

Commercial Freezer Cold Room 220V 380V Air Cooled / Water Cooled

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-0005
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 300000

Product Specification

- Name: Commercial Freezer Cold Room
- Panel Material: High Density PU Foam
- Condition: New
- Usage: Cold Storage
- Condenser Type: Air Cooled/Water Cooled
- Cooling System: Compressor/ Condenser/ Evaporator
- Compressor: Konor / Danfoss
- Voltage: 220V, 380V
- Size: Any Size Is Ok
- Highlight: **Commercial Freezer Cold Room,
Freezer Cold Room 220V ,
Commercial Cold Room Freezer**

High-Performance Freezer Cold Room for Your Commercial Cold Storage Needs

Product Description:

The product being offered is the DM-LK-0002 model cold storage unit. The dimensions of the unit can be customized to the buyer's specifications. The panels of the unit are constructed from polyurethane cold storage board, while the copper tube connectors feature fitting reducers.

The voltage of the unit can be customized based on the buyer's needs, with options including 380V, 460V, and 220V. An automatic electric controller, as well as a PLC, is included to facilitate ease of use. The refrigerant used in the unit can be selected from among R404a, R22a, and R134a, ensuring that customers can choose the best option for their particular application.

The product is subjected to a 2.6Mpa leak-proof stress test, assuring buyers of its high quality. Door type options include swing door, sliding door, double door, and single door. Meanwhile, the type of cold room compressor available includes piston, screw, scroll and others.

The unit is suitable for use in both fresh keeping and freezing applications. It is built to last, featuring a high-density panel measuring 40-42kg/cm³ and a core material made from rock wool and polyurethane. Our products meet the ISO and CE standards for quality assurance.

The temperature range of the unit can be customized to suit the buyer's specific needs, with options ranging from -60°C to +20°C. The unit comes with all the necessary fittings included, allowing customers to get started using the unit right away. Customers can rest assured that

they are getting a high-quality product that is built to last.

Use nature/Suitable for	Tempreture range
Fruit ripening	>25
Processing room	+12~+19
Fruit, vegetable, dry food	-5~+10
Medicine, cake, pastry, chemical material	0~+5
Ice storage room	-5~-10
Fish, meat storage	-18~-25
Deep freezer, low temperature storage, quick-freeze, blast freezer	-25~-40

Features:

Cold Room for Food Storage

If you are looking for a reliable cold room for storing food, our product is the perfect solution. Our cold room is designed to maintain a consistent temperature to preserve the quality of your food.

Defrost Type

Our cold room comes with various defrosting options to meet different needs. You can choose from electric defrosting, compressed air defrosting, or hot gas defrosting. Each option has its own benefits and can be tailored to your specific requirements.

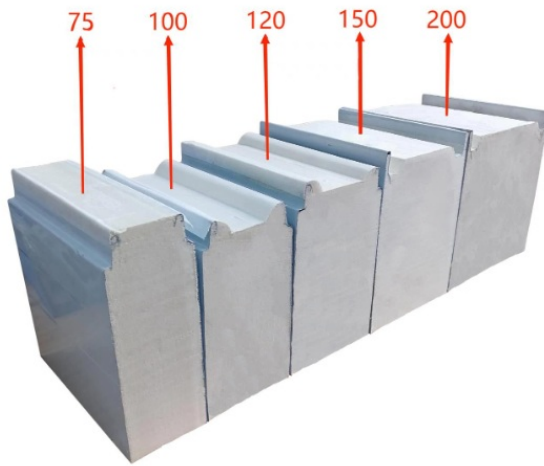

Compressor

We use only high-quality compressors from Danfoss, Copeland, and Bitzer in our cold rooms. These compressors are known for their efficiency and durability, ensuring that your cold room runs smoothly for years to come.

Condenser Type

We offer both air cooled and water cooled condenser types for our cold rooms. Air cooled condensers are ideal for small to medium-sized rooms, while water cooled condensers are best for larger rooms or areas with high ambient temperatures. Our team can help you choose the best type for your specific needs.

Freezer Room PU Panel:

Material selection:

Color steel plate, stainless steel plate, nano anticorrosive plate, specific materials, according to customer requirements, customized thickness and color.

Advantages:

High pressure strength, flexible combination, easy installation, etc.

Condensing Unit:

•Compressor Optional:

1-Hermetic Scroll

2-Semi-hermetic or Screw

•Condenser: Air cooled or Water cooled

•Frame: can be steel shell with spray painting or open type on steel frame

•Refrigerant: R404a/R410a

•Capacity: Single compressor 2HP-50HP

Air cooler:

Size can be customized

Defrosting speed is fast, effect is good, energy consumption is small

Selection of well-known fan motor, low noise, large air volume

Aluminum profiles are processed by hot and cold processes in the production process, which has strong corrosion resistance

Beautiful appearance, double shell spray

Applications:

Cold Storage Room for Food Storage

The DM-LK-0005 Cold Storage Room is an ideal solution for businesses that require a low-temperature environment for food storage. The advanced cold room air cooler system helps to maintain a consistent temperature that keeps food fresh for a longer time. With an electric defrosting system, the room is easy to maintain and the high-density PU foam panel material ensures the room is well-insulated and energy-efficient. Moreover, it comes equipped with a temperature alarm and power failure alarm to ensure your products remain protected.

Blast Cold Room for Industrial Applications

The DM-LK-0005 Cold Storage Room is also suitable for industrial applications, especially for businesses that require rapid cooling. The room's advanced cooling system can bring down the temperature to the required level quickly. Thus, it is perfect for storing sensitive materials such as chemicals, pharmaceuticals, or other delicate items.

Cold Storage Room for Agricultural Products

The DM-LK-0005 Cold Storage Room is an excellent choice for businesses that need to store agricultural products like fruits and vegetables. With its energy-efficient design, the room can maintain a consistent temperature and keep products fresh for a longer time. The room's Konor/Danfoss compressor guarantees that the room can maintain the required temperature, even in extreme conditions.

Product Details

If you are looking for a cold storage room, then the DM-LK-0005 Cold Storage Room is a perfect solution. This product has a high-quality construction, advanced cooling system, and temperature and power failure alarms to meet all your cold storage needs. The minimum order quantity is 1, and the price depends on the size and configuration of the unit, ranging from \$2000 to \$100000. Delivery time takes around 30 workdays, and payment terms are T/T. The product is CE and ISO certified, ensuring that it meets the highest standards of quality and safety.

FAQ:

Q1: What is the brand name of this freezer cold room?

A1: The brand name of this freezer cold room is DM.

Q2: Where is this freezer cold room manufactured?

A2: This freezer cold room is manufactured in China.

Q3: What certifications does this freezer cold room have?

A3: This freezer cold room has CE and ISO certifications.

Q4: What is the minimum order quantity for this freezer cold room?

A4: The minimum order quantity for this freezer cold room is 1.

Q5: What is the price range of this freezer cold room?

A5: The price range of this freezer cold room is between \$2000 and \$100000.

Q6: What are the packaging details for this freezer cold room?

A6: The packaging details for this freezer cold room include wooden case.

Q7: What is the delivery time for this freezer cold room?

A7: The delivery time for this freezer cold room is 30 work days.

Q8: What are the payment terms for this freezer cold room?

A8: The payment terms for this freezer cold room are T/T.

Q9: What is the supply ability for this freezer cold room?

A9: The supply ability for this freezer cold room is 300000.
