## Product Description

### Product Description:

Our Cold Room Evaporator

The Cold Room Evaporator we offer is specifically crafted for walk-in freezers, cold storage rooms, and refrigeration systems. This evaporator is engineered with high-efficiency aluminum fins and durable copper tubing to ensure rapid and uniform cooling performance throughout the designated space. The unit is equipped with low-noise axial fans, excellent heat transfer capability, and corrosion-resistant materials for optimal and long-lasting operation.

Versatile Models

Available in various models designed to cater to different temperature ranges. From high-temperature cold rooms to ultra-low freezers, our evaporator can meet diverse cooling requirements.

### Dependable Solution

It is an easy-to-install and maintain evaporator, making it a reliable solution for food storage, pharmaceutical applications, and industrial refrigeration needs.

### Applications:

**Food Storage & Processing** – Ideal for preserving meat, seafood, fruits, vegetables, and dairy products in walk-in cold rooms and freezers.

**Pharmaceutical Industry** – Maintains precise temperature control for medicine storage, vaccine preservation, and bio-materials.

**Supermarkets & Convenience Stores** – Used in backroom storage areas to keep products fresh before shelving.

**Cold Chain Logistics** – Integrated into refrigerated trucks and distribution warehouses for continuous cooling.

**Industrial Refrigeration** – Applied in large-scale cold storage warehouses, food factories, and processing facilities.

**Bakeries & Catering** – Keeps perishable ingredients and prepared foods at safe, consistent temperatures.

**Aquatic Product Cold Rooms** – Ensures freshness for fish, shellfish, and other seafood under low-temperature storage.
