Product Description

Product Description:

The Cold Room Evaporator is a critical component of refrigeration systems, specifically designed to maximize cooling performance in environments such as cold storage facilities, walk-in freezers, and food preservation areas. Constructed with high-quality aluminum fins and copper tubing, this evaporator boasts exceptional heat exchange efficiency and durability.

Engineered for consistent air distribution, the evaporator helps prevent temperature fluctuations and ensures uniform cooling across the entire cold room. It is compatible with a variety of refrigerants, including R134a, R404A, R290, and CO₂, making it versatile enough to meet diverse cooling needs.

Well-suited for applications in food storage, pharmaceutical cold rooms, and industrial refrigeration, our Cold Room Evaporator is a dependable solution that delivers both reliable cooling performance and energy efficiency for your business.

Features:

Product Name: Cold Room Evaporator

Fan Qty: 1pcs To 2,3,4 Pcs

Cold Room Type: Cold Storage (Cold Room)

Material Of Fin: Material Of Fin

Type: Air Cooler
