

## Industrial Air Cooled Condenser with 380V Voltage and Direct Cooling System unit

Our Product Introduction

for more products please visit us on [coldroomunit.com](http://coldroomunit.com)

### Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-FNN
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

### Product Specification

- Number Of Fans: 2-6
- Cooling Method: Direct Cooling
- Application: Commercial/Industrial
- Dimensions: 3000x1200x2500mm
- Origin: China
- Voltage: 380V
- Keyword: Blast Freezer Condenser
- Type: Air-Cooled
- Highlight: industrial refrigeration air cooled condenser

## Product Description

### Product Description:

Air-Cooled Condenser is a type of cooling facility that is utilized in conjunction with cooling equipment. There are three variations of this type of condenser available: H, V, and U.

The H type is designed for side blowing, while the V and U types are constructed for roof blowing. The design of this type of condenser is well-structured, allowing for excellent interchangeability. Additionally, it can be equipped with a variety of compressors to meet specific customer needs.

The Air-Cooled Condenser is available with two types of fins: window fin and honeycomb fin, making it possible to address the needs and preferences of different customers.

### Features:

The Air-Cooled Condenser is a type of cooling facility used in conjunction with cooling equipment. It is available in three types: H, V, and W. The H type operates by blowing air from the side, while the V and W types blow air from the roof.

Its structure is designed to be practical and has excellent interchangeability. It is possible to use various types of compressors with this condenser.

Additionally, there are two types of fins available for customers: window fin and honeycomb fin. These variations can meet the specific requirements of different customers.

### Technical Parameters:

Model	Nominal heat exchange capacity	Heat exchange area	Fan					Water inlet tube diameter(mm)	Water outlet tube diameter(mm)	Weight(kg)
			Number	Fan diameter(mm)	Wind capacity	Power(W)	Voltage(V)			
FNU-17.2/55	17200	55	1	500	6500	449	3-380	22	16	85
FNU-21.8/70	21800	70	2	450	2X4500	2X290	3-380	25	19	105
FNU-24.9/80	24900	80	2	500	2X6500	2X449	3-380	25	19	120
FNU-31.1/100	31100	100	2	500	2X6500	2X449	3-380	28	19	135

FNU-38.8/125	38800	125	2	550	2X8700	2X670	3-380	28	19	150
FNU-46.5/150	46500	150	2	550	2X8700	2X670	3-380	28	22	160
FNU-55.8/180	55800	180	2	600	2X10800	2X825	3-380	28	22	185
FNU-62.0/200	62000	200	2	600	2X10800	2X825	3-380	32	25	195

### Applications:

The Damai DM-FNU is a high-quality refrigeration air cooled condenser that is made in China. this product can be trusted to provide reliable and efficient cooling for commercial and industrial applications. This air cooled condenser is designed with 2-6 fans, making it suitable for small to large-scale cooling requirements. Its direct drive motor type ensures that it runs smoothly and with minimal noise, making it ideal for use in sensitive environments such as hospitals, laboratories, and data centers.

The Damai DM-FNU air cooled condenser is commonly used in a variety of occasions and scenarios, including:  
Supermarkets

Restaurants

Hotels

Cold Storage Facilities

Food Processing Plants

Pharmaceutical Manufacturing Plants

Chemical Processing Plants

Industrial Manufacturing Plants

With a minimum order quantity of 1 and a price range of \$200-\$100000, this product is accessible to a wide range of customers with different budget levels. The Damai DM-FNN air cooled condenser is packed in a sturdy wooden case to ensure its safe delivery to the customer. Delivery time takes 15 work days, and payment terms are flexible with T/T as the preferred method of payment.

The Damai DM-FNN air cooled condenser has a supply ability of up to 1000000pcs/year, making it an ideal choice for businesses that require a large amount of cooling capacity. With its high-quality components and reliable performance, this product is an excellent investment for any business that needs efficient cooling for their operations.

### Support and Services:

Additionally, we offer a range of services to support the ongoing maintenance and repair of the air cooler condenser. Our services include routine maintenance, repairs, and replacement parts. We also offer customized service plans to meet your specific needs and budget. Our team of experienced technicians is committed to delivering timely and efficient service to minimize downtime and keep your equipment running smoothly.

## Packing and Shipping:

### Product Packaging:

The Air Cooler Condenser product will be carefully packaged in a sturdy cardboard box to ensure that it arrives at its destination in perfect condition. The condenser will be wrapped in protective materials to prevent any damage during shipping.

### Shipping:

We offer free standard shipping for all Air Cooler Condenser products within the United States. Orders will be processed and shipped within 1-2 business days. Delivery times will vary depending on the shipping destination, but our standard shipping usually takes 3-5 business days.
