

High Accuracy Quick Tunnel Freezer Customized Dimension 1 Year Warranty

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Model Number: DM-SDSD

Product Specification

- Machinery Test Report: Provided
- Key Selling Points: High-accuracy
- Power Consumption: Customized
- Cooling System: Direct Expansion
- Rapid Freezing: -35°C
- Dimension: Customized
- Warranty: 1 Year
- Belt Speed: 0-10m/min
- Highlight: **High Accuracy Quick Tunnel Freezer, Quick Tunnel Freezer Customized**

Product Description

Accuracy Quick Tunnel Freezer With Customized Power Consumption

Product Description:

Quick Freezing Tunnel

The quick freezing tunnel is specially designed to transport products quickly and efficiently from the inlet to the outlet through a conveyor belt. Its main purpose is to achieve the desired quick freezing effect in a short period of time.

The quick freezing process is made possible with the use of multiple air-cooled evaporators. These evaporators supply air to the product, which helps to quickly cool it to room temperature. This process is much faster than traditional freezing methods, which can take several hours to freeze a product.

With the help of the quick freezing tunnel, food products can be quickly frozen, helping to preserve their quality and freshness. This is especially important in industries such as food processing and storage, where timely freezing can prevent spoilage and waste.

Applications:

A tunnel freezer is a type of freezer suitable for various food processing industries, including flour food, fruit and vegetable, meat, aquatic food, and prefabricated food processing. It comes in a tunnel-like shape that allows food to move through it at a controlled speed. This makes it ideal for freezing large quantities of food.

In the flour food processing industry, tunnel freezers are used to freeze dough before baking. This makes the dough easier to handle and produces a better final product. In the fruit and vegetable industry, the freezer is used to freeze produce to preserve its freshness and extend its shelf life. For the meat processing industry, tunnel freezers help preserve meat by freezing it quickly, which helps maintain a high level of quality.

When it comes to aquatic food processing, the tunnel freezer is used to freeze fish and other seafood quickly. This maintains the quality and extends the shelf life of the product. Finally, in the prefabricated food industry, the tunnel freezer is used to freeze prepared meals, ensuring that they stay fresh until they are reheated and served.

A tunnel freezer is a type of freezer suitable for various food processing industries, including **flour food**, **fruit and vegetable**, **meat**, **aquatic food**, and **prefabricated food** processing. It comes in a tunnel-like shape that allows food to move through it at a controlled speed. This makes it ideal for freezing large quantities of food.

In the **flour food processing** industry, tunnel freezers are used to freeze dough before baking. This makes the dough easier to handle and produces a better final product. In the **fruit and vegetable industry**, the freezer is used to freeze produce to preserve its freshness and extend its shelf life. For the **meat processing** industry, tunnel freezers help preserve meat by freezing it quickly, which helps maintain a high level of quality.

Belt Material	Food Grade SUS304 Stainless Steel/Modular Plastic
Condensing Type	Air cooling
Inside Temperature	40 Degree Centigrade
Cooling Method	Indirect Cooling
Condition	New
Transport Package	Wooden box

Origin	China
HS Code	8418699090

Customization:

DM offers product customization services for the DM-SDSD rapid tunnel cooler, also known as the fast tunnel cooler or instant tunnel chiller, which is manufactured in China. Our rapid freezing technology can reach temperatures as low as -35°C, ensuring your products are quickly and efficiently frozen. The conveyor speed is customizable to meet your specific production needs, with a capacity of up to 1000kg/h. We also offer customized dimensions to fit your processing line. Our DM-SDSD rapid tunnel cooler comes with a 1-year warranty for your peace of mind.

Support and Services:

The Quick Tunnel Freezer product is designed to provide fast and efficient freezing for a variety of food products. Our technical support team is available to assist with any questions regarding installation, operation, or maintenance of the freezer. We also offer regular servicing and repair services to ensure optimal performance of the product. In addition, we provide training and education to help customers maximize the benefits of the Quick Tunnel Freezer. Contact us today to learn more about our technical support and services.

Packing and Shipping:

Product Packaging:

Each unit will be packed in a sturdy cardboard box to ensure safe transport.

All necessary accessories and parts will be included in the package.

The package will be labeled with the product name, description, and other relevant information.

The box will be sealed with adhesive tape to prevent any damage or tampering during transit.

Shipping:

Our shipping partner will ensure that the package is delivered to your address within the stipulated timeframe.

You will receive a tracking number once the package is dispatched, which will allow you to track your shipment online.

Please ensure that someone is available at the delivery address to receive and sign for the package.

If there is any damage to the package or the product during shipping, please contact us immediately for assistance.

FAQ:

Q: What is the brand name of this product?

A: The brand name of this freezer is DM.

Q: Where is this freezer manufactured?

A: This freezer is manufactured in China.

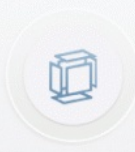

Q: What is the freezing capacity of this freezer?

A: The freezing capacity of this freezer is 500kg/hour.

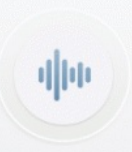

Q: What is the warranty period for this freezer?

A: We cannot provide warranty information in this Q&A. Please refer to the warranty documentation included with your purchase.
