

3 Fans Double outlet Air Cooler for Medium Temperature Cooling Performance

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-DSL125
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT, L/C
- Supply Ability: 300000/Year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Power Supply: 220V/380V/415V
- Dimensions: Custom
- Feature: Not Easy To Scale
- Cold Room Type: Blast Freezer
- Coil Tube: Copper
- Temperature: High, Medium, Low Temperature
- Application: Cold Storage/Cold Room/Freezer Room
- Storage: Low Temperature Storage
- Highlight: 220v cold room evaporator,
380v cold room evaporator,
220v freezer room evaporator

Product Description

3 Fans Double outlet Air Cooler for Medium Temperature Cooling Performance

Product Description:

Double outlet Series Air Cooler

The double outlet air cooler is a kind of cooling equipment in the warehouse suitable for the food processing room. The air is discharged from both sides, and the air supply is soft, and it is suitable for the use of the warehouse temperature above 8 °C. If the storage temperature is lower than 8 °C, a defrosting electric heater should be installed.

Features:

Product Features: Characteristics:

The shell is made of steel plate, the surface is sprayed with plastic, corrosion-resistant, and the appearance is beautiful.

The coils are arranged in a staggered way, and the copper tubes and the aluminum fins are closely combined by mechanical expansion, and the heat exchange effect is good.

Using external rotor motor, double-sided air outlet, soft air supply and low noise.

Applications:

The refrigeration units are suitable for commercial refrigeration, freezing, and cold storage equipment in supermarkets.

They are designed to maintain cool temperatures in large spaces, and can be easily paired with a variety of cooling systems to provide consistent cooling performance.

These units are especially beneficial in commercial settings where large quantities of temperature-sensitive products need to be kept chilled for extended periods of time, such as supermarkets or food distribution centers.

Due to their versatility and durability, these refrigeration units are an essential component for any business that requires reliable cooling equipment. They provide the peace of mind that comes with knowing that stored items are being kept at optimal temperatures, allowing businesses to focus on what is most important: serving their customers.

Technical Parameters:

DSL Type ceiling air cooler technical parameters (DSL125)		
NUMBER	Item	Parameter
1	Refrigerating capacity	37600W
2	Nominal area	125
3	Volume	18.5L

DSL Type ceiling air cooler technical parameters (DSL125)		
4	Fan Number	3
5	Fan diameter	500mm
6	Air Volume	3×6500m³/h

Packing and Shipping:

Product Packaging:-----
The Cold Room Evaporator will be packed in a sturdy cardboard box with foam padding to ensure safe transportation.
All necessary mounting hardware and instructions will also be included in the package.

Shipping:
The Cold Room Evaporator will be shipped via a reputable courier service.
Shipping times will vary depending on the destination, but customers can expect delivery within 3-5 business days.
A tracking number will be provided upon shipment so customers can track their package.
