

PU Foam 150mm Cold Storage Sandwich Panel For Fish Fruit Beef Fresh

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: damai
- Certification: Fireproof grade
- Model Number: CRP2
- Minimum Order Quantity: 10m²
- Price: 7.1 usd/m²
- Packaging Details: For Sea freight exporting package
- Delivery Time: 15 working days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000000000 per year

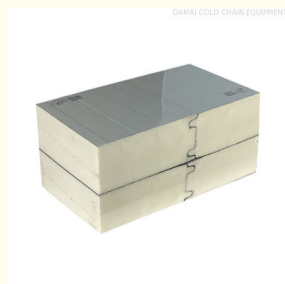

Product Specification

- Cold Room Door: Hinged Door Sliding Door
- Project Capacity: 650tons Capacity
- Defrosting System: Electric/Hot Gas
- Alarm System: Temperature/Humidity Alarm
- Refrigerant: R404A/R134a
- Refrigeration Parts: Danfoss Castel Emerson
- Port: Shanghai Port For Cold Room Price
- Compressor: Semi-hermetic/Scroll
- Temperature: -45~+20C
- Application Of Industry: Fresh Storage
- Controller: Digital/Analog
- Warranty: One Year
- Cooling Capacity: 25ton
- Accessories: Provide All Cold Storage Accessories
- Evaporator Type: Air-cooled/Water-cooled

Product Description

Customized Pu Foam 150mm Cold Room Storage Sandwich Panel In Pakistan For Fish Fruit Beef Fresh

Zhejiang Damai Cold Chain Equipment Co., Ltd. is a reputable and professional supplier of comprehensive solutions in the realm of refrigerators and cold chain equipment. The company boasts a wealth of expertise and experience, enabling it to cater to a diverse range of requirements across various industries that rely on temperature-controlled storage and transportation.

With a focus on innovation, quality, and customer satisfaction, Zhejiang Damai offers a broad portfolio of refrigeration products and services, including but not limited to:

Moreover, Zhejiang Damai Cold Chain Equipment Co., Ltd. prides itself on its strong industry partnerships, adherence to international quality standards, and a commitment to continuous improvement. By staying abreast of the latest technological advancements and market trends, the company remains at the forefront of the refrigeration industry, providing its clients with cutting-edge solutions that enhance their business operations and competitiveness.

Our company, nestled in Zhejiang, a thriving suburb adjacent to Shanghai, has been a trusted partner in cold storage solutions for over 18 years. During this time, we have amassed a wealth of experience and expertise, empowering us to assist hundreds of satisfied customers with their cold storage construction projects and address various other challenges they may have encountered.

Customized Refrigeration Systems: Leveraging its advanced manufacturing capabilities and in-house R&D team, the company designs and manufactures customized refrigeration systems tailored to specific needs and applications.

Cold Storage Facilities: Providing turnkey solutions for cold storage warehouses, Zhejiang Damai ensures efficient and reliable temperature control for perishable goods, such as food, pharmaceuticals, and chemicals.

Transport Refrigeration Units: The company offers a range of transport refrigeration units suitable for various vehicles, ensuring that products remain fresh and at the optimal temperature during transportation.

Energy-Efficient Solutions: Committed to environmental protection and energy conservation, Zhejiang Damai prioritizes the development of energy-efficient refrigeration technologies and systems, helping clients reduce operational costs and carbon footprints.

Professional After-Sales Service: Backed by an experienced service team, the company provides comprehensive after-sales support, including installation, maintenance, and repair services, ensuring seamless operation and long-term reliability of its refrigeration systems.

Specifications	
Type	Polyurethane sandwich panels
PU Thickness	50mm/75mm/100mm/150mm/200mm/250mm
Metal sheet thickness	0.3~0.8mm
Effective Width	1000mm/1120mm
Surface	Prepainted
Thermal conductivity	0.023
Fireproof grade	B1/A1
Temperature range	-55~+160°
Density	35~45kg/m³
Color	RAL or customization
Service	OEM/ODM
Customization is welcome	

Moreover, our team of experienced professionals is equipped with the knowledge and skills necessary to tackle a wide range of issues related to cold storage, including temperature control, humidity management, energy efficiency, and compliance with relevant regulations and standards.

As we continue to grow and evolve, we remain committed to providing our clients with the highest quality services and solutions in the cold storage industry. We are confident that our expertise, experience, and dedication to excellence will continue to serve as the foundation for our success and the satisfaction of our valued customers.

FAQ

Q: Are you a factory or a trading company?

A: We are professional manufacturer specialized in refrigeration equipment.

Q: How many different types of products your company manufactures?

A: Now we have more than 1,000 products. We have a strong advantage of OEM, just give us the actual products or your idea that you want, we will manufacture for you.

Q: What's your MOQ?

A: If we have the products in stock, it will be no MOQ. If we need to produce, we can discuss the MOQ according to customer's exact situation.

Q: Visting factory is allowed or not?

A: Yes, we welcome customers visiting our factory. Our factory is located Shaoxin city,Zhejiang province,China mainland.

Product advantages

1. Quite operation:

We understand the importance of maintaining a peaceful environment, especially in facilities where noise levels need to be kept low. Therefore, we use advanced technologies and components that minimize noise emissions, ensuring that our refrigeration systems operate quietly and without disruption.

2. Seamless connection:

We take great care in ensuring that all components of our cold storage systems are seamlessly connected, minimizing potential points of failure and maximizing overall efficiency. Our skilled technicians ensure that every connection is precise and reliable, ensuring a smooth and trouble-free operation.

3. Easy installation:

We design our systems with ease of installation in mind, reducing downtime and minimizing disruption to our clients' operations. Our team of experts provides comprehensive installation services, ensuring that the process is quick, efficient, and hassle-free.

4. Beautiful and elegant placement of circuit devices

We recognize that aesthetics are important in many settings, including cold storage facilities. Therefore, we take great care in the placement of circuit devices and other components, ensuring that they are not only functional but also visually appealing and blend seamlessly into the overall design of the facility.

5. Using the best equipment:

We are committed to using only the highest quality equipment and components in our cold storage solutions. By partnering with leading manufacturers and suppliers, we ensure that our clients receive the most advanced and reliable products available on the market.

6. Not easily damaged:

We understand that cold storage facilities are often exposed to harsh conditions and heavy use. Therefore, we design our systems with durability and longevity in mind, using materials and components that are resistant to wear and tear and can withstand the demands of daily operation. Our systems are built to last, ensuring that our clients receive a long-term investment that will serve them well for years to come.

Export Areas

Why choose our company ?

1. Because our company has CAC official .
2. We have a good one-year after-sales service.
3. We have over 20 years of sales experience.
4. We have our own factory.
5. We will try our best to provide a professional response as soon as possible.
