

Stainless Steel IQF Tunnel Freezer Customized Individual Quick Freezing Equipment

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE
- Model Number: DM-SDSD
- Minimum Order Quantity: 1
- Packaging Details: Customized according to customers
- Delivery Time: 30 work day
- Payment Terms: L/C, T/T, D/P, D/A
- Supply Ability: 1000pcs/year

Product Specification

- Size: Customized
- Cooling System: Direct Expansion
- Rapid Freezing: -35°C
- Temperature Range: -40 To -18
- Product: Tunnel Blast Freezer
- Key Selling Points: Easy To Operate
- Capacity: Varies Based On Model
- Warranty: 1 Year
- Function: Individual Quick Freezing
- Material: Stainless Steel
- Belt Width: Customized
- Rhythm: Flow Production Line
- Conveyor Speed: Customized

Product Description

Maximize Your Production with Quick Tunnel Freezer The Ultimate Freezing Solution

Product Description:

The industrial frozen potato chip production line is a fully automated system designed to produce delicious potato chips. The production process begins by washing and peeling fresh potatoes. Different cutting tools are then used to create flat or wavy potato chips or stick shaped potato chips. The potato chips are then bleached, dried, fried, and seasoned to perfection making delicious chips, like the famous Pringles.

To ensure that potato chips are quickly frozen, the quick freezing tunnel is utilized. This tunnel has a conveyor belt for transporting potatoes from the inlet to the outlet, where multiple air-cooled evaporators are installed to cool the product at room temperature in a short period of time. This achieves the desired effect of quick freezing.

Applications:

Quick Freezing Tunnel

The quick freezing tunnel is a useful machine that is used to transport products from the inlet to the outlet through a conveyor belt. This helps to ensure that products are smoothly transferred from one end to the other.

The tunnel is made up of multiple air-cooled evaporators that supply air to the product. This helps to quickly cool the product to room temperature in a short period of time. As a result, the quick freezing tunnel is able to achieve the effect of quick freezing for a variety of products.

With the help of the quick freezing tunnel, products can be preserved for longer periods of time without losing their freshness. This makes it a valuable asset for businesses that deal with perishable products.

Customization:

DM offers product customization services for its Quick Tunnel Freezer, model number DM-SDSD, produced in China. Our fast freezing system is designed for swift blast storage and instant tunnel chilling of your products. The belt speed is adjustable from 0-10m/min and the conveyor speed can be customized to meet your needs. The Rapid Freezing temperature is -35°C, ensuring your products are quickly frozen. Our Quick Tunnel Freezer is perfect for Individual Quick Freezing. We provide a 1-year warranty for our product to ensure your satisfaction.

Support and Services:

The Quick Tunnel Freezer is a high-performance freezing system designed to rapidly freeze food products while maintaining their quality and freshness. Our technical support and services team is dedicated to ensuring that your freezer operates at peak performance at all times.

We offer a range of services to help you get the most out of your Quick Tunnel Freezer, including:

- Installation and setup assistance
- Regular maintenance and servicing
- Repairs and replacement parts
- Training and support for your staff
- 24/7 customer support

Our team of experienced technicians is available to answer your questions and provide support whenever you need it. Whether you're experiencing an issue with your freezer or simply need some advice on how to optimize its performance, we're here to help.

Belt Material	Food Grade SUS304 Stainless Steel/Modular Plastic
Condensing Type	Air cooling
Inside Temperature	40 Degree Centigrade
Cooling Method	Indirect Cooling
Condition	New
Transport Package	Wooden box
Origin	China
HS Code	8418699090

Packing and Shipping:

Product Packaging:

- Quick Tunnel Freezer unit
- User manual
- Installation guide

Shipping:

- Shipping will be arranged within 24 hours of placing the order
- Product will be carefully packed to ensure safe delivery
- Delivery time may vary depending on the location
- A tracking number will be provided to track the shipment

FAQ:

Q: What is Quick Tunnel Freezer?
A: Quick Tunnel Freezer is a type of freezing equipment that uses a conveyor belt system to rapidly freeze food items such as meat, fish, vegetables, and fruits.

Q: What is the brand name of this Quick Tunnel Freezer?
A: The brand name of this Quick Tunnel Freezer is DM.

Q: What is the model number of this Quick Tunnel Freezer?
A: The model number of this Quick Tunnel Freezer is DM-SDSD.

Q: Where is this Quick Tunnel Freezer manufactured?
A: This Quick Tunnel Freezer is manufactured in China.

Q: What are the benefits of using Quick Tunnel Freezer?
A: The benefits of using Quick Tunnel Freezer include faster freezing time, higher product quality, longer shelf life, and increased productivity.
