

Commercial/Industrial Air Cooled Fnh Refrigeration Condenser for Cold Storage Blast Freezer

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: Damai
- Certification: CE;ISO
- Model Number: DM-DV
- Minimum Order Quantity: 1
- Price: \$200~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 15 Work Days
- Payment Terms: T/T
- Supply Ability: 1000000pcs/year

Product Specification

- Motor Type: Direct Drive
- Cooling Method: Air Cooling
- Keyword: Blast Freezer Condenser
- Origin: China
- Type: Air-Cooled
- Number Of Fans: 2-6
- Voltage: 380V/220V
- Application: Commercial/Industrial
- Highlight: **Commercial Air Cooled Condenser,
Industrial Air Cooled Condenser,
Blast Freezer Air Cooled Condenser**

Product Description

Product Description:

The V-Type Air Cooled Condenser is a highly efficient heat rejection unit designed for a variety of industrial and commercial applications. Engineered to provide optimal performance, this condenser utilizes a space-saving V-shaped configuration that maximizes airflow and heat transfer efficiency.

It is ideal for use in HVAC systems, refrigeration, and cooling processes where air is the primary cooling medium.

Applications:

Air conditioning systems are used to control and maintain the temperature, humidity, and air quality of indoor spaces. These systems work by removing heat from the air inside a building and transferring it outside, resulting in cooler and more comfortable interior environments.

Refrigeration units are designed to cool and preserve perishable items such as food, beverages, and pharmaceuticals. By absorbing heat from the contents of the unit and releasing it outside, refrigeration systems maintain low temperatures to prevent spoilage and extend the shelf life of products.

Industrial cooling systems are used in large-scale manufacturing facilities, data centers, and other industrial settings to regulate equipment temperature and prevent overheating. These systems typically involve the use of specialized cooling equipment such as chillers, cooling towers, and heat exchangers to manage heat dissipation effectively.

Process cooling refers to the cooling techniques and equipment used in various industrial processes to maintain specific temperature levels and ensure optimal operating conditions. This can include cooling machinery, materials, or fluids to enhance production efficiency and product quality across a range of industries.

Support and Services:

The Product Technical Support and Services for the Air Cooler Condenser product include: -----

- Installation guidance and support
- Troubleshooting assistance for any operational issues
- Maintenance recommendations to ensure optimal performance
- Warranty information and claims processing
- Product updates and software upgrades

FAQ:

Q: What is the brand name of this Air Cooler Condenser? -----

A: The brand name is Damai.

Q: What is the model number of this Air Cooler Condenser?

A: The model number is DM-DV.

Q: Where is this Air Cooler Condenser manufactured?

A: It is manufactured in China.

Q: What certifications does this Air Cooler Condenser have?

A: It is certified with CE and ISO.

Q: What is the minimum order quantity for this Air Cooler Condenser?

A: The minimum order quantity is 1 unit.
