

50mm Cold Room Panel Fireproof PU Foam Insulated Polyurethane Sandwich Panels

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: damai
- Certification: Fireproof grade
- Model Number: CRP2
- Minimum Order Quantity: 10m²
- Price: 7.1 usd/m²
- Packaging Details: For Sea freight exporting package
- Delivery Time: 15 working days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram
- Supply Ability: 1000000000 per year

Product Specification

- Type Of Door: Swing Door Sliding Door
- Screen Netting Material: PLASTIC
- Controller: Digital Temperature Controller
- Functions: Refrigerated Storage
- Alarm System: Temperature/Humidity Alarm
- Evaporator Type: Air-cooled/Water-cooled
- Door Type: Sliding Door
- Machinery Test Report: Provided
- Thickness Of Panel: 50mm/75mm/100mm/120mm/150mm/200mm
- Surface Material: Color Steel Or Stainless Steel
- Room Size: From 10 M³ To 100000m³
- Compressor Brand: Bitzer, Emerson
- Temperature: -20 ~ +20
- Port: Shanghai Port For Cold Room Price
- Cooling Capacity: 100ton

Product Description

China Factory High Quality Polyurethane Sandwich Panel Used PU Foam Insulation Panel For Cold Room

Zhengjiang Damai Cold Chain Equipment Co., Ltd. stands as a prominent and seasoned player in the refrigeration sector, renowned for its comprehensive project solutions tailored to clients' needs. Boasting a solid foothold in Zhejiang province, strategically located in proximity to Shanghai, the company has carved out a rich 18-year history of excellence in the industry.

Over these years, Zhengjiang Damai has amassed an extensive body of knowledge and profound expertise in the construction of refrigeration projects and the intricate issues that surround them. Its expertise encompasses not just the design and installation of cutting-edge cold storage facilities but also encompasses maintenance, optimization, and troubleshooting of existing systems.

The company's portfolio showcases a diverse range of successful projects, from large-scale commercial refrigeration systems for supermarkets, food processing plants, and pharmaceutical warehouses to customized solutions for the hospitality and healthcare sectors. Its commitment to innovation and quality assurance ensures that every project meets or exceeds industry standards and client expectations.

Moreover, Zhengjiang Damai's team of skilled engineers, technicians, and project managers are equipped with the latest tools and technologies to deliver efficient, cost-effective, and environmentally sustainable solutions. They work closely with clients from the initial consultation phase to project completion, ensuring seamless communication, transparency, and timely delivery.

Product Structure

Plates surface

Flat, Square waves, Water waves

Polyurethane

good thermal insulation, corrosion resistance, light weight, etc.

Plates surface

The company's strong reputation is built on a foundation of trust, reliability, and customer satisfaction. Zhengjiang Damai's commitment to ongoing training and development ensures that its team stays abreast of the latest industry trends, technologies, and regulatory requirements, enabling it to continuously improve its services and offerings.

Our Advantages

Eco-friendly
and healthy

streamlined
installation

durability

quality assurance

precision design

fireproof materials

strictly selected
materials

heat insulation and
heat preservation

In summary, Zhengjiang Damai Cold Chain Equipment Co., Ltd. is a trusted partner for all your refrigeration project needs, offering a blend of expertise, innovation, and reliability that sets it apart in the competitive market.

Project Cases

Logistics cold chain warehouse

Industrial Factory

Medical chemical industry

Food cold chain warehouse

Dairy Industry cold room

Juice and food processing industry

Absolutely, Zhengjiang Damai Cold Chain Equipment Co., Ltd.'s specialization across the entire refrigeration industry is indeed a defining feature that sets them apart from the competition. Their comprehensive understanding of the sector, from system design and installation to maintenance and troubleshooting, allows them to offer highly tailored solutions that precisely address the unique challenges and requirements of each client.

Their expertise in designing and installing complex refrigeration systems ensures that their clients receive state-of-the-art solutions that are both efficient and reliable. Whether it's a large-scale commercial cold storage facility or a specialized system for a niche industry, Zhengjiang Damai has the know-how to create a system that perfectly aligns with the client's needs and goals.

Specifications	
Type	Polyurethane sandwich panels
PU Thickness	50mm/75mm/100mm/150mm/200mm/250mm
Metal sheet thickness	0.3~0.8mm
Effective Width	1000mm/1120mm
Surface	Prepainted
Thermal conductivity	0.023
Fireproof grade	B1/A1
Temperature range	-55~+160°
Density	35~45kg/m³
Color	RAL or customization
Service	OEM/ODM
Customization is welcome	

Moreover, their commitment to maintenance and troubleshooting services means that clients can rely on Zhengjiang Damai for ongoing support long after the initial installation. They understand that a well-maintained refrigeration system is essential for optimal performance and cost-effectiveness, and they are equipped to handle any issues that may arise promptly and effectively.

Export packaging

Transportation Safe and fast, our transportation method makes you worry-free!

By combining their deep industry knowledge, skilled team, and cutting-edge technologies, Zhengjiang Damai Cold Chain Equipment Co., Ltd. consistently delivers exceptional results that exceed client expectations. Their dedication to providing tailored solutions and unparalleled service has earned them a reputation as a trusted partner in the refrigeration industry.

FAQ

Q: Are you a factory or a trading company?

A: We are professional manufacturer specialized in refrigeration equipment.

Q: How many different types of products your company manufactures?

A: Now we have more than 1,000 products. We have a strong advantage of OEM, just give us the actual products or your idea that you want, we will manufacture for you.

Q: What's your MOQ?

A: If we have the products in stock, it will be no MOQ. If we need to produce, we can discuss the MOQ according to customer's exact situation.

Q: Visting factory is allowed or not?

A: Yes, we welcome customers visiting our factory. Our factory is located Shaoxin city,Zhejiang province,China mainland.

Why choose our company ?

- 1.Because our company has CAC official .
- 2.We have a good one-year after-sales service.
- 3.We have over 20 years of sales experience.
- 4.We have our own factory.
- 5.We will try our best to provide a professional response as soon as possible.

Product advantages

1.Quite operation:

This is particularly important in environments where noise can be disruptive or distracting, such as offices, hospitals, and residential areas. Quiet operation ensures that the system runs smoothly and efficiently without disturbing those in the surrounding area.

2.Seamless connection:

A seamless connection is critical for the reliable and efficient functioning of any system. It ensures that all components are securely and properly connected, reducing the risk of malfunctions or failures.

3.Easy installation:

Easy installation can save time and money, as it reduces the need for specialized labor and can be completed more quickly. This is particularly important in large-scale projects or those with tight deadlines.

4.Beautiful and elegant placement of circuit devices:

A well-designed system should not only function effectively but also look aesthetically pleasing. The beautiful and elegant placement of circuit devices can enhance the overall appearance of the system and contribute to a more professional and polished look.

5.Using the best equipment:

Choosing the best equipment for the job ensures that the system is reliable, efficient, and capable of meeting the demands of the project. High-quality equipment is often more durable and less prone to malfunctions, reducing the need for repairs and replacements.

6.Not easily damaged:

Durability is a key consideration in any system, as it helps to ensure that the system can withstand the rigors of daily use and the potential hazards of the environment. Equipment that is not easily damaged can help to reduce maintenance costs and extend the life of the system.
