

Industrial Customization Efficient Evaporative Air Cooler For Walk In Freezer

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO;CCC
- Model Number: DM-HD50-140/46F
- Minimum Order Quantity: 1 Set
- Price: \$800/Set~\$2000/Set
- Packaging Details: Customized
- Delivery Time: 15-30 work days
- Payment Terms: T/T, L/C
- Supply Ability: 30000Sets/Year

Product Specification

- Defrost Type: Electric
- Air Flow: 18000CMH
- Fan Motor: Axial Fan
- Wind Flow: 30000m3/h
- Type: Air Cooler
- Capacity: 29.8KW
- Evaporator Type: Finned Tube
- Nmae: Refrigeration Evaporator
- Product Type: Cold Storage (Cold Room)
- Condition: New
- Fan Quantity: 1pcs To 2,3,4 Pcs
- Coil Tube: Copper
- Col: Copper Fin Type Heat Exchanger
- Material Of Fin: Aluminum
- Highlight: industrial cold room evaporator.

Product Description

Industrial Customization Efficient Evaporative Air Cooler For Walk In Freezer

Description:

There are more than a dozen common basic models of high-efficiency air coolers, which are classified according to the temperature of the cold storage: high temperature type, fin spacing 4.5mm; medium temperature type, fin spacing 6.0mm; low temperature type, fin spacing 90mm. The cooling capacity is from 1.1 to 46 KW, and it is suitable for commercial refrigeration, freezing and cold storage equipment in supermarkets.

This series offers a diverse range of cooling capacity options to choose from, ensuring that you can find one that best suits your specific needs.

Additionally, the ability to utilize different refrigerants provides increased flexibility and compatibility with various cooling applications.

With this level of adaptability to different refrigerants, this series is a great solution for a variety of industries and settings that require reliable and efficient cooling performance.

Model Description

High efficiency chiller features

1.Cooling capacity: The cooling capacity of the chiller with the same fin area is 1.4 to 1.5 times larger than that of the light tube.

2.Uniform frosting: optimized air flow and liquid separation circuit design, the use of new liquid dispenser, obviously uniform sheet coil junction.

3.High efficiency frost: electric heater spacing and power design is reasonable.

4.Highly Efficient: The product is highly efficient and the cooling effect is usually perfect

Technical Parameters:

DD Type ceiling air cooler technical parameters (HD50-140/46F)		
NUMBER	Item	Parameter
1	Refrigerating capacity	31300W
2	Nominal area	140
3	Volume	26.8L

DD Type ceiling air cooler technical parameters (HD50-140/46F)		
4	Fan Number	4
5	Fan diameter	500mm
6	Air Volume	4×6500m³/h

Applications:

They are suitable for commercial refrigeration, freezing and cold storage equipment in supermarkets

These units are perfect for maintaining cool temperatures in large spaces and can be used in conjunction with a variety of cooling systems.

They are especially useful in commercial settings where large amounts of temperature-sensitive products need to be kept chilled for extended periods of time.

With their versatility and durability, these refrigeration units are an essential component for any business in need of reliable cooling equipment.

Support and Services:

1. Our Cold Room Evaporator product comes with comprehensive technical support and services to ensure optimal performance and longevity.

2. Our team of experts is always available to provide assistance with installation, maintenance, and troubleshooting.

3. We also offer regular maintenance services to keep your cold room evaporator running smoothly and to prevent any potential issues.

4. In addition, we provide training and educational resources to help you better understand and utilize your cold room evaporator.

With our technical support and services, you can trust that your cold room evaporator will operate at optimal efficiency and reliability.

Packing and Shipping:

- The cold room evaporator is carefully packaged in a sturdy wooden case.
- The package also includes installation instructions and necessary hardware.
- The cold room evaporator will be transported by sea
- Shipping is available to most locations worldwide.
- The estimated delivery time will vary depending on the destination, but typically ranges from 7~15 business days.

FAQ:

Q1: What is the MAQ for this Cold Room Evaporator and what is the price range?

A1: The MAQ for this product is 1 SET and the price range is between \$800 and \$10000. The exact price will depend on the specific customization options required.

Q2: What are the packaging details for this Cold Room Evaporator?

A2: The packaging details for this product are customizable according to your specific requirements.

Q3: What is the delivery time for this Cold Room Evaporator?

A3: The delivery time for this product is 20 days.

Q4: What are the payment terms for this Cold Room Evaporator?

A4: The payment terms for this product are TT and L/C.
