

## Small Cold Room Evaporator With Customized Options And 1pcs Fan

Our Product Introduction

for more products please visit us on [coldroomunit.com](http://coldroomunit.com)

### Basic Information

- Place of Origin: China
- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DSL
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT, L/C
- Supply Ability: 300000/Year

### Product Specification

- Customized: Acceptable
- Coil Tube: Copper
- Power Supply: 220V/380V
- Heat Transfer Efficiency: High
- Material Of Fin: Material Of Fin
- Cold Room Type: Cold Storage (Cold Room)
- Storage: Low Temperature Storage
- Defrosting: Electric Defrosting
- Highlight: **1pcs Fan Cold Room Evaporator ,  
small cold room evaporator ,  
Customized Options Cold Room Evaporator**

## Product Description

### Product Description:

Main Machine Configuration

**Motor:** High-efficiency, energy-saving motor

**Fan Blade:** Durable, corrosion-resistant designed for optimal airflow.

**Cooling Pads:** cooling pads for effective evaporative cooling.

**Airflow Capacity:** High airflow to ensure efficient cooling for larger areas.

### Features

**Control Panel:** Manual or digital control panel to adjust fan speed, temperature settings, and water levels.

**Air Filter:** Filters to clean the air, removing dust and debris.

**Exhaust Air Outlet:** Adjustable or multi-directional outlets for distributing cool air evenly across a room.

**Housing Material:** Sturdy, corrosion-resistant plastic or metal casing to protect internal components.

**Noise Reduction Design:** Design features aimed at minimizing operational noise, for quieter performance.

### Applications:

Applications of Air-Cooled Evaporators:

1. Cold Storage Facilities - Air-cooled evaporators are commonly used in cold storage facilities for preserving food, pharmaceuticals, or chemicals at low temperatures to maintain their quality and shelf life.
2. Industrial Workshops - Air-cooled evaporators play a crucial role in cooling machinery and process areas in industrial workshops, such as plastics and metalworking facilities, to ensure optimal operating conditions.
3. Commercial Refrigeration - Air-cooled evaporators are widely utilized in supermarkets, restaurants, and logistics warehouses for maintaining the desired temperature of perishable goods and products.
4. Agricultural Cooling - Air-cooled evaporators are used for pre-cooling fruits and vegetables after harvest to slow down the ripening process and extend their storage life.
5. HVAC Systems - Air-cooled evaporators are essential components in HVAC systems for large buildings, data centers, and server rooms to regulate indoor air temperature and humidity.
6. Special Environments - Air-cooled evaporators are employed in high-temperature zones and explosion-proof areas like mines and oil refineries to provide efficient cooling solutions in challenging environments.

### Packing and Shipping:

Product Packaging and Shipping: -----

The Cold Room Evaporator is carefully packaged to ensure its safe delivery to your location. It is securely wrapped in protective materials to prevent any damage during transit. The packaging is designed to withstand rough handling and various weather conditions. When shipping the Cold Room Evaporator, we partner with reliable courier services to guarantee timely and efficient delivery. You will receive a tracking number to monitor the status of your shipment. Our team is dedicated to ensuring that your order arrives in perfect condition.

### FAQ:

A: The brand name is DM.

Q: What is the model number of the Cold Room Evaporator product?

A: The model number is DM-COOLER-DSL.

Q: Where is the Cold Room Evaporator product manufactured?

A: The product is manufactured in China.

Q: What certifications does the Cold Room Evaporator product have?

A: The product is certified with CE and ISO.

Q: What is the minimum order quantity for the Cold Room Evaporator product?

A: The minimum order quantity is 1.
