

Powerful Cold Room Air Cooler with Customizable Features and 220V/380V Power Supply

Basic Information

Place of Origin: ChinaBrand Name: DM

Certification: CE ISO

Model Number: DM-COOLER-DSL

Minimum Order

Quantity:

Price: 1000-100000Packaging Details: Customization

Delivery Time: 20day
Payment Terms: TT, L/C
Supply Ability: 300000/Year

Product Specification

Casing: Steel Plate With Plastic Spray

Coil Tube: CopperCondition: New

• Cold Room Type: Cold Storage (Cold Room)

Application: Cold Storage/Cold Room/Freezer Room

• Heat Transfer Efficiency:High

• Dimensions: Custom

Temperature: High, Medium, Low Temperature

• Highlight: 220V Cold Room Air Cooler,

380V Cold Room Air Cooler,

Customizable Cold Room Air Cooler

Product Description:

Main Machine Configuration

- 1. Motor: High-efficiency, energy-saving motor.
- 2. Fan Blade: Durable, corrosion-resistant designed for optimal airflow.
- 3. Cooling Pads: Cooling pads for effective evaporative cooling.
- 4. Airflow Capacity: High airflow to ensure efficient cooling for larger areas.
- 5. Control Panel: Manual or digital control panel to adjust fan speed, temperature settings, and water levels.
- 6. Air Filter: Filters to clean the air, removing dust and debris.
- 7. Exhaust Air Outlet: Adjustable or multi-directional outlets for distributing cool air evenly across a room.
- 8. Housing Material: Sturdy, corrosion-resistant plastic or metal casing to protect internal components.
- 9. Noise Reduction Design: Design features aimed at minimizing operational noise, for quieter performance.

Applications:

Applications of Air-Cooled Evaporators:

- 1. Cold Storage Facilities Air-cooled evaporators are commonly used in cold storage facilities for the preservation of food, pharmaceuticals, or chemicals.
- 2. Industrial Workshops Another application of air-cooled evaporators is in industrial workshops where they are utilized for cooling machinery or process areas such as plastics or metalworking.

- 3. Commercial Refrigeration In commercial settings like supermarkets, restaurants, or logistics warehouses, air-cooled evaporators are essential for refrigeration purposes.
- 4. Agricultural Cooling Air-cooled evaporators play a crucial role in agricultural cooling by pre-cooling fruits and vegetables post-harvest to extend their shelf life.
- 5. HVAC Systems Air-cooled evaporators are widely used in HVAC systems for large buildings, data centers, or server rooms to maintain optimal temperatures.
- 6. Special Environments In special environments such as high-temperature zones or explosion-proof areas like mines or oil refineries, air-cooled evaporators are employed for cooling purposes.

Packing and Shipping:

Product Name: Cold Room Evaporator

Description: High-quality evaporator unit designed for cold storage rooms.

Package Contents: Evaporator unit, installation manual, mounting brackets.

Packaging: The evaporator unit is securely packed in a durable cardboard box with foam padding to prevent damage during transit. Shipping: We offer fast and reliable shipping services to ensure prompt delivery of your evaporator unit.

FAQ:

- Q: What is the brand name of the Cold Room Evaporator product?
- A: The brand name is DM.
- Q: What is the model number of the Cold Room Evaporator product?
- A: The model number is DM-COOLER-DSL.
- Q: Where is the Cold Room Evaporator product manufactured?
- A: The product is manufactured in China.
- Q: What certifications does the Cold Room Evaporator product have?
- A: The product is certified with CE and ISO.
- Q: What are the accepted payment terms for the Cold Room Evaporator product?
- A: The accepted payment terms are TT and L/C.

Factory No. 1, Wanfeng Aviation Town, Wozhou Town, Xinchang County, Zhejiang Province
