

Size Customized Air Cooler Condenser Quiet Operation With 0.3-1.2mm Tubes

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-LNQ-0002
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T;L/C
- Supply Ability: 1000000pcs/year

Product Specification

- Name: Air Cooler Condenser
- Condition: New
- Size: Various Sizes Available
- Tube Pitch: 1.5 Times Tube Diameter
- Cooling Capacity: Depends On Size And Material
- Application: Refrigeration Parts
- Tube Type: Smooth, Grooved
- Fins Per Inch: 8, 10, 12, 14, 16
- Tube Thickness: 0.3mm - 1.2mm
- Highlight: Size Customized Air Cooler Condenser,
Air Cooler Condenser Quiet Operation,
CE Air Cooler Condenser

Product Description

Air Cooler Condenser with 0.3-1.2mm Tubes for Optimal Cooling

Product Description:

The product has a reasonable structure and excellent interchangeability. It can also be equipped with various compressors, making it highly versatile.

The product is equipped with both window fin and honeycomb fin, which can meet the needs of different customers and provide efficient performance.

The product undergoes air tightness tests at 3.0MPa air pressure to ensure high air tightness quality before leaving the factory.

The product's film spacing is adjustable between 1.7mm~3.0mm to meet the different needs of customers under various environmental conditions.

According to the customer's requirements, the product can be installed with different types of condensing fans to enhance functionality.

Features:

Quiet Operation

Our products are designed to provide you with a noise-free experience. We understand how important it is to have a peaceful environment, especially at home or in the workplace. Our engineers have developed components that are crafted with precision and care to ensure that our products work quietly and efficiently.

Seamless Connection

Our products come with advanced features that make them easy to connect to various devices. With seamless connectivity options, you can easily connect your products to your preferred devices without having to go through complicated setup or pairing processes. Whether you are working on your computer or enjoying music on your mobile device, our products provide the most reliable and hassle-free connections.

Easy Installation

We understand that installation can be a frustrating process, particularly for those who are not familiar with electronic devices. That's why we have developed products that come with easy installation guides. With our easy-to-follow instructions and user-friendly interfaces, you can be sure to get your products up and running in no time.

Beautiful and Elegant Placement of Circuit Devices

Our products are not only designed to function well, but also to enhance the overall aesthetics of your environment. We understand that electronic devices are part of our daily lives and should blend in seamlessly with our surroundings. Our circuit devices are crafted with beautiful and elegant designs that can complement any space and elevate the overall design of your home or office.

Using the Best Equipment

At our company, we take pride in using only the best equipment to manufacture our products. We invest in top-of-the-line equipment to ensure that we deliver exceptional products to our customers. Our engineers and technicians work tirelessly to research and develop the latest advancements in technology to create products that meet and exceed your expectations.

Not Easily Damaged

We understand that in today's fast-paced world, accidents happen. Dropping or bumping electronic devices is common. That's why our products are designed to withstand wear and tear. Our engineers have conducted rigorous tests to ensure that our products are not easily damaged, so you can have peace of mind knowing that your products will continue to function well even after an accidental drop or bump.

Technical Parameters:

The following table contains the specifications of different fan models:

No.	Model	Motor	Blade diameter(mm)
1	FNUK--060	1	500
2	FNUK-080	2	450
3	FNUK-100	2	500
4	FNUK-120	2	500

5	FNUK-140	2	500
6	FNUK-160	2	500

Applications:

Steam condenser: This air cooler condenser is perfect for steam condensation in various industries such as chemical, petroleum, and power generation. With its reliable and efficient performance, it can handle a wide range of steam flow rates and temperatures, making it an ideal choice for steam condensation.

Air condenser cooler: DM-LNQ-0002 air cooler condenser is also suitable for cooling air in HVAC systems and refrigeration units. The fins per inch range from 8 to 16, allowing different heat transfer capacities to meet different cooling requirements of the air conditioning system.

Air conditioner condenser evaporator: This product is also applicable for air conditioner condenser evaporator units. The fin and tube type and tube pitch of 1.5 times tube diameter ensure high-efficiency heat transfer and low-pressure drop, resulting in a high cooling capacity and energy-saving performance.

The minimum order quantity for this product is 1, and the price ranges from \$200 to \$100000, depending on the size and material. The packaging details include a wooden case, ensuring the product's safe transport. The delivery time is 30 work days, and payment terms are T/T and L/C. With a supply ability of 1000000pcs/year, this product can meet customer demands in various industries.

Choose DM-LNQ-0002 air cooler condenser for reliable and efficient heat transfer and cooling solutions for your steam condensation, air conditioning, and refrigeration needs.
