

Powerful Cooling Solution Air Cooled Condensing Units with Air-cooled Condenser

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-L
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Controller Brand: CAREL
- Condenser: Air-cooled Condenser
- Condensing Temperature: 0~10c And -15~-25c
- Frequency: 60Hz
- Model No: MT-HSN15EL
- Suitable For: Supermarket, Food Storage,Cold Room
- Compressor: HIGHLY Rotor Inverter Compressor
- Product: Horizontal Condensing Unit
- Highlight: **Powerful Cooling Solution Condensing Units,
Air Cooled Condensing Units,
Air Cooled Condenser Units**

Powerful Cooling Solution Air Cooled Condensing Units with Air-cooled Condenser

Product Description:

The high-efficiency fully enclosed refrigeration compressor is a meticulously designed machine that possesses numerous benefits, including exceptional performance, reliable operation, effortless maintenance, and space-saving compactness. This apparatus is ideally suited to meeting the demand for refrigeration in both industrial and agricultural production and commercial circulation.

The high-performance capabilities of this compressor ensure that it provides a reliable and stable source of cold air. Its exceptional reliability means that it can be depended upon to function without issue for extended periods, even under extreme conditions. Additionally, the compressor's compact structure makes it a perfect fit for small to medium-sized businesses and operations that require refrigeration. Maintenance upkeep of this refrigeration machine is remarkably user-friendly. It doesn't require specialized expertise, making its uptime high and operational costs low. Its easy-to-maintain design implies that businesses can eliminate expensive and difficult servicing costs while also decreasing downtime, which is crucial in commercial settings.

In conclusion, the high-efficiency fully enclosed refrigeration compressor is an excellent choice for anyone who needs a dependable and effective source of refrigeration. Its multiple benefits, including performance, reliability, and compactness, make it an ideal option for a diverse range of applications.

Model Of Unit		DM-UNIT-L1	DM-UNIT-L2	DM-UNIT-L3	DM-UNIT-L4	DM-UNIT-L5
Aoolicable temperture		+10~-15				
Power supply		Customized				
Condenser	Quabtiny of fan	1	1	1	2	2
	Air volume(m³/h)	1×3200	1×3200	1×3200	2×3200	2×3200
	Power of fan	1×60	1×60	1×60	2×60	2×60
Interface	The liquid interface	3/8"	3/8"	1/2"	1/2"	1/2"
	Suction pipe interface	5/8"	5/8"	3/4"	3/4"	3/4"
Overall dimensions	Length (mm)	950	950	950	950	950
	Width (mm)	375	375	375	375	375
	Height (mm)	853	853	853	1240	1240
Installation dimensions	Length (mm)	515	515	515	515	515
	Width (mm)	405	405	405	405	405

Features:

The refrigeration compressor used in our product is the Copeland fully enclosed compressor, which has been carefully selected for its exceptional quality, high reliability, low operating noise, and outstanding efficiency. This compressor is designed to work efficiently and quietly for a long time, ensuring that your refrigeration needs are always met with ease.

To further enhance the efficiency of our refrigeration system, we have opted to use a copper tube aluminum sheet condenser. This condenser has a high heat exchange efficiency, resulting in greater energy savings while providing superior cooling. It also has a longer service life compared to other alternatives, ensuring that your product remains in optimal condition for a longer period of time.

At our company, we understand how important it is to provide our customers with reliable and high-quality refrigeration products that can meet the demands of their business. That's why we source only the best materials and components to ensure that our products are durable, efficient, and cost-effective in the long term.

Applications:

This unit is versatile and can find applications in a growing number of locations that feature unique refrigeration system demands. These specialized locations include frozen and refrigerated warehouses, display cabinets, as well as fruit and vegetable preservation and fungus

breeding warehouses.

Support and Services:

Our Condensing Unit product comes with comprehensive technical support and services to ensure optimal performance and efficiency. Our team of experts is available to provide assistance with installation, troubleshooting, and maintenance. We also offer training and education resources to help users maximize the benefits of our product. In addition, we provide regular updates and upgrades to keep our product at the forefront of the industry. Our goal is to provide top-notch support and services to help our customers achieve their goals and succeed in their business endeavors.

Packing and Shipping:

Product Packaging:

The condensing unit product will be securely packed in a sturdy cardboard box.
The product will be wrapped in bubble wrap to prevent damage during transportation.
A packing slip with the product information will be included in the package.

Shipping:

The product will be shipped through a reliable courier service.
The shipping cost will be calculated based on the weight and destination of the package.
Delivery times will vary depending on the destination.
