

Medium Temperature Copper Coil Tube Custom Cold Room Evaporator for Customized Cooling Applications

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DSL
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT, L/C
- Supply Ability: 300000/Year

Product Specification

- Customized: Acceptable
- Condition: New
- Temperature: High, Medium, Low Temperature
- Cold Room Type: Cold Storage (Cold Room)
- Coil Tube: Copper
- Dimensions: Custom
- Heat Transfer Efficiency: High
- Application: Cold Storage/Cold Room/Freezer Room
- Highlight: **Medium Temperature Cold Room Evaporator ,
Copper Coil Tube Cold Room Evaporator ,
Custom Cold Room Evaporator**

Product Description

Product Description:

Main Machine Configuration.

1. **Motor:** High-efficiency, energy-saving motor
2. **Fan Blade:** Durable, corrosion-resistant designed for optimal airflow.
3. **Cooling Pads:** Cooling pads for effective evaporative cooling.
4. **Airflow Capacity:** High airflow to ensure efficient cooling for larger areas.
5. **Control Panel:** Manual or digital control panel to adjust fan speed, temperature settings, and water levels.
6. **Air Filter:** Filters to clean the air, removing dust and debris.
7. **Exhaust Air Outlet:** Adjustable or multi-directional outlets for distributing cool air evenly across a room.
8. **Housing Material:** Sturdy, corrosion-resistant plastic or metal casing to protect internal components.
9. **Noise Reduction Design:** Design features aimed at minimizing operational noise, for quieter performance.

Applications:

Applications of Air-Cooled Evaporators:

Cold Storage Facilities - Air-cooled evaporators are commonly used for preserving food, pharmaceuticals, or chemicals in facilities such as cold storage rooms.

Industrial Workshops - These evaporators play a crucial role in cooling machinery and process areas in industrial settings like plastics or metalworking workshops.

Rechargeable Air Cooler Evaporator for Walk in Cooler Cold Storage Room Freezer

Commercial Refrigeration - Air-cooled evaporators are essential components in refrigeration systems for supermarkets, restaurants, and logistics warehouses.

Agricultural Cooling - They are employed for pre-cooling fruits and vegetables after harvest, ensuring optimal preservation and quality.

HVAC Systems - In large buildings, data centers, or server rooms, air-cooled evaporators help regulate temperature and maintain optimal working conditions.

Special Environments - In high-temperature zones or explosion-proof areas like mines or oil refineries, these evaporators are used to control and maintain suitable temperatures for various processes.

Packing and Shipping:

Product Packaging for Cold Room Evaporator:

- The Cold Room Evaporator will be securely packed in a sturdy cardboard box to prevent any damage during transit.
- Each unit will be wrapped in protective material to avoid scratches or dents.
- The packaging will include handling instructions and a packing list for easy identification.

Shipping Information:

- The Cold Room Evaporator will be shipped via a reliable carrier service to ensure timely and safe delivery.
- Customers will receive a tracking number to monitor the shipment status.
- Shipping times may vary depending on the destination, with expedited shipping options available for an additional fee.

FAQ:

Q: What is the brand name of the Cold Room Evaporator?

A: The brand name is DM.

Q: What is the model number of the Cold Room Evaporator?

A: The model number is DM-COOLER-DSL.

Q: Where is the Cold Room Evaporator manufactured?

A: It is manufactured in China.

Q: What certifications does the Cold Room Evaporator have?

A: It is certified with CE and ISO.

Q: What are the payment terms accepted for purchasing the Cold Room Evaporator?

A: The accepted payment terms are TT (Telegraphic Transfer) and L/C (Letter of Credit).
