

Cooling Method Air Cooling Air Cooled Refrigeration Condenser for Cold Storage Blast Freezer Condenser Efficiency

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-FNU
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Motor Type: Direct Drive
- Cooling Method: Air Cooling
- Keyword: Blast Freezer Condenser
- Voltage: 380V/220V
- Application: Commercial/Industrial
- Type: Air-Cooled
- Number Of Fans: 2-6
- Origin: China
- Highlight: **Air Cooled Blast Freezer Condenser,
Cold Storage Air Cooled Condenser,
Air Cooled Refrigeration Condenser**

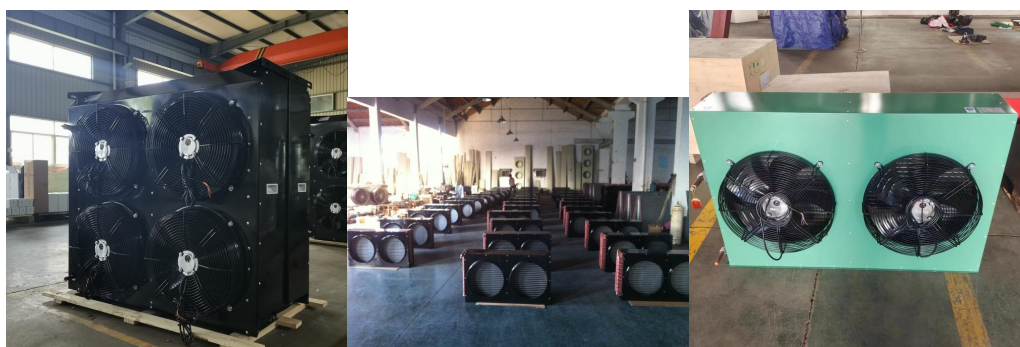

Product Description

Product Description:

The air-cooled condenser plays a crucial role in refrigeration and air conditioning systems by using outdoor air to remove heat from the refrigerant. It is a key component in a variety of settings such as commercial refrigeration, industrial cooling, and HVAC systems.

Engineered for optimal efficiency and longevity, this condenser is known for its dependable performance in a range of environmental situations. It is a versatile and reliable choice for those looking to maintain the proper functioning of their cooling equipment.

Features:

No water resource required, highly adaptable

Simple structure, easy installation and maintenance

Energy efficiency is greatly affected by ambient temperature

Low operating costs, but relatively high energy consumption

Suitable for small to medium-sized refrigeration systems

Various structural types, suitable for different applications

Technical Parameters:

Number Of Fans: 2-6

Type: Air-Cooled

Origin: China

Keyword: Blast Freezer
Condenser

Motor Type: Direct Drive

Voltage: 380V/220V

Application: Commercial/Industrial

Cooling Method: Air Cooling

Applications:

Cold Storage and Freezer Rooms serve as essential components in various industries for preserving perishable goods at low temperatures. These rooms are designed to maintain a controlled environment to extend the shelf life of products and prevent spoilage.

Supermarket Refrigeration Systems play a crucial role in keeping perishable items fresh and refrigerated in retail settings. These systems are specifically tailored to the needs of supermarkets and grocery stores, ensuring that products are stored at optimal temperatures to maintain quality and safety.

Industrial Process Cooling refers to the use of cooling systems in industrial settings to regulate process temperatures and maintain equipment efficiency. These cooling systems are essential for various manufacturing processes that require precise temperature control to ensure product quality and consistency.

Commercial Air Conditioning systems are designed to provide cooling and climate control for commercial buildings, offices, and other large spaces. These systems help regulate indoor temperatures, improve air quality, and create a comfortable environment for occupants.

Food Processing and Preservation technologies involve a range of methods and equipment used in the food industry to ensure food safety and quality. These processes include preserving, packaging, and storing food products to extend their

shelf life and maintain nutritional value.

Customization:

Product Customization Services for the Refrigeration Air Cooled Condenser

- Brand Name: Damai
- Model Number: DM-FNU
- Place of Origin: China
- Certification: CE;ISO
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year
- Origin: China
- Application: Commercial/Industrial
- Voltage: 380V/220V
- Number Of Fans: 2-6
- Motor Type: Direct Drive
- Suitable for Air Conditioner Condenser Evaporator and Steam Condenser
