

Portable Electric Air Cooler Compressor / Semi Hermetic Screw Compressor CSH Series

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-YSJ-00013
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Refrigerant: R410A
- Compressor Type: Rotary
- Air Flow: 500 M3/h
- Cooling Area: Up To 500 Sq. Ft.
- Cooling Capacity: 22000 BTU
- Fan Speed: 3
- Noise Level: ≤ 55 DB(A)
- Warranty: 1 Year
- Highlight: Portable Air Cooler Compressor,
Electric Air Cooler Compressor,
Portable Air Cooling Compressor

Product Description

Portable Electric Air Compressor Noise Level≤ 55 DB A for Sales

Product Description:

Semi Hermetic Screw Compressor CSH Series

The CSH series of semi-hermetic screw compressors are specifically designed for low temperature applications that require a large capacity. As the refrigeration market continues to expand, more and more large freeze rooms are necessary, and the screw compressor rack is perfectly suited for such applications.

The professional design of the compressor ensures that it is protected against inversion, overheat, overload, exhaust temperature, low oil level, and oil flow. As a result, it is ideal for use in a variety of industries, including supermarkets, food industry, chemical industry, hotels, restaurants, and even medical services.

The compressor's semi-hermetic construction allows for easy maintenance and servicing, as well as enhanced durability and reliability. It is able to deliver high performance while operating at low noise levels.

Whether you need a compressor for a large refrigeration system or a small industrial application, the CSH series of semi-hermetic screw compressors is an excellent choice.

Features:

Product Name: Air Cooler Compressor

Cooling Capacity: 22000 BTU

Fan Speed: 3

Refrigerant: R410A

Air Flow: 500 M3/h

Cooling Area: Up To 500 Sq. Ft.

Industrial Portable Compressor

Industrial Portable Compressor

Industrial Portable Compressor

Applications:

This rotary compressor is designed to cool areas up to 500 sq. ft., making it ideal for small to medium-sized spaces. Its portable type makes it easy to move around, and its power supply of 220-240V/50Hz ensures that it can be used in any location. It also comes with a 24-hour timer, allowing you to set it up and forget about it, ensuring a comfortable and cool environment for your occasion or scenario. The DM-YSJ-00012 Air Cooler Compressor is perfect for various applications, such as outdoor events, construction sites, warehouses, and factories. Its durability and reliability make it an excellent investment for any business or individual who needs to cool their environment. Its compact design and portability make it easy to store and transport, ensuring that you can use it whenever and wherever you need it.

Overall, the DM-YSJ-00012 Air Cooler Compressor is an excellent investment for anyone who needs a reliable and efficient cooling solution. Its industrial portable compressor design, electric air compressor power, and compact size make it the perfect solution for occasions and scenarios that require a reliable and efficient cooling system. Get yours today and enjoy a cool and comfortable environment all year round!
