

Energy-saving Freezer Room Condensing Unit for Condensing Temperature 0-10c And -15--25c and Frequency 50Hz

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number: DM-UNIT-L
- Minimum Order Quantity:
- Price: \$2000~\$100000

CHINA DM

CE;ISO

1

- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 100000pcs/year

Product Specification

Compressor:	HIGHLY Rotor Inverter Compressor
Product:	Horizontal Condensing Unit
Compressor Type:	Semi Hermetic Piston
 Cooling Capacity: 	5kw-1000kw
Condenser:	Air-cooled Condenser
Model No:	MT-HSN15EL
Voltage:	380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, 380V/ 3p/ 60Hz
Suitable For:	Supermarket, Food Storage,Cold Room
Highlight:	5kw cold room condensing unit, 220v cold room condensing unit, 5kw freezer room condensing unit

Product Description:

Our condensing units are equipped with a Semi Hermetic Piston compressor type that provides efficient and reliable performance. This type of compressor is known for its durability and ability to handle high cooling loads. Additionally, our units feature Frequency Fans Species that provide precise and consistent control over the airflow, making them more energy-efficient than traditional fans. Our units are built for performance and reliability, ensuring that you get the most out of your investment. Additionally, our condensing units are designed to be user-friendly, making them easy to install, operate, and maintain.

Finally, our Air Cooled Condensing Units are not only efficient but also quiet. With our units, you can enjoy excellent cooling performance without the additional noise. This feature makes our units perfect for use in areas where noise is a concern. In conclusion, our Air Cooled Condensing Units are the perfect solution for your refrigeration needs. With their high-quality components, efficient performance, and user-friendly design, you can be sure that our units will provide reliable cooling solutions for your business. Don't hesitate to get in touch with us for more information or to place an order.

Condition	New	
Applicable Industries	Building Material Shops, Manufacturing Plant, Food & Beverage Factory, Food Shop, Construction works, Energy & Mining, Food & Beverage Shops, Other	
Weight (KG)	65	
Showroom Location	Viet Nam	
Video outgoing- inspection	Provided	
Machinery Test Report	Provided	
Marketing Type	New Product 2025	
Place of Origin	China	
Туре	Refrigeration Compressor	
Application	Refrigeration Parts	
Warranty	1 Year	
Product name	Condensing Unit	
Refrigerant	R404A.R134a.R507	
Description	Cold Storage Refrigeration System	
MOQ	1 Set	
Keywords	Customized and Low Noise With Cheaper Price	

Features:

Advantages of Semi-hermetic Compressor Condensing Unit for Cold Room

The semi-hermetic compressor condensing unit for cold room offers a number of benefits. One such advantage is its compact structure, which makes it easy to install and saves valuable space.

Additionally, the unit comes equipped with complete protective devices that ensure optimal safety during operation.

Another feature that makes this type of unit special is the increased condenser, which allows for excellent heat dissipation. As a result, the unit can maintain a good cooling effect for a long time.

The semi-hermetic compressor condensing unit also boasts energy efficiency, which translates to a significant reduction in electricity bills. According to experts, users can save up to 30% on their electricity bill when using this type of unit.

In addition to these benefits, the unit operates with low noise, making it ideal for environments where noise pollution is a concern. Lastly, the unit is designed with brand accessories and parts that give it a longer lifespan and superior performance. This ensures low maintenance costs over time, making it an economical choice for cold room applications.

Applications:

The DM-UNIT-L is suitable for a variety of occasions and scenarios. One of its most common applications is in freezer room condensing units. The product is designed to provide efficient and reliable cooling for freezer rooms of all sizes, ensuring that food and other perishable items are kept at the appropriate temperature. The DM-UNIT-L is also ideal for use in commercial refrigeration systems and can be used to cool display cases, walk-in coolers, and other refrigeration units.

In addition to its use in freezer room condensing units, the DM-UNIT-L is also a popular choice for those in need of condensing unit parts. The product is designed to be durable and reliable, making it an ideal choice for those who need replacement parts for their existing cooling systems. With its high-quality components and advanced technology, the DM-UNIT-L is sure to provide reliable performance for many years to come.

The DM-UNIT-L is an air cooled condensing unit, which means that it does not require any additional water or other cooling fluids. This makes it a convenient and easy-to-use option for a variety of applications. The product is also designed to be quiet and efficient, making it a popular choice for those who want a cooling solution that won't disturb their work or living environment.

Support and Services:

The Condensing Unit product comes with a variety of technical support and services:

- Installation guidance and support
- Troubleshooting assistance
- Repair and maintenance services
- Replacement parts availability
- Technical documentation and specifications
- Training and educational resources for staff and customers

FAQ:

What is the brand name of this condensing unit? DM What is the model number of this condensing unit? DM-UNIT-L Where is this condensing unit manufactured? China What is the minimum order quantity for this condensing unit? What is the price range for this condensing unit? \$2000~\$100000 What is the packaging detail for this condensing unit? Wooden case What is the delivery time for this condensing unit? 30 Work days What are the payment terms for this condensing unit? T/T What is the supply ability for this condensing unit? 100000pcs/year
