

Air-Cooled Air Conditioner Condenser Evaporator Cooling Method for Air Cooling

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-DV
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Cooling Method: Air Cooling
- Origin: China
- Number Of Fans: 2-6
- Motor Type: Direct Drive
- Voltage: 380V/220V
- Type: Air-Cooled
- Keyword: Blast Freezer Condenser
- Application: Commercial/Industrial
- Highlight: **Air Cooled Air Conditioner Condenser,
Air Conditioner Condenser Evaporator,
Air Cooling Air Conditioner Condenser**

Product Description

Product Description:

The V-Type Air Cooled Condenser is a highly efficient heat rejection unit designed for a variety of industrial and commercial applications. Engineered to provide optimal performance, this condenser utilizes a space-saving V-shaped configuration that maximizes airflow and heat transfer efficiency.

It is ideal for use in HVAC systems, refrigeration, and cooling processes where air is the primary cooling medium.

Applications:

Air conditioning systems are designed to regulate and control the temperature, humidity, and air quality within a specific indoor space. They work by removing heat and moisture from the air, providing a comfortable and healthy environment for occupants.

Refrigeration units are devices that are used to cool and preserve food, beverages, and other perishable items. They operate by removing heat from the interior of the unit, creating a cold environment that helps to extend the shelf life of the stored products.

Industrial cooling systems are large-scale systems used in industrial settings to control the temperature of machinery, equipment, and processes. These systems are essential for maintaining optimal operating conditions and ensuring the efficiency and reliability of industrial operations.

Process cooling refers to the cooling of various industrial processes to ensure consistent and reliable operation. This includes maintaining specific temperature levels during manufacturing, chemical processing, and other industrial activities to optimize production quality and efficiency.

Support and Services:

Our Product Technical Support and Services for the Air Cooler Condenser include:

- Installation guidance and support
- Troubleshooting assistance for technical issues
- Maintenance recommendations and tips
- Warranty information and claims processing
- Product documentation and user manuals
- Product upgrades and updates
- Training sessions for users and technicians

FAQ:

Q: What is the brand name of the Air Cooler Condenser?

A: The brand name of the Air Cooler Condenser is Damai.

Q: What is the model number of the Air Cooler Condenser?

A: The model number of the Air Cooler Condenser is DM-DV.

Q: Where is the Air Cooler Condenser manufactured?

A: The Air Cooler Condenser is manufactured in China.

Q: What certifications does the Air Cooler Condenser have?

A: The Air Cooler Condenser is certified with CE and ISO.

Q: What are the payment terms for purchasing the Air Cooler Condenser?

A: The payment terms for purchasing the Air Cooler Condenser are T/T.
