

Refrigeration Equipment Quick Freezing Tunnel For Food Frozen Fish

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: DM brand
- Certification: CE
- Model Number: DM-SDSD-0001
- Minimum Order Quantity: 1
- Price: \$2000 -\$10000000
- Packaging Details: Customized according to customers
- Delivery Time: 30 work day
- Payment Terms: L/C, T/T, D/P, D/A
- Supply Ability: 1pcs/per 25day

Product Specification

- Type: Tunnel Type
- Freezing Time: 5 Minute
- Cold Consumption: Customization
- Air Supply Mode: Air Cooling
- Color: Gery
- Refrigeration: Air Cooling
- Transport Package: Carton
- HS Code: 8481804090
- Material: Stainless Steel
- Defrosting System: Hot Gas
- Conveyor System: Mesh Belt
- Insulation Material: PU Foam
- Control System: PLC
- Power Supply: 380V/50Hz
- Application: Food Industry

Product Description

Refrigeration Equipment Quick Freezing Tunnel For Food Frozen Fish Customization Product Line Gery

Quick Freezing Tunnel

Has good refrigeration capacity
Fast cooling speed
High energy efficiency ratio
Short time
Equipment matching

The quick freezing tunnel is used to transport products from the inlet to the outlet through a conveyor belt, where multiple air-cooled evaporators supply air to the product to quickly cool the product at room temperature in a short period of time, achieving the effect of quick freezing.

Application:

Tunnel freezer is suitable for flour food processing, fruit and vegetable processing, meat processing, aquatic food processing, and prefabricated food processing.

Its advantages (compared to spiral freezers with equivalent output capacity):

- (1) Simple structure;
- (2) The inlet and outlet devices must be at the same height, and the single tube spiral freezer must be one lower and one higher;
- (3) Lower cost;

Its structure:

- (1) Stainless steel conveyor belt;
- (2) Sandwich PU board, coated with stainless steel plates on both sides; Equipped with a base plate;
- (3) The door is equipped with a frame heating device;
- (4) Aluminum evaporator with different fin spacing;
- (5) Axial flow fan: stainless steel bellows, aluminum blades;

Belt Material	Food Grade SUS304 Stainless Steel/Modular Plastic
Condensing Type	Air cooling
Inside Temperature	40 Degree Centigrade
Cooling Method	Indirect Cooling
Condition	New
Transport Package	Wooden box
Origin	China
HS Code	8418699090

Quick freezing tunnels can effectively utilize space and can be quickly installed and operated in any corner of the factory. The quick freezing tunnel adopts an energy-saving and environmentally friendly frequency conversion control system, which adjusts production process parameters through intelligent control to ensure food quality.

Damai is a company specializing in refrigeration and air conditioning equipment. Our main equipment is Cold room Evaporator, Condenser, Condensing unit, Compressor, Cold

room panel/door and so on. We have more than ten years of experience in the field of cold storage, with high-quality technology and professional product knowledge. We are able to provide consumers with professional and high-quality technical services. The quality of our products can be guaranteed.

Product Legend

Pre-sales: We provide assistance to our customers, provide valid information according to the requirements of our guests, answer questions, leave a professional impression, and lay the foundation for future sales.

Selling: let our customers know more about our products, and enthusiastically answering questions for customers and providing customers with a pleasant buying experience.

After-sales: After the products are sold, the professionals provide training services, check and maintain the products regularly, if there is problems for the quality, Will solve it for customers in time.
