

CAREL Controller DC Inverter Rooftop Condensing Unit For Cold Storage Refrigeration System

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE ; ISO
- Model Number: DM-JZ-0024
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Customized
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Controller Brand: CAREL
- Evaporating Temp: -35~-23celsius Degree
- Trademark: DM
- Compressor: HIGHLY Rotor Inverter Compressor
- Controller Type: Microprocessor
- Suitable For: Supermarket, Food Storage, Cold Room
- Mute: No
- Model No: MT-HSN15EL
- Name: Condensing Unit
- Highlight: **DC Inverter Condensing Unit,
Rooftop Condensing Unit,
CE Cold Storage Condensing Unit**

Product Description

CAREL Controller DC Inverter Rooftop Condensing Unit For Cold Storage Refrigeration System

Product Description:

Main Machine Configuration

Our machine is equipped with the following essential components:

Compressor
Condenser
Oil heating
Liquid receiver
Filter
Sight glasses
Solenoid valve
H / L P gauge
Pressure controller
Oil pressure protection
Vibration eliminator
Oil separator
Gas separator
Suction filter

These components work together to ensure the efficiency and reliability of the main machine configuration.
Temperature and Horsepower

The temperature range of our machine is between 0~10°C and -15~-25°C. Additionally, our machine has a horsepower range from 3HP to 34HP.

Compressor Type and Voltage

Our compressor type is semi-hermetic piston. In terms of voltage, we offer three options for our customers: 380V/3P/50Hz, 220V/3P/60Hz, and 380V/3P/60Hz.

Features:

Improved Features of Our Product

Our product has a compact structure that is designed to make it more space-efficient. This feature not only saves valuable space, but also makes it more convenient to move and transport.

Complete protective devices have been installed to ensure the safety of the user. These protective devices include safeguards to prevent short-circuits, overloads, and overheating.

An increased condenser has been installed to ensure good heat dissipation. This ensures that the product stays cool even after extended use, resulting in a longer lifespan and overall durability.

We have made sure to also keep a good cooling effect for a long time. This feature is designed to keep the temperature low, even after extended periods of use. This results in a more consistent and stable performance.

Our product is designed to save 30% on the electricity bill, compared to other products on the market. This makes it an energy-efficient choice, and can help you save money in the long run.

Our product has a low noise level, which makes it ideal for use in environments where noise levels must be kept to a minimum.

We use brand accessories and parts during production, ensuring the quality and reliability of our product.

Technical Parameters:

Product Attribute	Value
Power Type	DC
Temperature Range	Lower Than 13

Evaporating Temp	-35~-23celsius Degree
Model No	MT-HSN15EL
Suitable For	Supermarket, Food Storage, Cold Room
Product	Horizontal Condensing Unit
Cooling Capacity	5kw-1000kw
Compressor	HIGHLY Rotor Inverter Compressor
Controller Type	Microprocessor
Compressor Type	Semi Hermetic Piston

Condensing Unit Parts, Condensing Unit Parts, Cold Room Condensing Unit

Applications:

DM-JZ-0024 is a high-quality horizontal cold room condensing unit manufactured in China by DM. It is designed to meet the needs of customers who require a reliable and efficient cooling solution for their cold rooms and freezer rooms.

The DM-JZ-0024 cold room condensing unit is CE and ISO certified, ensuring that it meets international quality standards. It has a minimum order quantity of 1 and a price range of \$2000 to \$100000, depending on the customer's specific requirements. The delivery time is 30 work days, and payment terms are T/T. DM has a supply ability of 1000000pcs/year, ensuring that customers can get their orders quickly.

The DM-JZ-0024 cold room condensing unit has an air-cooled condenser, which makes it suitable for use in a variety of applications. It has a voltage of 380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, or 380V/ 3p/ 60Hz, depending on the customer's needs. It can be used for evaporating temperatures ranging from -35 to -23celsius Degree.

The DM-JZ-0024 cold room condensing unit is ideal for a wide range of application occasions and scenarios. It is suitable for use in cold rooms and freezer rooms in supermarkets, restaurants, hotels, hospitals, and other commercial and industrial settings. Its compact design and easy installation make it an excellent choice for customers who want a hassle-free cooling solution.

The DM-JZ-0008 cold room condensing unit is a trademark of DM, which is known for its high-quality and reliable cooling products. Customers can trust DM to provide them with a durable and efficient cooling solution that meets their specific needs.

In conclusion, if you're looking for a high-quality cold room condensing unit that is reliable, efficient, and easy to install, the DM-JZ-0024 is an excellent choice. With its air-cooled condenser, wide range of voltage options, and compact design, it is suitable for a variety of application occasions and scenarios. Contact DM today to learn more about this product and place your order!

Support and Services:

Our Condensing Unit product comes with comprehensive technical support and services to ensure its optimal performance and longevity. Our team of experts is available to assist with any product-related queries or issues and to provide guidance on installation, operation, and maintenance.

We offer a range of technical support services, including:

On-site technical assistance

Remote diagnostic support

Product training and education

Warranty services

Repair and replacement services

In addition to technical support, we also provide various services to help you get the most out of your Condensing Unit product:

Custom design and engineering

Product customization

Consulting and project management

Energy efficiency analysis

System optimization

Our goal is to ensure that our customers are satisfied with their Condensing Unit product and that it meets their specific needs and requirements. Contact us for any technical support or service-related inquiries.

FAQ:

Q1: What is the brand name of this condensing unit?

A1: The brand name of this condensing unit is DM.

Q2: What is the model number of this condensing unit?

A2: The model number of this condensing unit is DM-JZ-0008.

Q3: Where is this condensing unit manufactured?

A3: This condensing unit is manufactured in China.

Q4: What certifications does this condensing unit have?

A4: This condensing unit has CE and ISO certifications.

Q5: What is the minimum order quantity for this condensing unit?

A5: The minimum order quantity for this condensing unit is 1.

Q6: What is the price range for this condensing unit?

A6: The price range for this condensing unit is \$2000 to \$100000.

Q7: What is the delivery time for this condensing unit?

A7: The delivery time for this condensing unit is 30 work days.

Q8: What are the payment terms for this condensing unit?

A8: The payment terms for this condensing unit are T/T.

Q9: What is the supply ability for this condensing unit?

A9: The supply ability for this condensing unit is 1000000pcs/year.
