

3 Speed Air Cooler Compressor Portable Rotary Air Compressor For Large Room

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-YSJ-0002
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Type: Portable
- Cooling Area: Up To 500 Sq. Ft.
- Fan Speed: 3
- Warranty: 1 Year
- Air Flow: 500 M3/h
- Compressor Type: Rotary
- Noise Level: ≤ 55 DB(A)
- Timer: 24 Hours
- Highlight: **3 Speed Air Cooler Compressor,
Large Room Air Cooler Compressor,
Portable Rotary Air Compressor**

Product Description

3-Speed Portable Air Cooler with Rotary Compressor for Large Rooms

Product Description:

The air conditioning industry makes use of compressors in various applications such as split systems, rooftops, packaged units, and chillers. In recent times, scroll compressors have emerged as the most widely used compression technology, replacing reciprocating and screw compressors due to their undeniable superiority.

For large capacity systems, Copeland, a leading name in compressor technology, offers several fully qualified multiple compressor assemblies such as tandem and trio. These compressor assemblies are designed to offer optimal comfort, low operating costs, and higher seasonal efficiency, making them an ideal choice for large scale air conditioning systems.

Features:

The Copeland Scroll compressor provides both axial and radial compliance, which results in superior reliability and efficiency. This design allows the compressor to handle a wider range of operating conditions, providing better performance and longevity. In addition, the wide scroll line-up allows for more versatility in choosing the right compressor for any application.

The Copeland Scroll compressor also has a low oil circulation rate, which means less oil is required and it results in lower operating costs. This compressor is also equipped with superior liquid handling capability, which means it can handle a wide range of fluids, including refrigerants and lubricants. Not only can it handle these fluids, but it does so with ease, ensuring a more efficient system. The Copeland Scroll compressor is designed for low sound and vibration levels, making it suitable for a variety of applications such as residential and commercial HVAC systems. This feature provides a comfortable environment for building occupants while allowing for a quieter operation. Additionally, it has a low Total Equivalent Warming Impact (TEWI), which means it is more environmentally friendly than other compressors in its class.

The Copeland Scroll compressor is available in tandem and trio configurations, which can result in superior seasonal efficiency. These configurations provide a variable speed that matches the compressor's output to the load requirements, resulting in optimal performance and energy savings. These compressors are Copeland qualified, ensuring the highest level of quality and reliability.

Product Parameters

screw compressor		
Model	CFH Displ 60 HZ	Motor HP
CSH6553-50	165	50
CSH6563-60	205	60
CSH7553-70	238	70
CSH7563-80	274	80
CSH7573-90	311	90
CSH8553-110	380	110
CSH8563-125	433	125
CSH8573-140	495	140
CSH9553-180	645	180
CSH9563-210	742	210
CSH9573-240	844	240

CSH9583-280	971	280
CSH9593-300	1098	300

Applications:

This Air Compressor is suitable for a variety of occasions and scenarios, including construction sites, mining operations, and factories. It is capable of delivering a maximum air flow of 500 M3/h, making it a powerful and efficient tool for any application. The product is also equipped with a remote control, allowing for easy operation and convenience.

With 3 fan speeds and a timer of up to 24 hours, DM-YSJ-0002 can be easily adjusted to meet the needs of any project. The product comes with a 1-year warranty, providing peace of mind for buyers. The Air Compressor is packaged in a sturdy wooden case, ensuring its safety during transportation.

DM has a supply ability of 1000000pcs/year, making it a reliable source for all your air compressor needs. Whether you are looking for an industrial portable compressor for your factory or a reliable tool for your construction projects, DM-YSJ-0002 is an excellent choice. Order now and experience the power and efficiency of DM Air Compressors!

Packing and Shipping:

Product Packaging for Air Cooler Compressor:

The air cooler compressor will be carefully packaged in a sturdy cardboard box to ensure safe transportation. The compressor unit will be wrapped in bubble wrap and placed in the center of the box. The box will be filled with packing peanuts to prevent any movement during transit. The box will also have "fragile" and "handle with care" stickers on it to ensure proper handling.

Product Shipping for Air Cooler Compressor:

The air cooler compressor will be shipped via a reputable courier service to ensure timely and safe delivery. The shipping cost will depend on the destination and will be calculated at checkout. Once the order is placed, the customer will receive a confirmation email with the tracking information. The estimated delivery time is 3-5 business days for domestic orders and 7-10 business days for international orders.

FAQ:

Q1: What is the brand name of the air cooler compressor?

A1: The brand name of the air cooler compressor is DM.

Q2: What is the model number of the air cooler compressor?

A2: The model number of the air cooler compressor is DM-YSJ-0002.

Q3: Where is the air cooler compressor made?

A3: The air cooler compressor is made in China.

Q4: What certifications does the air cooler compressor have?

A4: The air cooler compressor has CE and ISO certifications.

Q5: What is the minimum order quantity of the air cooler compressor and how is it packaged?

A5: The minimum order quantity of the air cooler compressor is 1 and it is packaged in wooden cases. The price of the air cooler compressor ranges from \$2000 to \$100000 and the delivery time is 30 work days. Payment terms are T/T and the supply ability is 1000000pcs/year.
