

Refrigeration Function Air Cooled Condensing Units for Portable Cooling Performance

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-U
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 30 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Nominal Capacity: 3 HP To 40 HP
- Refrigerant Way: Air-cooled ,water-cooled
- Fans Species: Frequency Fan
- Origin: Zhejiang, China
- Loading Port: Ningbo/Shanghai
- Function: Refrigeration
- Configuration: Portable
- Refrigerant: R507 R404A
- Highlight: **Portable Cooling Performance Condensing Units**
, Air Cooled Condensing Units,
Refrigeration Function Condensing Units

Product Description

Product Description:

It is a U-type air condensing unit designed for refrigeration purposes, typically used in cold storage walk-in coolers and outdoor cooling chambers.

This refrigeration equipment is specifically designed to provide cooling for workshops and other commercial spaces.

Features:

Characteristics:

Box type, compact structure and good-looking figure;

Scientific designs, steady air flow, can fully exert heat-transfer capacity of the condensing unit;

Rational performance design, high energy efficiency;

Axial fan, good-looking figure, low processing noise level;

Convenient design for maintain (front board can be easily take down);

Technical Parameters:

Heat Exchange Model Specifications

Model	Nominal heat exchange capacity	Heat exchange area	F a n	Water inlet tube diameter (mm)	Water outlet tube diameter (mm)	Weight (kg)
FNU-17.2/55	17200	55	1	500	6500	85
Model	Nominal heat exchange capacity	Heat exchange area	F a n	Water inlet tube diameter (mm)	Water outlet tube diameter (mm)	Weight (kg)
FNU-21.8/70	21800	70	2	450	2X4500	105

Applications:

The refrigeration industry involves the implementation of cold room projects. These projects are essential for various sectors including agriculture, food, restaurants, and the chemical industry. Cold rooms are designed and built to store products at optimal temperatures to ensure their quality and preservation.

In the agricultural sector, cold rooms are used to store fresh produce such as fruits and vegetables. This helps farmers and distributors to extend the shelf life of their products and reduce waste. Similarly, the food industry relies on cold rooms to preserve perishable items like meat, dairy, and seafood.

Customization:

Product Customization Services for the Commercial Refrigeration Condensing Unit:

Place Of Origin: Made In China

Minimum Order Quantity: 1

Price: \$2000~\$100000

Packaging Details: Wooden Case

Delivery Time: 30 Work Days

Payment Terms: T/T

Supply Ability: 1000000pcs/year

Condenser: Air-cooled Condenser

Loading Port: Ningbo/Shanghai

Refrigerant Way: Air-cooled, water-cooled

Product Attributes: Commercial Refrigeration Condensing Unit, Freezer Room Condensing Unit

Support and Services:

Our Product Technical Support and Services for the Condensing Unit product are designed to assist customers with any technical issues or questions they may have regarding the installation, operation, or maintenance of the unit. Our team of expert technicians is available to provide troubleshooting assistance, product information, and guidance on best practices for optimal unit performance.
