

5kw-1000kw Cooling Capacity Condensing Unit with HIGHLY Rotor Inverter Compressor Design

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: CHINA
- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-U
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden case
- Delivery Time: 30 Work days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Mute: No
- Frequency: 60Hz
- Evaporating Temp: -35~-23celsius Degree
- Cooling Capacity: 5kw-1000kw
- Compressor: HIGHLY Rotor Inverter Compressor
- Trademark: DM
- Condensing Temperature: 0~10c And -15~-25c
- Product: Horizontal Condensing Unit
- Highlight: **HIGHLY Rotor Inverter Compressor Condensing Unit**
, 1000kw Condensing Unit,
5kw Condensing Unit

Product Description

Product Description:

A Condensing Unit is an essential component in various refrigeration systems, responsible for releasing heat absorbed from the refrigerant to the surrounding environment. This crucial part helps maintain the optimum temperature required for the refrigeration process to function effectively. The product being discussed here is a Horizontal Condensing Unit, specifically designed to operate within a condensing temperature range of 0~10°C and -15~-25°C.

Equipped with advanced features, this Cold Room Condensing Unit is a reliable choice for maintaining the desired temperature in cold storage rooms, freezers, and other refrigeration applications. The use of Air Cooled Condensing Units ensures efficient heat dissipation, contributing to the overall performance and longevity of the refrigeration system.

When it comes to noise levels, this Condensing Unit is designed to operate quietly, ensuring a comfortable working environment. Despite its powerful performance and efficient heat dissipation capabilities, this unit is classified as 'Mute,' making it an ideal choice for applications where noise reduction is essential.

In summary, this Horizontal Condensing Unit offers a combination of advanced features and reliable performance, making it a suitable choice for cold storage rooms, freezers, and other refrigeration applications. With its ability to operate within a condensing temperature range of 0~10°C and -15~-25°C, coupled with the use of CAREL controllers and Frequency Fans, this unit ensures precise temperature control, energy efficiency, and quiet operation. Choose this Condensing Unit for your refrigeration needs and experience optimal performance and reliability.

Model	Nominal heat exchange capacity	Heat exchange area	Fan					Water inlet tube diameter(mm)	Water outlet tube diameter(mm)	Weight(kg)
			Number	Fan diameter(mm)	Wind capacity	Power(W)	Voltage(V)

Applications:

Range of application:

The range of application includes the refrigeration industry and cold room projects. It is also extensively used in agricultural, food, restaurant, and chemical industry applications.

Support and Services:

Our Product Technical Support and Services for the Condensing Unit include:

- Installation assistance
- Troubleshooting guidance
- Maintenance recommendations
- Product training for users
- Warranty services
- Repair and replacement options

FAQ:

Q: What is the brand name of this condensing unit?

A: The brand name is DM.

Q: What is the model number of this condensing unit?

A: The model number is DM-UNIT-U.

Q: Where is this condensing unit manufactured?

A: This condensing unit is manufactured in China.

Q: What certifications does this condensing unit have?

A: This condensing unit is certified with CE and ISO.

Q: What is the minimum order quantity for this condensing unit?

A: The minimum order quantity is 1 unit.
