

DC Power Type Microprocessor Controlled Condensing Unit for Evaporating Temp -35--23celsius Degree

Basic Information

- Place of Origin:
- Brand Name:
- Certification:
- Model Number: DM-UNIT-L

CHINA

CE;ISO

DM

- Minimum Order 1 Quantity:
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 100000pcs/year

Product Specification

Voltage:	380V/ 3p/ 50Hz, 220V/ 3p/ 60Hz, 380V/ 3p/ 60Hz
Model No:	MT-HSN15EL
Compressor Type:	Semi Hermetic Piston
Compressor:	HIGHLY Rotor Inverter Compressor
Condenser:	Air-cooled Condenser
Controller Brand:	CAREL
• Mute:	No
Power Type:	DC
Highlight:	DC Power Type Condensing Unit, Evaporating Temp Condensing Unit, Microprocessor Controlled Condensing Unit

Product Description:

Our Condensing Unit Parts are of the highest quality, ensuring that this product is reliable and durable. The Air Cooled Condensing Units are designed to operate at a voltage of 380V/ 3p/ 50Hz, 220V/ 3p/ 50Hz, or 380V/ 3p/ 50Hz, making it both versatile and convenient for a wide range of customers.

The Evaporating Temp of this Condensing Unit ranges from -35~-23celsius Degree, ensuring that it is capable of functioning optimally in a variety of environments. The Frequency Fan is designed to operate with maximum efficiency, ensuring that the product remains cool at all times.

This Condensing Unit features a HIGHLY Rotor Inverter Compressor, which is known for its superior performance and reliability. The cooling capacity of this product ranges from 5kw-1000kw, making it the perfect solution for businesses of all sizes. Overall, our Commercial Refrigeration Condensing Unit is an excellent investment for any business that requires top-of-the-line refrigeration equipment. With its high-quality parts, efficient design, and superior performance, it is sure to exceed your expectations and provide you with the reliable refrigeration you need.

Features:

There are a number of benefits to using a semi-hermetic compressor condensing unit for cold room applications. One such advantage is its compact structure, which makes it easier to install and out of the way of other equipment. In addition, the unit comes with complete protective devices, which ensures that any errors or malfunctions do not result in serious safety hazards. Another important advantage of the semi-hermetic compressor condensing unit is its increased condenser, which allows for efficient heat dissipation and keeps the temperature inside the cold room consistently low. This unit is designed to maintain a good cooling effect for a prolonged period of time, ensuring that the temperature does not fluctuate and cause damage to stored products.

Using a semi-hermetic compressor condensing unit is also cost-effective, as it can save up to 30% on electricity bills compared to other units. Additionally, this unit is designed to operate with low noise levels, which is important in environments where noise pollution can be disruptive to workers and equipment.

Finally, this unit uses high-quality brand accessories and parts, ensuring that it is reliable and durable over time. This provides peace of mind for users, as they can trust that the unit will perform optimally and require minimal maintenance over its lifetime.

item	value
Condition	New
Applicable Industries	Building Material Shops, Manufacturing Plant, Food & Beverage Factory, Food Shop, Construction works, Energy & Mining, Food & Beverage Shops, Other
Weight (KG)	65
Showroom Location	Viet Nam
Video outgoing- inspection	Provided
Machinery Test Report	Provided
Marketing Type	New Product 2025

Place of Origin	China	
Туре	Refrigeration Compressor	
Application	Refrigeration Parts	
Warranty	1 Year	
Product name	Condensing Unit	
Refrigerant	R404A.R134a.R507	
Description	Cold Storage Refrigeration System	
MOQ	1 Set	
Keywords	Customized and Low Noise With Cheaper Price	

Applications:

Cold Room Condensing Unit

Commercial Refrigeration Condensing Unit

DM-UNIT-L is also a perfect choice for commercial refrigeration applications. It can be used in convenience stores, supermarkets, and other commercial spaces that require efficient refrigeration. This product is designed to handle heavy-duty refrigeration requirements and can operate consistently for an extended period.

Freezer Room Condensing Unit

DM-UNIT-L has a minimum order quantity of 1 and can be purchased at a price range of \$2000~\$100000. It is packaged in a wooden case to ensure its safety during transportation. The delivery time for this product is 30 work days, and the payment terms are T/T. DM-UNIT-L has a supply ability of 1000000pcs/year, making it a reliable product that can meet your cooling needs.

DM-UNIT-L is a trademark of DM, a company that has been providing reliable cooling solutions for many years. Get your DM-UNIT-L condensing unit today and experience efficient cooling like never before.

Support and Services:

Our Condensing Unit product comes with comprehensive technical support and services to ensure the optimal performance and longevity of the unit. Our team of experienced technicians is available to provide assistance with installation, maintenance, and troubleshooting of the unit. In addition, we offer regular maintenance plans to help prevent issues and extend the lifespan of the unit. We also provide warranty support and replacement parts as needed.

FAQ:

- Q: What is the brand name of this condensing unit?
- A: The brand name is DM.
- Q: Where is this condensing unit made?
- A: This condensing unit is made in China.
- Q: What is the minimum order quantity for this condensing unit?
- A: The minimum order quantity is 1 unit.
- Q: What is the price range of this condensing unit?
- A: The price range is between \$2000 and \$100000.
- Q: What are the packaging details for this condensing unit?
- A: The packaging details are wooden cases.
- Q: What is the delivery time for this condensing unit?
- A: The delivery time is 30 work days.
- Q: What are the payment terms for this condensing unit?
