

Energy Saving Air Cooling Condenser System For High Performance Industrial Cooling

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-LNQ-00020
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T;L/C
- Supply Ability: 1000000pcs/year

Product Specification

- Tube Type: Smooth
- Material: Copper/Aluminum
- Fin Type: Louvered Fin
- Tube Pitch: 1.5 Inch
- Number Of Fans: 1
- Fin Spacing: 2.5mm
- Voltage: 110-460 V
- Motor Power: 1/4 - 1 HP
- Tube Diameter: 7mm
- Fan Speed: 1200-1800 RPM
- Tube Material: Copper
- Dimensions: 400x400x120mm
- Fan Diameter: 120mm

Energy-Saving Air Cooler Condenser for High-Performance Industrial Cooling

Product Description:

Our product is known for its superior structure and exceptional interchangeability, making it stand out from the rest. The product is designed to accommodate multiple compressors without any inconvenience, making it the preferred choice for customers seeking a highly efficient system.

To cater to the diverse requirements of our customers, we offer honeycomb fin and window fin in a range of sizes and specifications. This ensures that customers can choose the product that best suits their needs and requirements.

We conduct air tightness tests on our product to ensure that it meets our high-quality standards. These tests are conducted at 3.0 MPa pressure, which guarantees optimal air tightness in the finished product.

Our film spacing can be adjusted from 1.7mm to 3.0mm to suit different customer requirements. We understand that customers operate under varying environmental conditions, and therefore flexibility in film spacing can be invaluable when seeking optimal performance.

Our solutions are fully customizable, as we offer condensing fans in different types and configurations based on unique customer requirements. This ensures that each customer receives a product that is tailored to their individual needs.

Technical Parameters:

No.	Model	Motor	Blade diameter(mm)
1	FNUK--060	1	500
2	FNUK-080	2	450
3	FNUK-100	2	500
4	FNUK-120	2	500
5	FNUK-140	2	500
6	FNUK-160	2	500

Features:

- Quiet Operation That Maintains Peaceful Environment**
- Our product is thoughtfully designed for quiet operation so that it operates in a non-disruptive way, which makes it a perfect fit for various environments. Whether it be a bustling office or a serene home, our devices work efficiently without creating any unwanted noise.
- Seamless Connection for Enhanced Communication**
- Our product offers uninterrupted and fast communication between devices, which makes it ideal for transferring files or connecting to the internet seamlessly. It eliminates delays and disruptions that can hamper your work or entertainment.
- Easy Installation for Everyone**
- Our product has a plug-and-play feature for easy and effortless installation. Even if you don't possess technical expertise, you can easily set it up and start using it right away. We believe in making our products accessible to everyone.
- Beautiful Placement for Aesthetics and Functionality**
- Unlike other products that present an unappealing mess of wires and devices, our devices are aesthetically pleasing and functional. We take pride in the placement of circuit devices in our product, which is both beautiful and efficient.
- Made of High-Quality Materials for Durability and Longevity**
- We use only the best materials to ensure our product meets high-quality standards. Our devices are built to last, making them durable and long-lasting. You can count on our product for reliability and longevity.
- Robust Construction for Challenging Environment**
- Our product is resilient and sturdy, making it capable of withstanding challenging environments without getting easily damaged. You can rest assured that it will continue to operate efficiently under tough conditions.

Applications:

The DM-LNQ-00020 Air Cooler Condenser is a high-quality product that is designed and manufactured in China. This product has been

certified with CE and ISO, ensuring that it meets the highest standards of quality and safety. The minimum order quantity for this product is 1, and the price ranges from \$200 to \$100,000 depending on the specific requirements of the customer. The packaging details include a sturdy wooden case to ensure that the product is protected during transportation. The delivery time is 30 work days, and the payment terms accepted are T/T and L/C. With a supply ability of 1000000pcs/year, the DM-LNQ-00020 Air Cooler Condenser is the perfect addition to any cold storage or freezer room condensing unit.

The DM-LNQ-00020 Air Cooler Condenser is ideal for use in a range of different scenarios and applications. One of the primary applications for this product is in cold storage facilities. The air-cooled FNH refrigeration condenser provides exceptional cooling power, allowing for the effective storage of perishable goods. The DM-LNQ-00020 Air Cooler Condenser is also perfect for use in freezer room condensing units, where it can maintain a consistent temperature even in extremely cold environments.

The DM-LNQ-00020 Air Cooler Condenser is also highly effective in air conditioning applications. The evaporator is designed to provide exceptional cooling power, making it ideal for use in large commercial or industrial buildings. The axial fan and direct drive motor ensure that the unit operates quietly and efficiently, while the copper tube material and 10-12 fins per inch fin spacing provide optimal heat transfer.

In conclusion, the DM-LNQ-00020 Air Cooler Condenser is a versatile and reliable product that is perfect for a range of different applications. With its high-quality construction, exceptional cooling power, and efficient operation, this product is a must-have for anyone looking to maintain consistent temperatures in cold storage facilities, freezer rooms, or large commercial or industrial buildings.

Support and Services:

The Air Cooler Condenser product comes with a range of technical support and services to ensure that it functions optimally throughout its lifespan. Our team of trained technicians is available to provide assistance with installation, maintenance, and repairs as needed. We also offer regular maintenance services to keep your air cooler condenser operating at peak efficiency and to help prevent breakdowns. In addition, we provide technical documentation and training to help you understand the features and operation of your air cooler condenser. This includes user manuals, instructional videos, and online resources to help you troubleshoot common issues. If you have any questions or concerns about your Air Cooler Condenser product, please do not hesitate to contact our customer support team for assistance.

FAQ:

Q: What is the brand name of the air cooler condenser?

A: The brand name of the air cooler condenser is DM.

Q: What is the model number of the air cooler condenser?

A: The model number of the air cooler condenser is DM-LNQ-00020.

Q: Where is the air cooler condenser manufactured?

A: The air cooler condenser is manufactured in China.

Q: What certifications does the air cooler condenser have?

A: The air cooler condenser is certified with CE and ISO.

Q: What is the minimum order quantity for the air cooler condenser?

A: The minimum order quantity for the air cooler condenser is 1.

Q: What is the price range for the air cooler condenser?

A: The price range for the air cooler condenser is between \$200 and \$100000.

Q: What are the packaging details for the air cooler condenser?

A: The air cooler condenser is packaged in wooden cases.

Q: What is the delivery time for the air cooler condenser?

A: The delivery time for the air cooler condenser is 30 work days.

Q: What are the payment terms for the air cooler condenser?

A: The payment terms for the air cooler condenser are T/T and L/C.

Q: What is the supply ability of the air cooler condenser?

A: The supply ability of the air cooler condenser is 1000000pcs/year.
