

Precise Temperature Control Supermarket Suitable Condensing Unit with Microprocessor Controller and Frequency Fan

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-L
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Fans Species: Frequency Fan
- Condensing Temperature: 0~10c And -15~-25c
- Suitable For: Supermarket, Food Storage,Cold Room
- Condenser: Air-cooled Condenser
- Controller Brand: CAREL
- Frequency: 60Hz
- Cooling Capacity: 5kw-1000kw
- Mute: No
- Highlight: **Supermarket Suitable Condensing Unit,
Frequency Fan Condensing Unit,
Microprocessor Controller Condensing Unit**

Precise Temperature Control Supermarket Suitable Condensing Unit with Microprocessor Controller and Frequency Fan

Product Description:

The fully enclosed refrigeration compressor is highly efficient and has been carefully designed to provide various advantages such as high performance, reliable performance, easy maintenance and compact size. This particular compressor meets the needs of multiple industries such as industrial and agricultural production as well as commercial circulation.

Thanks to its high efficiency, this refrigeration compressor can provide cold sources efficiently while consuming less energy and minimizing waste heat. With its fully enclosed system, it is easy to maintain and offers better protection against environmental factors that can harm the compressor.

The compact size of the compressor makes it easy to install in different working environments without occupying too much space. It is ideal for use in areas where space is limited, and the need for refrigeration is essential. More importantly, the compressor ensures a high level of reliability during operation, minimizing downtime and reducing maintenance costs.

The use of this compressor in various industries has been proven to yield quality results while optimizing productivity. As a helpful assistant, this compressor can provide industrial and commercial sectors with a reliable and highly efficient solution for their refrigeration needs.

Model Of Unit		DM-UNIT-L1	DM-UNIT-L2	DM-UNIT-L3	DM-UNIT-L4	DM-UNIT-L5
Aoolicable temperture		+10~-15				
Power supply		Customized				
Condenser	Quabtity of fan	1	1	1	2	2
	Air volume(m³/h)	1×3200	1×3200	1×3200	2×3200	2×3200
	Power of fan	1×60	1×60	1×60	2×60	2×60
Interface	The liquid interface	3/8"	3/8"	1/2"	1/2"	1/2"
	Suction pipe interface	5/8"	5/8"	3/4"	3/4"	3/4"
Overall dimensions	Length (mm)	950	950	950	950	950
	Width (mm)	375	375	375	375	375
	Height (mm)	853	853	853	1240	1240
Installation dimensions	Length (mm)	515	515	515	515	515
	Width (mm)	405	405	405	405	405

Features:

Our company uses the Copeland fully enclosed refrigeration compressor for its refrigeration systems. This compressor boasts a number of impressive features, including excellent quality, high reliability, low noise levels, and high efficiency.

This top-of-the-line compressor has been rigorously tested and proven to be a reliable and high-performing option for our customers' needs, providing both peace of mind and long-term benefits in terms of operational costs and performance.

In addition to the high-performance compressor, we also use copper tube aluminum sheet condensers in our refrigeration systems. These condensers offer exceptional heat exchange efficiency that ensures proper cooling and temperature regulation in business-critical applications.

Our copper tube aluminum sheet condensers are known for their superior durability and long service life, providing customers with a low-maintenance and dependable solution for all of their refrigeration needs.

Applications:

The versatility of this unit makes it ideal for the growing number of facilities that require specialized refrigeration systems. This includes frozen and refrigerated warehouses, display cabinets, fruit and vegetable storage facilities, and fungus cultivation warehouses, among others.

Whether it's for commercial or industrial use, this unit is designed to meet the specific demands of each application. It is capable of maintaining optimal temperatures and humidity levels, ensuring that your goods are always kept fresh and in pristine condition. With its advanced technology and reliable performance, this unit offers a cost-effective and energy-efficient solution to your refrigeration needs. Its compact design and ease of installation make it an excellent choice for businesses looking to optimize their storage and preservation methods.

Support and Services:

Our Condensing Unit product comes with comprehensive technical support and services to ensure optimal performance and reliability. Our team of experts is available to assist with installation, maintenance, and troubleshooting of your unit. We offer on-site training, remote technical assistance, and access to our online knowledge base. Our services also include preventive maintenance programs, equipment repair and replacement, and spare parts management. We are committed to providing exceptional support to help you maximize the lifespan of your Condensing Unit.

Packing and Shipping:

Product Packaging:

The condensing unit will be securely packaged in a cardboard box to prevent any damage during transportation.

The box will be labeled with the product name, model number, and any other relevant information.

All necessary accessories and manuals will be included in the package.

Shipping:

Shipping will be handled by a reputable carrier to ensure timely and safe delivery.

The carrier will be selected based on the destination and shipping preferences of the customer.

The customer will be provided with a tracking number to monitor the shipment's progress.

Shipping fees will be calculated based on the destination and shipping method selected by the customer.
