

Energy Saving Freezer Room Condensing Unit With Rotor Inverter Compressor / Carel Controller

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-JZ-0010
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Customized
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Condensing Temperature: 0~10c And -15~-25c
- Cooling Capacity: 5kw-1000kw
- Compressor: HIGHLY Rotor Inverter Compressor
- Controller Brand: CAREL
- Condenser: Air-cooled Condenser
- Frequency: 60Hz
- Evaporating Temp: -35~-23celsius Degree
- Voltage: 380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, 380V/ 3p/ 60Hz
- Name: Condensing Unit
- Highlight: Energy Saving Condensing Unit,
60Hz Condensing Unit,
Freezer Room Condensing Unit

Product Description

Energy Saving Freezer Room Condensing Unit with Rotor Inverter Compressor and Ccarel Controller

Product Description:

Main Machine Configuration

The main machine consists of the following components:

Compressor
Condenser
Oil heating
Liquid receiver
Filter
Sight glasses
Solenoid valve
H / L P gauge
Pressure controller
Oil pressure protection
Vibration eliminator
Oil separator
Gas separator
Suction filter

The compressor is a semi-hermetic piston type with a horsepower range of 3HP to 34HP. The temperature range is 0~10°C and -15~-25°C. The voltage options are 380V/3P/50Hz, 220V/3P/60Hz, and 380V/3P/60Hz.

Features:

The device has a compact structure that makes it efficient and easy to handle. Its small size takes up less space, making it ideal for areas with limited space.

In addition, it comes equipped with complete protective devices that ensure the safety of all users at all times. With these features in place, users can operate the device without fear of harm or danger.

To ensure good heat dissipation, the device has an increased condenser that helps it work optimally without any interruptions. This improvement helps to maintain the performance standards of the device, making it reliable and efficient for longer periods.

Furthermore, the device is designed to keep a good cooling effect for a long time. Even under prolonged use, it maintains an optimal operating temperature that ensures it works at its best without strain.

By using this device, users can save up to 30% on their electricity bill. This makes it an affordable, efficient option that provides substantial savings over time.

The device also has low noise levels that make it user-friendly and suitable for use in quiet environments.

The device comes with brand accessories and parts that are tested and approved for optimal performance. These accessories enhance the durability and longevity of the device, allowing it to serve users for an extended period.

Technical Parameters:

Cooling Capacity	5kw-1000kw
------------------	------------

Mute	No
Evaporating Temp	-35~-23celsius Degree
Voltage	380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, 380V/ 3p/ 60Hz
Product	Horizontal Condensing Unit
Suitable For	Supermarket, Food Storage, Cold Room
Frequency	60Hz
Controller Brand	CAREL
Temperature Range	Lower Than 13
Compressor Type	Semi Hermetic Piston

Applications:

DM-JZ-0010 is a commercial refrigeration condensing unit manufactured in China by DM. It has received CE and ISO certification, ensuring its quality and safety. The minimum order quantity is 1 unit, and the price ranges from \$2000 to \$100000, depending on the model and specifications.

This condensing unit is equipped with a semi-hermetic piston compressor and a microprocessor controller, ensuring efficient and reliable operation. Its air-cooled condenser is suitable for various cooling applications, making it a versatile choice for different scenarios.

The DM-JZ-0010 condensing unit is perfect for use in commercial refrigeration applications, such as supermarkets, convenience stores, and restaurants. Its cooling capacity ranges from 5kw to 1000kw, providing ample cooling power for various refrigeration needs.

Whether you need to replace condensing unit parts or install a new commercial refrigeration condensing unit, the DM-JZ-0010 is a great choice. With a supply ability of 1000000pcs/year and a delivery time of 30 work days, you can rest assured that you'll have your unit when you need it.

Payment terms for the DM-JZ-0010 condensing unit are T/T, making it easy and convenient to complete your purchase. Don't miss out on the benefits of this high-quality commercial refrigeration condensing unit. Order yours today and experience the efficiency and reliability of the DM-JZ-0011.

Support and Services:

Our Condensing Unit product comes with comprehensive technical support and services to ensure optimal performance and customer satisfaction. Our technical support team is available to answer any questions or concerns you may have about the product, including installation, operation, and maintenance. We also offer training on the proper use and maintenance of the unit, as well as troubleshooting assistance in the event of any issues. Our services include regular maintenance and repair to keep the unit functioning at its best, as well as upgrades and replacement parts to extend its lifespan. Our goal is to provide reliable and efficient products along with top-notch customer support to meet your needs and exceed your expectations.

FAQ:

Q: What is the brand name of the condensing unit?

A: The brand name of the condensing unit is DM.

Q: What is the model number of the condensing unit?

A: The model number of the condensing unit is DM-JZ-0011.

Q: Where is the condensing unit manufactured?

A: The condensing unit is manufactured in China.

Q: What certifications does the condensing unit have?

A: The condensing unit is certified with CE and ISO.

Q: What is the minimum order quantity for the condensing unit?

A: The minimum order quantity for the condensing unit is 1.

Q: What is the price range for the condensing unit?

A: The price range for the condensing unit is between \$2000 to \$100000.

Q: What is the delivery time for the condensing unit?

A: The delivery time for the condensing unit is 30 work days.

Q: What are the payment terms for the condensing unit?

A: The payment terms for the condensing unit are T/T.

Q: What is the supply ability for the condensing unit?

A: The supply ability for the condensing unit is 1000000pcs/year.
