Product Description

Product Description:

Our Cold Room Evaporator is specially designed for walk-in freezers, cold storage rooms, and refrigeration systems. Engineered with high-efficiency aluminum fins and durable copper tubing, it ensures rapid and uniform cooling throughout the space. The unit features low-noise axial fans, excellent heat transfer capability, and corrosion-resistant materials for long-lasting performance. It is available in various models to suit different temperature ranges, from high-temperature cold rooms to ultra-low freezers. Easy to install and maintain, this evaporator is a dependable solution for food storage, pharmaceutical applications, and industrial refrigeration.

Applications:

Food Storage & Processing – Ideal for preserving meat, seafood, fruits, vegetables, and dairy products in walk-in cold rooms and freezers.

Pharmaceutical Industry – Maintains precise temperature control for medicine storage, vaccine preservation, and bio-materials.

Supermarkets & Convenience Stores – Used in backroom storage areas to keep products fresh before shelving.

Cold Chain Logistics – Integrated into refrigerated trucks and distribution warehouses for continuous cooling.

Industrial Refrigeration – Applied in large-scale cold storage warehouses, food factories, and processing facilities.

Bakeries & Catering – Keeps perishable ingredients and prepared foods at safe, consistent temperatures.

Aquatic Product Cold Rooms – Ensures freshness for fish, shellfish, and other seafood under low-temperature storage.
