

0-10c And -15--25c Condensing Temperature Cold Room Condensing Unit with Air-cooled Condenser and Performance

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-L
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Trademark: DM
- Condenser: Air-cooled Condenser
- Compressor: HIGHLY Rotor Inverter Compressor
- Fans Species: Frequency Fan
- Cooling Capacity: 5kw-1000kw
- Controller Type: Microprocessor
- Compressor Type: Semi Hermetic Piston
- Suitable For: Supermarket, Food Storage, Cold Room
- Highlight: **Performance Cold Room Condensing Unit,
0-10c Cold Room Condensing Unit**

0-10c And -15--25c Condensing Temperature Cold Room Condensing Unit with Air-cooled Condenser and Performance

Product Description:

High-Efficiency Fully Enclosed Refrigeration Compressor

The high-efficiency fully enclosed refrigeration compressor has been designed with great care to offer a range of advantages. Firstly, it has high performance, which makes it ideal for use in providing cold sources for a wide range of different settings. Secondly, it is highly reliable, meaning that it is able to deliver consistent results without fail. Thirdly, it is easy to maintain, which helps to keep it in good condition over time. Finally, the compressor is also highly compact in structure, which makes it easy to fit into a wide range of different environments.

Meeting the Needs of Industrial, Agricultural and Commercial Settings

One of the key advantages of the high-efficiency fully enclosed refrigeration compressor is that it is able to fully meet the needs of a range of different settings. For example, it is ideal for use in industrial and agricultural production, where cold sources are required in order to keep products fresh and safe for consumption. Additionally, the compressor is also perfect for use in commercial circulation, such as in supermarkets and other settings where food needs to be kept at a low temperature.

Conclusion

Overall, the high-efficiency fully enclosed refrigeration compressor is an outstanding piece of engineering that is sure to meet the needs of businesses and organizations of all sizes. Whether you are looking to provide cold sources for industrial, agricultural or commercial settings, this compressor is sure to tick all the boxes. So why wait? Order yours today and start experiencing the benefits for yourself!

Model Of Unit		DM-UNIT-L1	DM-UNIT-L2	DM-UNIT-L3	DM-UNIT-L4	DM-UNIT-L5
Aoolicable temperture		+10~-15				
Power supply		Customized				
Condenser	Quabtiy of fan	1	1	1	2	2
	Air volume(m³/h)	1×3200	1×3200	1×3200	2×3200	2×3200
	Power of fan	1×60	1×60	1×60	2×60	2×60
Interface	The liquid interface	3/8"	3/8"	1/2"	1/2"	1/2"
	Suction pipe interface	5/8"	5/8"	3/4"	3/4"	3/4"
Overall dimensions	Length (mm)	950	950	950	950	950
	Width (mm)	375	375	375	375	375
	Height (mm)	853	853	853	1240	1240
Installation dimensions	Length (mm)	515	515	515	515	515
	Width (mm)	405	405	405	405	405

Features:

Our refrigeration system is equipped with a top-notch Copeland fully enclosed compressor that offers exceptional quality, reliability, low noise, and high energy efficiency.

Moreover, we only use high-end materials such as copper tube aluminum sheet condenser, which provides excellent heat exchange efficiency that leads to longer service life and low maintenance cost.

Applications:

There is a growing demand for refrigeration systems that meet specific requirements in various industries. This unit is designed to cater to these demands, and can be widely used in a range of settings.

For instance, it can be used in frozen and refrigerated warehouses to keep goods at the desired temperature range. It can also be employed in display cabinets to show chilled or frozen food items. Furthermore, fruit and vegetable preservation warehouses can also benefit from this unit, as it can help to prolong the shelf life of fresh produce.

In addition, fungus breeding warehouses can also use this unit as it requires a specific temperature and humidity range to cultivate mushrooms and other fungi. Overall, this versatile refrigeration system has a wide range of potential applications in many different industries.

Support and Services:

Our Condensing Unit product technical support and services include: -----

- Installation assistance and guidance
- Diagnostic troubleshooting for any operational issues
- Regular maintenance and cleaning recommendations
- Repair services for any malfunctions or damages
- Product training and education for proper usage and optimization
- Access to online resources and documentation for continued support

Packing and Shipping:

Product Packaging: -----

Our Condensing Unit product comes in a sturdy cardboard box with foam inserts to ensure safe transportation. The product is securely packed to prevent any damage during shipping.

Shipping:

We offer fast and reliable shipping services to our customers. The Condensing Unit product will be shipped via a trusted courier service. Customers will receive a tracking number to monitor the progress of their shipment. Delivery times may vary depending on the location of the customer.
