

## Steel Meat Cold Storage Room With Direct Expansion Cooling System Cold Room For Meat Storage

Our Product Introduction

for more products please visit us on [coldroomunit.com](http://coldroomunit.com)

### Basic Information

- Place of Origin: China
- Brand Name: DM
- Model Number: DM-JZ-LGJ
- Minimum Order Quantity: 1
- Packaging Details: Customized according to customers
- Delivery Time: 30 work day
- Payment Terms: T/T, L/C, D/A

### Product Specification

- Power Supply: 220V/380V
- Evaporator Type: Air Cooler
- Condenser Type: Air Cooled
- Lighting: LED
- Temperature Range: -18°C To 0°C
- Insulation Material: Polyurethane Foam
- Capacity: Customizable
- Alarm System: Temperature Alarm
- Highlight: **meat cold room for sale,  
Steel Meat Cold Storage Room,  
cold room for meat storage**

## Product Description

### Product Description:

Our Meat Cold Storage Room is the perfect solution for your cold room refrigeration equipment needs. With customizable capacity options, you can ensure that your meat products are stored at the perfect temperature and humidity levels.

The semi-hermetic compressor type and air-cooled condenser type of our Meat Cold Storage Room ensure that your products are kept at the ideal temperature without any interruptions or fluctuations. Additionally, the power supply options of 220V/380V make it easy to integrate into your existing setup.

Our Meat Cold Storage Room also features energy-efficient LED lighting, making it easy to find and access your products without wasting energy on unnecessary lighting.

Investing in our Meat Cold Storage Room ensures that your frozen food storage warehouse or commercial chest freezer is equipped with the best cold room refrigeration equipment on the market. Contact us today to learn more about how our product can benefit your business!

### Features:

Product Name: Meat Cold Storage Room

Cooling System: Direct Expansion

Controller: Digital Temperature Controller

Condenser Type: Air Cooled

Shelf Material: Galvanized Steel

Capacity: Customizable

Our Meat Cold Storage Room is the perfect solution for frozen food storage warehouses. With a direct expansion cooling system and air-cooled condenser, this unit is designed to maintain optimal temperatures for storing meat products. The digital temperature controller ensures precise temperature control, while the galvanized steel shelves provide sturdy and reliable storage space. With customizable capacity options, this room can be tailored to meet your specific needs. Trust us to provide the best hot cold aisle containment solutions for your business.

Technical Parameters:

Evaporator Type	Air Cooler
Alarm System	Temperature Alarm
Condenser Type	Air Cooled
Cooling System	Direct Expansion
Door Material	Stainless Steel
Insulation Material	Polyurethane Foam
Lighting	LED
Shelf Material	Galvanized Steel
Capacity	Customizable
Compressor Type	Semi-Hermetic

Applications:

The DM-JZ-LGJ model is made with galvanized steel shelves and a stainless steel door material. The digital temperature controller ensures that the temperature is maintained at a constant level. The air cooler evaporator type ensures uniform cooling throughout the room.

This product is suitable for various occasions and scenarios. Here are some examples:

**Cold Chain Warehouse:** The DM-JZ-LGJ model is an ideal product for cold chain warehouses. It can be used for the storage of meat products, ensuring that they are kept fresh and safe for consumption.

**Cold Storage of Fruits and Vegetables:** The DM-JZ-LGJ model is also suitable for cold storage of fruits and vegetables. It can be used to maintain a stable low temperature to prevent spoilage, preserving the freshness of the produce.

**Cold Room Refrigeration Equipment:** The DM-JZ-LGJ model can be used as cold room refrigeration equipment. It is suitable for use in meat processing plants, supermarkets, and restaurants.

The capacity of the DM-JZ-LGJ model is customizable, making it suitable for various storage needs. Whether it is for a small butcher shop or a large meat processing plant, the DM-JZ-LGJ model can be customized to meet the specific needs of the customer.
