

Quiet Operation Air Cooled Condenser For Power Plant / Cooling Industry

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-LNQ-0002
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T;L/C
- Supply Ability: 1000000pcs/year

Product Specification

- Condition: New
- Corrosion Resistance: Salt Spray Test Up To 1000 Hours
- Tube Diameter: 5mm, 7mm, 9.52mm, 12.7mm, 15.88mm
- Tube Thickness: 0.3mm - 1.2mm
- Tube Pitch: 1.5 Times Tube Diameter
- Fin Type: Louvered, Wavy, Corrugated
- Tube Type: Smooth, Grooved
- Size: Various Sizes Available
- Name: Air Cooled Condenser For Power Plant
- Highlight: **Quiet Operation Air Cooled Condenser,
Air Cooled Condenser For Power Plant,
Air Cooled Condenser Power Plant**

Product Description

Customizable Air Cooler Condenser for Specific Cooling Requirements

Product Description:

Our product boasts of a solid and efficient structure that offers great interchangeability. It can also be equipped with different types of compressors, thus adding to its adaptability and versatility.

We offer two types of fins that cater to the diverse requirements of customers. The window fin and honeycomb fin are both available, each designed to meet specific application needs.

Air tightness is a crucial consideration in our product manufacturing. We conduct an air tightness test with an air pressure of 3.0MPa to ensure that our product meets strict quality standards before leaving the factory.

The film spacing we offer can be adjusted between 1.7mm~3.0mm to cater to the needs of different customers under varying environmental conditions.

We understand that different customers have different requirements, so we offer a range of condensing fans that can be configured according to individual needs. This provides customers with the flexibility to choose the best-suited condensing fan for their specific application.

Features:

Quiet operation.

Silence is golden when it comes to operation, and we understand the importance of peacefulness. Our products are designed to emit minimal sounds during use, ensuring that you won't be disturbed by loud or obnoxious whirring noises.

Seamless connection.

Our top priority is to provide products that connect effortlessly to your other devices. We understand that devices must work together in harmony for the best user experience, which is why we ensure our products are equipped with the latest connection technology available in the market.

Easy installation.

No one wants to spend hours trying to install a product. Our team of experts have designed our products to be easily installed in just a few steps. We provide clear instructions and support to ensure that installation is a smooth process.

Beautiful and elegant placement of circuit devices.

Circuit devices are known for being unsightly and ruining the ambiance of any room. However, our products are designed with a focus on aesthetics, ensuring that they perfectly blend in with the surroundings. Say goodbye to bulky and unattractive circuit devices once and for all.

Using the best equipment.

At our company, we believe in using only the best equipment for our products. This guarantees that our products are of high quality and will deliver optimal performance. Our team is dedicated to sourcing and researching the best equipment so that our customers receive the best possible experience.

Not easily damaged.

We understand that accidents happen, but our products are made to withstand them. Our team of engineers ensure that our products are built with durability in mind, ensuring that they can withstand frequent use and unexpected drops, bumps or hits.

Technical Parameters:

Fan Model Details

The following table contains the specifications of different fan models:

No.	Model	Motor	Blade diameter(mm)
1	FNUK--060	1	500
2	FNUK-080	2	450
3	FNUK-100	2	500
4	FNUK-120	2	500
5	FNUK-140	2	500
6	FNUK-160	2	500

Applications:

DM-LNQ-0002 is an H-Type Air Cooled Condenser manufactured by DM, a well-known brand in the cooling industry. It is made in China

with CE and ISO certification, ensuring its quality and reliability. This product is suitable for various applications and scenarios. One of the most common applications of DM-LNQ-0002 is as an Air Conditioner Condenser Evaporator. This product can effectively cool the air and maintain the temperature of the room. It is perfect for use in homes, offices, and commercial buildings. With its cooling capacity that varies depending on the size and material, DM-LNQ-0002 can provide efficient cooling and ensure the comfort of the people in the room.

DM-LNQ-0002 can also be used in industrial settings. With its ability to handle high pressures, this product is suitable for use in various industrial processes that require cooling. Its tube thickness of 0.3mm - 1.2mm allows it to withstand high temperatures and pressures, making it ideal for use in chemical plants, refineries, and power plants.

Another application of DM-LNQ-0002 is in the food and beverage industry. This product can be used in the cooling of food and beverages during production and storage. Its various sizes available make it versatile enough to fit in different production lines.

DM-LNQ-0002's packaging details include a wooden case to ensure that the product arrives at its destination in good condition. It has a minimum order quantity of 1 and a price range of \$200 to \$100,000, depending on the size and material. It has a delivery time of 30 work days and payment terms of T/T and L/C. With a supply ability of 1,000,000pcs/year, this product is readily available for various applications.

In summary, DM-LNQ-0002 is an H-Type Air Cooled Condenser that can be used in various applications and scenarios. Its cooling capacity, tube thickness, and ability to handle high pressures make it suitable for use in different industries, including the food and beverage industry, chemical plants, refineries, and power plants. With DM's reputation for quality and reliability, this product is an excellent choice for those in need of an air cooling solution.
