Product Description

Product Description:

Our **Cold Room Evaporator** is specifically crafted for *walk-in freezers*, *cold storage rooms*, and *refrigeration systems*. It is designed with **high-efficiency aluminum fins** and sturdy **copper tubing** to ensure rapid and uniform cooling across the entire space. The unit is equipped with low-noise axial fans, exceptional heat transfer capabilities, and corrosion-resistant materials for extended performance durability.

The Cold Room Evaporator is offered in various **models** tailored to different *temperature ranges*, from *high-temperature cold rooms* to *ultra-low freezers*. This evaporator is straightforward to **install** and **maintain**, making it a reliable solution for *food storage*, *pharmaceutical applications*, and *industrial refrigeration*.

Applications:

Food Storage & Processing – Ideal for preserving meat, seafood, fruits, vegetables, and dairy products in walk-in cold rooms and freezers.

Pharmaceutical Industry – Maintains precise temperature control for medicine storage, vaccine preservation, and bio-materials.

Supermarkets & Convenience Stores – Used in backroom storage areas to keep products fresh before shelving.

Cold Chain Logistics – Integrated into refrigerated trucks and distribution warehouses for continuous cooling.

Industrial Refrigeration – Applied in large-scale cold storage warehouses, food factories, and processing facilities.

Bakeries & Catering – Keeps perishable ingredients and prepared foods at safe, consistent temperatures.

Aquatic Product Cold Rooms – Ensures freshness for fish, shellfish, and other seafood under low-temperature storage.
