

Energy-Saving Freezer Room Condensing Unit for 380V/220V Voltage and Air-Cooled Cooling

Our Product Introduction

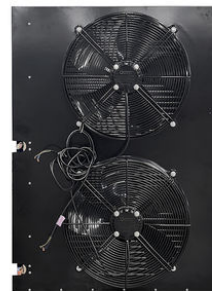

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-FNU
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Voltage: 380V/220V
- Origin: China
- Keyword: Blast Freezer Condenser
- Type: Air-Cooled
- Motor Type: Direct Drive
- Number Of Fans: 2-6
- Application: Commercial/Industrial
- Cooling Method: Air Cooling
- Highlight: **220V Freezer Room Condensing Unit ,
380V Freezer Room Condensing Unit ,
Air-Cooled Freezer Room Condensing Unit**

Product Description

Product Description:

The air-cooled condenser plays a crucial role in refrigeration and air conditioning systems by harnessing ambient air to facilitate the dissipation of heat from the refrigerant. It finds extensive applications in areas such as commercial refrigeration, industrial cooling, and HVAC systems. The condenser is engineered for optimal efficiency and longevity, ensuring consistent performance across different environmental settings.

With its ability to utilize the surrounding air for cooling purposes, the air-cooled condenser delivers reliable operation even in demanding conditions. Its design is tailored to meet the requirements of diverse industries, making it a versatile choice for various cooling applications. Whether in commercial settings or industrial facilities, this condenser stands out for its effectiveness in heat dissipation and overall performance.

Features:

No water resource is needed, making it highly adaptable.

It features a simple structure, making installation and maintenance easy.

The energy efficiency is significantly influenced by the ambient temperature.

Although it has low operating costs, its energy consumption is relatively high.

This system is suitable for small to medium-sized refrigeration systems.

It comes in various structural types, making it suitable for different applications.

Technical Parameters:

Origin	China
Keyword	Blast Freezer Condenser
Cooling Method	Air Cooling
Voltage	380V/220V
Type	Air-Cooled
Number Of Fans	2-6
Application	Commercial/Industrial
Motor Type	Direct Drive

Applications:

Cold Storage and Freezer Rooms

Cold storage and freezer rooms are facilities designed for preserving perishable goods at low temperatures. These rooms are essential for storing food items, pharmaceuticals, and other temperature-sensitive products. Proper insulation and refrigeration systems are used to maintain the desired low temperatures and humidity levels within these rooms.

Supermarket Refrigeration Systems

Supermarkets rely on refrigeration systems to keep their products fresh. These systems include commercial refrigerators,

freezers, and display cases that help store and showcase various items such as fruits, vegetables, dairy products, and frozen foods. Efficient refrigeration is crucial in ensuring food safety and quality.

Industrial Process Cooling

Industrial process cooling involves the use of specialized systems to control temperatures during manufacturing processes. This is critical in industries such as chemical processing, electronics manufacturing, and plastic molding. By maintaining optimal temperatures, these cooling systems help improve productivity and product quality.

Commercial Air Conditioning

Commercial air conditioning systems are used in businesses, offices, and public spaces to regulate indoor temperatures and improve comfort. These systems provide cooling during hot weather and heating during cold seasons. Proper maintenance and efficient operation of these systems are essential for a comfortable and productive work environment.

Food Processing and Preservation

Food processing and preservation techniques are employed to extend the shelf life of food products and maintain their quality. From canning and pickling to freezing and drying, various methods are used to preserve food items. These techniques help ensure food safety and prevent spoilage.

Customization:

Product Customization Services for Air Cooler Condenser:

Brand Name: Damai

Model Number: DM-FNU

Place of Origin: China

Certification: CE;ISO

Minimum Order Quantity: 1

Price: \$200~\$100000

Packaging Details: Wooden Case

Delivery Time: 15 Work Days

Payment Terms: T/T

Supply Ability: 1000000pcs/year

Motor Type: Direct Drive

Voltage: 380V/220V

Cooling Method: Air Cooling

Origin: China

Keyword: Blast Freezer Condenser

Additional Keywords: Air Conditioner Condenser Evaporator, Air Cooled Condenser
