

## Compact Condenser Unit Air Cooled With Highly Rotary Inverter Compressor

Our Product Introduction

for more products please visit us on [coldroomunit.com](http://coldroomunit.com)

### Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-JZ-009
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Customized
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

### Product Specification

- Evaporating Temp: -35~-23celsius Degree
- Condensing Temperature: 0~10c And -15~-25c
- Compressor: HIGHLY Rotor Inverter Compressor
- Temperature Range: Lower Than 13
- Compressor Type: Semi Hermetic Piston
- Voltage: 380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, 380V/ 3p/ 60Hz
- Controller Brand: CAREL
- Fans Species: Frequency Fan
- Name: Condensing Unit
- Highlight: **Compact Condenser Unit, Condenser Unit Air Cooled**

## Product Description

**Air Cooled Condensing Units with Highly Rotor Inverter Compressor and Temperature Range Below -13.C**

### Product Description:

Main Machine Configuration

Compressor

Condenser

Oil heating

Liquid receiver

Filter

Sight glasses

Solenoid valve

H / L P gauge

Pressure controller

Oil pressure protection

Vibration eliminator

Oil separator

Gas separator

Suction filter

Temperature

The temperature range of the machine is 0 to 10°C and -15~-25°C.

Horsepower

The machine's horsepower is between 3HP to 34HP.

Compressor Type

The compressor type of the machine is semi-hermetic piston.

Voltage

380V/3P/50Hz

220V/3P/60Hz

380V/3P/60Hz

### Features:

A compact structure is employed in this machine. It has been designed to occupy minimal space while delivering maximum performance. This makes it ideal for use in tight spaces without compromising on its capability to perform its functions effectively.

This machine is equipped with complete protective devices. These act as safety measures to ensure the operator and the machine are not harmed in the event of an emergency. As such, you can trust this machine to prioritize your safety while in operation.

The condenser of this machine has been increased to ensure good heat dissipation. This is necessary to prevent the machine from overheating as it carries out its tasks. Better heat dissipation also translates to greater efficiency and longevity of the machine.

This machine has been engineered to keep a good cooling effect for a long time. This is particularly useful when this machine is used for

extended periods to maintain its performance while minimizing the need for downtime to cool off.

By using this machine, you can save up to 30% on your electricity bill. This is made possible by the use of energy-efficient components that have been incorporated into this machine's design.

This machine is built to operate with low noise emissions. Its design elements have been selected carefully to minimize the noise that this machine produces while operating. You can, therefore, be sure to enjoy a quiet workplace even when the machine is in use.

This machine uses brand accessories and parts. This ensures that only high-quality components are used in its construction, which leads to greater durability and reliability. You can, therefore, trust this machine to provide excellent performance for a prolonged period.

### Technical Parameters:

Product Attribute	Value
Fans Species	Frequency Fan
Frequency	60Hz
Product	Horizontal Condensing Unit
Condensing Temperature	0~10 and -15~-25
Suitable For	Supermarket, Food Storage, Cold Room
Trademark	DM
Cooling Capacity	5kw-1000kw
Temperature Range	Lower than 13
Compressor	HIGHLY Rotor Inverter Compressor
Condenser	Air-cooled Condenser

### Applications:

DM-JZ-0011 is suitable for various occasions and scenarios. This product can be used as a freezer room condensing unit, which is ideal for freezing and storing food, medicine, and other perishable items. This product is also suitable for use as a cold room condensing unit, which is perfect for keeping products at a low temperature, such as in a laboratory or other industrial settings.

This product is also versatile and can be used in various condensing unit parts, such as heat exchangers, compressors, and condensers. It is widely used in various industries, such as the food industry, medical industry, and chemical industry.

### Support and Services:

The Condensing Unit product technical support and services include:

- Assistance with product selection and sizing
- Troubleshooting and diagnosis of technical issues
- Repair and maintenance services
- Replacement parts and accessories
- Warranty and registration support
- Technical training and education for customers and technicians

### FAQ:

**Q: What is the brand name of the condensing unit?**

A: The brand name of the condensing unit is DM.

**Q: What is the model number of the condensing unit?**

A: The model number of the condensing unit is DM-JZ-009.

**Q: Where is the condensing unit manufactured?**

A: The condensing unit is manufactured in China.

**Q: What certifications does the condensing unit have?**

A: The condensing unit has CE and ISO certifications.

**Q: What is the minimum order quantity for the condensing unit?**

A: The minimum order quantity for the condensing unit is 1.

**Q: What is the price range of the condensing unit?**

A: The price range of the condensing unit is \$2000~\$100000.

**Q: What is the delivery time for the condensing unit?**

A: The delivery time for the condensing unit is 30 work days.

**Q: What are the payment terms for the condensing unit?**

A: The payment terms for the condensing unit are T/T.

**Q: What is the supply ability for the condensing unit?**

A: The supply ability for the condensing unit is 1000000pcs/year.
