

Direct Drive Motor Type 2-6 Fans Air Cooled Condenser for Effective Air Cooling in Commercial/Industrial Environments

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-FNU
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Number Of Fans: 2-6
- Keyword: Blast Freezer Condenser
- Application: Commercial/Industrial
- Cooling Method: Air Cooling
- Motor Type: Direct Drive
- Voltage: 380V/220V
- Origin: China
- Type: Air-Cooled
- Highlight: **Commercial Air Cooled Condenser,
Industrial Air Cooled Condenser,
2-6 Fans Air Cooled Condenser**

Product Description

Product Description:

The air-cooled condenser plays a vital role in refrigeration and air conditioning systems by using surrounding air to remove heat from the refrigerant. It is a key component widely implemented in commercial refrigeration, industrial cooling, and HVAC systems. Constructed for optimal efficiency and long-term reliability, this condenser ensures dependable performance under diverse environmental circumstances.

Features:

No water resource is needed and it is highly adaptable.
The system has a simple structure, making installation and maintenance easy.
Energy efficiency is significantly influenced by ambient temperature.
Operating costs are low, but energy consumption is relatively high.
This system is suitable for small to medium-sized refrigeration systems.
It comes in various structural types, making it suitable for different applications.

Technical Parameters:

Keyword	Blast Freezer Condenser
Origin	China
Type	Air-Cooled
Voltage	380V/220V
Motor Type	Direct Drive
Application	Commercial/Industrial
Number Of Fans	2-6
Cooling Method	Air Cooling

Applications:

Cold Storage and Freezer Rooms

The provision of cold storage and freezer rooms is essential for businesses in various industries to store perishable goods at low temperatures, thereby preserving their quality and freshness for a longer period of time.

Supermarket Refrigeration Systems

Supermarket refrigeration systems are crucial for maintaining the quality and safety of food products on display. These systems ensure that perishable items such as fruits, vegetables, and dairy products are kept at the optimal temperature to prevent spoilage.

Industrial Process Cooling

Industrial process cooling is indispensable for maintaining the efficiency and effectiveness of machinery and equipment in various manufacturing processes. Cooling systems help manage the temperature of industrial equipment to ensure smooth operations.

Commercial Air Conditioning

Commercial air conditioning plays a vital role in creating a comfortable and conducive working environment for employees and customers in commercial spaces such as offices, retail stores, and restaurants. It helps regulate the indoor temperature and enhance air quality.

Food Processing and Preservation

Food processing and preservation involve various techniques to extend the shelf life of food products and maintain their quality. Proper preservation methods, such as refrigeration and freezing, help prevent food spoilage and ensure food safety.

Customization:

Product Customization Services for the Air Cooler Condenser:

- Brand Name: Damai
- Model Number: DM-FNU
- Place of Origin: China
- Certification: CE;ISO
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year
- Origin: China
- Application: Commercial/Industrial
- Keyword: Blast Freezer Condenser
- Motor Type: Direct Drive
- Voltage: 380V/220V

Keywords: Air Cooled Condenser, Freezer Room Condensing Unit, Blast Freezer Condenser
