

Stainless Steel Cold Room And Freezer Room , Large Cold Room Cold Storage

Our Product Introduction

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-0019
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 300000

Product Specification

- Core Components: Pressure Vessel, Motor, Bearing
- Evaporator Type: Air Cooler/Plate Cooler
- Compressor: Konor / Danfoss
- Size: Any Size Is Ok
- Machinery Test Report: Provided
- Condenser Type: Air Cooled/Water Cooled
- Panel: PU Panels
- Material: Color Steel
- Power Consumption: 2.5 KW
- Doors: Sliding Or Hinged
- Voltage: 380V/220V
- Keyword: Cold Room
- Door Material: Stainless Steel
- Warranty: 1 Year
- Electrical Components: LG

Product Description

Customizable industrial low temperature preservation cold storage to keep food fresh

Product Description:

Our model number is DM-LK-0019 and we can customize the dimensions according to your needs.

We use polyurethane cold storage board for the panels and fitting reducers for the copper tube connector. We can customize the voltage to 380V, 460V, or 220V. Our cold rooms come with an automatic electric controller that includes a PLC.

We provide options for refrigerants such as R404a, R22a, and R134a. Our cold rooms undergo a 2.6Mpa leak-proof stress test to ensure high quality and durability. We offer different door types including swing, sliding, double, and single doors. In addition, we provide various types of compressors such as piston, screw, scroll, and more.

Our cold rooms are suitable for fresh keeping and freezing purposes. We have a density of panel ranging from 40-42kg/cm³ and we have been certified with ISO and CE credentials. Our core material consists of either rock wool or polyurethane, depending on your preference. Also, we offer a temperature range from -60°C to +20°C as optional/customizable features. All necessary fittings are included, with additional options also available.

Features:

Product Name: Cold Room

Usage: This product is designed to store food for prolonged periods of time.

Defrost Type: There are three defrost types available for the Cold Room: electric defrosting, compressed air defrosting, and hot gas defrosting. Each type has its own benefits and drawbacks, and the best option for your specific usage will depend on your unique needs.

Compressor: The Cold Room is equipped with a high-quality compressor from one of three trusted brands: Danfoss, Copeland, or Bitzer. These brands are known for their reliability and efficiency, ensuring that your Cold Room will operate at peak performance for years to come.

Condenser Type: Depending on your specific needs and usage requirements, you can choose between two condenser types: air cooled or water cooled. Each type has its own benefits and drawbacks, and our team of experts can help you select the best option for your unique needs.

Technical Parameters:

Compressor	Konor / Danfoss
Voltage	220V, 380V
Usage	Store food
Condition	New
Panel	PU Panels
Defrost Type	Electric Defrosting
Core Components	Pressure Vessel, Motor, Bearing
Panel Material	High Density PU Foam
Cooling System	Compressor/ Condenser/ Evaporator
Size	Customized

Applications:

Our company is proud to offer the DM-LK-0019 Cold Storage Room, a highly advanced and versatile storage solution for businesses that need to store food products, industrial materials, or agricultural products. This cold storage room is designed with an advanced cold room air cooler system that is able to maintain a consistent temperature, keeping your products fresh and ventilated. Additionally, the electric defrost system enables easy maintenance, making it an ideal solution for businesses seeking to balance convenience and efficiency.

Whether you need to store food at low temperatures or rapidly cool industrial products, the DM-LK-0005 Cold Storage Room has got you covered. This product is specially designed for businesses that need to store a wide range of materials, including chemicals and pharmaceuticals, thanks to its advanced cooling system that can quickly bring down the temperature to the required level.

The DM-LK-0019 Cold Storage Room is also suitable for agricultural products such as fruits and vegetables. With its energy-efficient design, the room can maintain a consistent temperature, ensuring that products remain fresh for longer. The room

also features a Konor/Danfoss compressor that is designed to maintain the required temperature even in extreme conditions. At our company, we are committed to providing our customers with the best quality cold storage solutions. With the DM-LK-0019 Cold Storage Room, you can rest assured that you are getting a reliable and high-quality product that meets all your cold storage needs. The unit is CE and ISO certified, ensuring that it meets the highest standards of quality and safety. The minimum order quantity is 1, and the price ranges from \$2000 to \$100000 depending on the size and configuration of the unit. We offer a delivery time of 30 work days and payment terms of T/T. Get in touch with us today to learn more about how the DM-LK-0019 Cold Storage Room can be tailored to your unique cold storage requirements.

FAQ:

Here are some frequently asked questions about our DM-0019 Freezer Cold Room:

Q: What is the brand name of this product?

A: The brand name of this product is DM.

Q: Where is this product made?

A: This product is made in China.

Q: What certifications does this product have?

A: This product is certified with CE and ISO.

Q: What is the minimum order quantity for this product?

A: The minimum order quantity for this product is 1 unit.

Q: What is the price range for this product?

A: The price range for this product is between \$2000 to \$100000.

Q: What type of packaging is used for this product?

A: This product is packaged in wooden cases.

Q: How long does it take for delivery?

A: Delivery time is about 30 work days.

Q: What payment terms are accepted for this product?

A: We accept T/T as payment for this product.

Q: What is the supply ability of this product?

A: The supply ability for this product is 300000 units.
