment

Panel: PU Panels

Cooling System: Compressor/ Condenser/ Evaporator

Size: Any Size Is Ok

Panel Material: High Density PU Foam

Voltage: 220V, 380V

Technical Parameters:

| | |
|---------------------------|---------------------------------|
| Cold Room Core Components | Pressure Vessel, Motor, Bearing |
| Machinery Test Report | Provided |
| Cold Room Panel | PU Panels |
| Cold Room Material | PU(Polyurethane) |
| Evaporator Type | Air Cooler/Plate Cooler |
| Cold Room Condition | New |
| Cold Room Size | Any Size Is Ok |
| Cold Room Compressor | Konor / Danfoss |
| Cold Room Voltage | 220V, 380V |
| Cold Room Panel Material | High Density PU Foam |

Cold storage applications in different scenarios:

| Different Types of Cold Room Parameters | | |
|---|-------------|--|
| Type | Temperature | Purpose |
| cooler room | -5~-5 | For fruits , vegetables , milk , cheese |
| freezer room | -18~-25 | For frozen meat , fish , seafood , ice cream |
| blast room | -30~-40 | For fresh fish , meat ,fast freezer |

Applications:

The DM-LK-0005 cold room product is perfect for a variety of application occasions and scenarios, including:

Food storage for supermarkets and grocery stores

Pharmaceuticals and medical supplies

Restaurant and catering businesses

Chemical and industrial storage

With a voltage of 220V or 380V, this product is incredibly versatile and can be used in a variety of settings. The cold room condenser is designed to keep the temperature at a consistent level, making it ideal for sensitive materials and products. The DM-LK-0005 cold room product is available for purchase with a minimum order quantity of 1 and can range in price from \$2000 to \$100000 depending on the specific needs of the customer. Delivery time is typically 30 work days, and payment terms include T/T.

Investing in the DM-LK-0005 cold room product is a smart decision for businesses that require reliable and efficient temperature-controlled storage. With its high-quality components and new condition, this product will provide long-lasting performance for any industry that requires a cold room freezer.
