

Semi Hermetic Piston Condensing Unit with Cooling Capacity of 5kw-1000kw and No Mute

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-L
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Model No: MT-HSN15EL
- Fans Species: Frequency Fan
- Controller Brand: CAREL
- Power Type: DC
- Compressor: HIGHLY Rotor Inverter Compressor
- Compressor Type: Semi Hermetic Piston
- Product: Horizontal Condensing Unit
- Condenser: Air-cooled Condenser
- Highlight: 5kw condenser unit, 5kw condensing unit, 1000kw condenser unit

Product Description

Product Description:

The Cold Room Condensing Unit is powered by a Weiguang fan motor, which ensures that the system operates efficiently while reducing the noise level. This feature makes it an ideal solution for use in areas where noise levels need to be kept at a minimum.

The Commercial Refrigeration Condensing Unit is designed to operate at a condensing temperature of 0~10c and -15~-25c, making it suitable for use in a wide range of commercial refrigeration applications. The evaporating temperature range of -35~-23celsius degree ensures that the system can maintain a consistent temperature, ensuring that the stored products remain fresh for longer periods. Overall, the Air Cooled Condensing Units are an excellent choice for commercial refrigeration needs. They are energy-efficient, have a low noise level, and are designed to operate at a wide range of temperatures. Whether you are looking to upgrade your existing commercial refrigeration system or are setting up a new one, the Air Cooled Condensing Units are an ideal solution.

item	value
Condition	New
Applicable Industries	Building Material Shops, Manufacturing Plant, Food & Beverage Factory, Food Shop, Construction works, Energy & Mining, Food & Beverage Shops, Other
Weight (KG)	65
Showroom Location	Viet Nam
Video outgoing-inspection	Provided
Machinery Test Report	Provided
Marketing Type	New Product 2025
Place of Origin	China
Type	Refrigeration Compressor
Application	Refrigeration Parts
Warranty	1 Year
Product name	Condensing Unit
Refrigerant	R404A.R134a.R507
Description	Cold Storage Refrigeration System
MOQ	1 Set
Keywords	Customized and Low Noise With Cheaper Price

Features:

There are many advantages to using a semi-hermetic compressor condensing unit for your cold room. One of the biggest advantages is its compact structure, which makes it easy to install and manage. In addition, it comes with complete protective devices to ensure safety during operation.

Another advantage is the increased condenser that ensures good heat dissipation. With this feature, the condensing unit is able to maintain a good cooling effect for a long period of time, which is crucial in cold room applications.

Furthermore, using a semi-hermetic compressor condensing unit can save you up to 30% on your electricity bill thanks to its energy-efficient design. In addition, it operates at a low noise level, making it a great choice for locations where noise is a concern.

Finally, the use of brand accessories and parts ensures the quality and reliability of the unit. When you choose a semi-hermetic compressor condensing unit, you can rest assured that you are getting a high-quality product that will meet your cold room needs.

Applications:

DM-UNIT-L is perfect for Commercial Refrigeration Condensing Unit applications. It is highly recommended for use in supermarkets, convenience stores, and other commercial refrigeration systems. This product provides efficient and reliable cooling for food and other perishable items, ensuring their freshness and quality.

The DM-UNIT-L Air Cooled Condensing Unit is also ideal for use in industrial applications such as chemical processing and manufacturing. It provides reliable cooling for machines and equipment, ensuring their efficient operation.

DM-UNIT-L is available for purchase with a minimum order quantity of 1 unit and a price range of \$2000 to \$100000. The packaging details include wooden cases to ensure safe delivery. The delivery time for this product is 30 work days, and T/T is the accepted payment method. DM-UNIT-L has a supply ability of 1000000pcs/year, making it readily available for all your cooling needs.

The DM-UNIT-L Air Cooled Condensing Unit is powered by DC and has a semi-hermetic piston compressor. It operates at either 380V/ 3p/ 50Hz, 220V/ 3p/ 50Hz, or 380V/ 3p/ 50Hz, making it versatile and adaptable for various electrical systems.

Support and Services:

Our Condensing Unit product comes with top-notch technical support and services to ensure the smooth operation of your system. Our technicians are highly trained and experienced to provide you with the following services:

- Installation and start-up assistance
- Product troubleshooting and diagnosis
- Regular maintenance and inspection
- Replacement parts and repairs
- Product warranty and support

We also offer customized maintenance plans to fit your specific needs and budget. Contact us for more information on our technical support and services.

FAQ:

2. Where is the DM condensing unit manufactured?

The DM condensing unit is manufactured in China.

4. What is the minimum order quantity for this product?

The minimum order quantity for this product is 1.

5. What is the price range for this condensing unit?

The price range for this condensing unit is \$2000~\$100000.

6. What are the packaging details for this product?

The packaging details for this product is a wooden case.

7. What is the delivery time for this product?

The delivery time for this product is 30 work days.

8. What are the payment terms for purchasing this product?

The payment terms for purchasing this product is T/T.

9. What is the supply ability for this product?

The supply ability for this product is 1000000pcs/year.
