

Customized Conveyor Quick Tunnel Freezer 1000kg/H Individual Quick Freezing Machine

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE
- Model Number: DM-SDSD
- Minimum Order Quantity: 1
- Price: 5000
- Packaging Details: Customized according to customers
- Delivery Time: 30 work day
- Payment Terms: L/C, T/T, D/P, D/A
- Supply Ability: 1000pcs/year

Product Specification

- Power Consumption: Customized
- Warranty: 1 Year
- Conveyor Speed: Customized
- Product: Tunnel Blast Freezer
- Temperature Range: -40 To -18
- Size: Customized
- Capacity: 1000kg/h
- Cooling System: Direct Expansion
- Power Supply: Electric
- Air Cooler: DJ25
- Voltage: 220V/380V
- Temperature: -60 ~ +20
- Conveyor System: Chain Conveyor

Product Description

Speed Quick Tunnel Freezer for 1000kg/h Capacity Individual Quick Freezing Customized Conveyor

Product Description:

The fully automatic industrial frozen potato chip production line is designed to manufacture fresh potato chips or fries. The process begins by cleaning and peeling the potato, and then cutting it into flat or wavy potato chips or stick-shaped fries using various cutting tools. After bleaching, drying, frying, and seasoning, the mouthwatering Pringle potato chips are produced.

The quick freezing tunnel is utilized to transport products from the inlet to the outlet via a conveyor belt. Multiple air-cooled evaporators supply air to the product to cool it quickly to room temperature in a short period of time, resulting in the effect of quick freezing.

Applications:

The process of quick freezing involves the use of a quick freezing tunnel that is designed to transport goods from the inlet to the outlet using a conveyor belt. During this process, multiple air-cooled evaporators are used to supply air to the product so that it can be quickly cooled to room temperature.

The main objective of the quick freezing tunnel is to ensure that the products are frozen quickly and efficiently. This is achieved by ensuring that the evaporators are able to supply the required amount of air needed to cool the product within a short period of time. Once the product has reached the desired temperature, it is then transported to the outlet using the conveyor belt, ready to be packaged and sold.

The use of the quick freezing tunnel has revolutionized the food industry by allowing for the mass production of frozen food items. With this technology, food manufacturers can now produce large quantities of products in a short amount of time, and with the added advantage of preserving the quality of the products.

Customization:

Customize your DM-SDSD Instant Tunnel Chiller with our product customization services. Our Quick Tunnel Freezer is the perfect solution for expeditious blast freezing and swift blast storage of your products.

Based in China, DM offers a high-accuracy Individual Quick Freezing function and a Direct Expansion cooling system. We provide customized power consumption options to fit your unique needs.

Our Quick Tunnel Freezer comes with a machinery test report and is designed to meet your specific requirements. Choose DM for a reliable and efficient freezing solution.

Support and Services:

Our Quick Tunnel Freezer product comes with comprehensive technical support and services to ensure smooth and efficient operation. Our team of experts is available to offer assistance in installation, commissioning, and training of your staff on how to operate the machine.

We also offer regular maintenance services to keep your Quick Tunnel Freezer in top condition and minimize downtime. Our maintenance services cover cleaning, lubrication, and inspection of critical components such as the conveyor, refrigeration system, and electrical controls.

In case of any issues with the equipment, our technical support team is available to offer remote or on-site assistance. We have a dedicated hotline where you can reach us for technical support and troubleshooting. Our team is well-trained and experienced in diagnosing and resolving issues quickly and effectively.

Additionally, we offer spare parts and accessories to ensure that your Quick Tunnel Freezer runs smoothly and efficiently. Our spare parts are genuine and designed to fit seamlessly with your equipment.

Packing and Shipping:

Product Packaging:

The Quick Tunnel Freezer will be packaged in a sturdy cardboard box.
All necessary parts and instruction manual will be included inside the box.
The product will be protected with foam padding to prevent any damage during shipping.

Shipping:

Shipping will be handled by a reputable courier service.
The product will be shipped within 1-2 business days after the order is placed.
The estimated delivery time will depend on the destination, but typically takes 3-5 business days.
A tracking number will be provided once the product has shipped.
International shipping is available, but additional fees may apply.

Belt Material	Food Grade SUS304 Stainless Steel/Modular Plastic
Condensing Type	Air cooling
Inside Temperature	40 Degree Centigrade
Cooling Method	Indirect Cooling
Condition	New
Transport Package	Wooden box
Origin	China
HS Code	8418699090

FAQ:

Q: What is the brand name of this freezer?

A: The brand name of this freezer is DM.

Q: What is the model number of this freezer?

A: The model number of this freezer is DM-SDSD.

Q: Where is this freezer manufactured?

A: This freezer is manufactured in China.

Q: What is the capacity of this freezer?

A: The capacity of this freezer varies depending on the model and configuration. Please consult the product specification sheet for more information.

Q: What is the freezing time for this freezer?

A: The freezing time for this freezer varies depending on the product being frozen and the desired temperature. Please consult the product specification sheet for more information.
