

## Digital Temperature Controller Meat Cold Room For Sale , Cold Room For Fruits And Vegetables

### Our Product Introduction

for more products please visit us on [coldroomunit.com](http://coldroomunit.com)

#### Basic Information

- Place of Origin: China
- Brand Name: DM
- Model Number: DM-JZ-LGJ
- Minimum Order Quantity: 1
- Packaging Details: Customized according to customers
- Delivery Time: 30 work day
- Payment Terms: T/T, L/C, D/A

#### Product Specification

- Cooling System: Direct Expansion
- Door Material: Stainless Steel
- Controller: Digital Temperature Controller
- Capacity: Customizable
- Shelf Material: Galvanized Steel
- Power Supply: 220V/380V
- Compressor Type: Semi-Hermetic
- Condenser Type: Air Cooled
- Highlight: **Cold Room For Fruits And Vegetables ,  
Digital Temperature Controller Meat Cold Room  
, Meat Cold Room For Sale**

## Product Description

### Product Description:

The Meat Cold Storage Room is equipped with a Direct Expansion Cooling System, which ensures that the temperature is maintained at the desired level. The insulation material used is Polyurethane Foam, which is known for its excellent insulation properties. This helps to maintain the desired temperature inside the room, and prevents any temperature fluctuations that could compromise the quality of the stored goods.

The Door Material used for the Meat Cold Storage Room is Stainless Steel. This makes the door durable and long-lasting, even in harsh environments. The door is also designed to be easy to clean, ensuring that the storage room remains hygienic at all times.

The Meat Cold Storage Room is equipped with LED Lighting, which provides bright and energy-efficient lighting inside the room. This makes it easy to locate and identify goods stored inside the room, even in low-light conditions.

The Meat Cold Storage Room is ideal for businesses that deal with fresh meat packaging, such as butchers, meat processors, and meat distributors. It ensures that the meat is stored at the optimal temperature, which helps to preserve its quality and freshness.

### Features:

Product Name: Meat Cold Storage Room

Alarm System: Temperature Alarm

Temperature Range: -18°C To 0°C

Evaporator Type: Air Cooler

Shelf Material: Galvanized Steel

Capacity: Customizable

This Meat Cold Storage Room is an ideal solution for **commercial cold rooms** that need to maintain a **hot cold aisle containment**. With its temperature alarm system, you can be sure that the temperature range of -18°C to 0°C is consistently maintained. The air cooler evaporator type ensures that the temperature is evenly distributed throughout the room. The shelves are made of galvanized steel, which is durable and resistant to corrosion. The capacity of the room is customizable to fit your specific needs.

### Technical Parameters:

Technical Parameter	Description
Product Name	Meat Cold Storage Room
Alarm System	Temperature Alarm

Insulation Material	Polyurethane Foam
Condenser Type	Air Cooled
Door Material	Stainless Steel
Power Supply	220V/380V
Evaporator Type	Air Cooler
Capacity	Customizable
Temperature Range	-18°C To 0°C
Compressor Type	Semi-Hermetic
Shelf Material	Galvanized Steel
Application	BBQ Frozen Meat, Freezer Food Storage Containers, Biomedical Chest Freezer

### Applications:

The door material of DM-JZ-LGJ is made of stainless steel, ensuring that the room is airtight and well-insulated. It also has an air-cooled condenser type, which helps to regulate the temperature of the room and maintain the freshness of the stored meat products. The direct expansion cooling system ensures that the temperature of the room is evenly distributed to all parts of the cold room.

The DM-JZ-LGJ meat cold storage room is ideal for use in various occasions and scenarios. It is perfect for use in large supermarkets, meat processing plants, and restaurants where large quantities of meat products need to be stored for extended periods. It is also suitable for use in biomedical chest freezers, where the temperature needs to be regulated to preserve samples and other biological materials.

The DM-JZ-LGJ meat cold storage room is perfect for storing different types of meat products such as beef, pork, and chicken. It is also suitable for storing fish, seafood, and other perishable goods that require a temperature-controlled environment. The customizable capacity of the room makes it possible to store large quantities of products at once, making it ideal for commercial use.

In conclusion, the DM-JZ-LGJ meat cold storage room is the perfect solution for businesses that need to store meat products for extended periods. The customizable capacity, LED lighting, stainless steel door material, air-cooled condenser type, and direct expansion cooling system make it ideal for use in various commercial cold rooms, biomedical chest freezers, and other scenarios where temperature-controlled environments are necessary.
