

3 Fans Cold Room Evaporator High Heat Transfer Air Cooler For Freezer Room Unit

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DSL
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT, L/C
- Supply Ability: 300000/Year

Product Specification

- Power Supply: 220V/380V
- Heat Transfer Efficiency: High
- Temperature: High, Medium, Low Temperature
- Defrosting: Electric Defrosting
- Dimensions: Custom
- Condition: New
- Casing: Steel Plate With Plastic Spray
- Application: Cold Storage/Cold Room/Freezer Room
- Highlight: **Freezer Room Unit Cold Room Evaporator ,
3 Fans Cold Room Evaporator ,
High Heat Transfer Cold Room Evaporator**

Product Description

Product Description:

The air cooler is equipped with a high-efficiency, energy-saving motor that helps in reducing energy consumption.

Fan Blade: Durable, corrosion-resistant fan blade designed for optimal airflow

The fan blade of the air cooler is durable and corrosion-resistant, ensuring optimal airflow for effective cooling.

Cooling Pads: Effective evaporative cooling with specially designed cooling pads

Special cooling pads are used in the air cooler to facilitate effective evaporative cooling for a comfortable environment.

Airflow Capacity: High airflow for efficient cooling in larger areas

The air cooler provides high airflow capacity to ensure efficient cooling in larger spaces or rooms.

Control Panel: Manual or digital control panel for convenient settings

The air cooler is equipped with a control panel that allows manual or digital adjustment of fan speed, temperature settings, and water levels for customized comfort.

Air Filter: Air filters for cleaner air by removing dust and debris

The air cooler features adjustable or multi-directional exhaust air outlets that help in distributing cool air evenly across the room for maximum comfort.

Housing Material: Sturdy, corrosion-resistant casing for component protection

The air cooler is housed in a sturdy casing made of corrosion-resistant plastic or metal, providing protection to internal components for long-lasting performance.

Noise Reduction Design: Features aimed at minimizing operational noise

The design of the air cooler includes features that reduce noise during operation, ensuring quieter performance for a peaceful environment.

Applications:

The DM Cold Room Evaporator features electric defrosting, making it easy to maintain and operate. Whether you require high, medium, or low-temperature cooling, this product is designed to meet your specific needs. Its new condition and high heat transfer efficiency ensure optimal performance in various environments.

Powered by 220V/380V, the DM Cold Room Evaporator is efficient and reliable in providing air-cooled evaporator solutions. Its evaporation air cooler technology further enhances its cooling capabilities, making it a standout choice for refrigeration needs.

Customization:

Cold Room Evaporators from DM offer customizable options to suit your needs. Our Industrial Evaporator model, DM-COOLER-DSL, is manufactured in China and comes with CE and ISO certifications.

With a minimum order quantity of 1 and a price range from \$1000 to \$100000, our Cold Room Evaporators can be tailored to your specifications. The packaging details are customizable, and delivery time is estimated at 20 days.

We accept TT and L/C payment terms and have a supply ability of 300,000 units per year. The fan quantity can range from 1 piece to 2, 3, or 4 pieces, depending on your requirements.

Our Evaporation Air Cooler is designed for low-temperature storage environments, featuring a steel plate casing with plastic spray finish. The temperature settings can be adjusted to high, medium, or low temperatures, providing flexibility for various storage needs.

Experience the reliability and efficiency of DM Cold Room Evaporators with customizable options to meet your specific industrial cooling requirements.

Support and Services:

- The Product Technical Support and Services for the Cold Room Evaporator product include: -----
- Installation guidance and support for proper setup of the evaporator unit.
 - Troubleshooting assistance for any technical issues that may arise during operation.
 - Regular maintenance recommendations to ensure optimal performance and longevity of the equipment.
 - Warranty coverage and repair services for any defects or malfunctions covered under the product warranty.
 - Technical training and resources for customers and service technicians to enhance product knowledge and troubleshooting skills.
