

Low Noise Air Cooled Condensing Units for Commercial and Industrial Needs

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-FNH
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 30 Work Days
- Payment Terms: T/T,L/C
- Supply Ability: 1000000pcs/year

Product Specification

- Showroom Location: None
- Condenser Type: Air Cooled Condenser
- Fan Diameter: 400~750mm
- Evaporator Fan Motor: ECM
- Evaporating Temp: -10~+7celsius Degree
- Sample: Available
- Power Type: DC
- Fan Number: 2~4
- Highlight: Industrial Air Cooled Condensing Units,
Low Noise Air Cooled Condensing Units,
Commercial Air Cooled Condensing Units

Product Description

Product Description:

Our Air Cooled Condensing Units are a reliable and efficient solution for commercial refrigeration needs. With a condenser type of Air Cooled Condenser, these units are designed to provide optimal cooling performance in various settings.

These units are suitable for a range of applications, including supermarkets, food storage facilities, and cold rooms. The versatility of our Air Cooled Condensing Units makes them an ideal choice for businesses looking to maintain the freshness and quality of their products.

The evaporating temperature range of $-10\sim+7$ degrees Celsius ensures that these units can effectively cool your space, keeping your products at the desired temperature levels. Whether you need to store fresh produce, frozen goods, or other temperature-sensitive items, our Air Cooled Condensing Units are up to the task.

With a fan number ranging from 2 to 4, our Air Cooled Condensing Units are equipped to handle varying cooling requirements. The multiple fans help distribute air evenly across the condenser coils, enhancing the overall efficiency of the unit.

When it comes to commercial refrigeration needs, our Air Cooled Condensing Units are a reliable choice. Designed for durability and performance, these units are built to withstand the demands of commercial environments, ensuring consistent cooling performance day in and day out.

Whether you are setting up a new supermarket, expanding your food storage capacity, or upgrading your cold room facilities, our Air Cooled Condensing Units are the perfect solution. With their efficient cooling capabilities and robust construction, these units offer a cost-effective and reliable refrigeration solution for businesses of all sizes.

Experience the benefits of our Air Cooled Condensing Units and elevate your commercial refrigeration setup today. Trust in the quality and performance of our units to keep your products fresh, safe, and at the optimal temperature levels.

Features:

Product Name: Condensing Unit

Trademark: DM

Usage: Refrigerating System

Core Components: Compressor

Suitable For:

Supermarket

Food Storage

Cold Room

Evaporating Temp: $-40\sim+10$ Celsius Degree

Technical Parameters:

Fan Diameter	400~750mm
--------------	-----------

Showroom Location	None
Suitable For	Supermarket, Food Storage, Cold Room
Evaporating Temp	-10~+7 Celsius Degree
Condenser Type	Air Cooled Condenser
Sample	Available
Core Components	Compressor
Noise	Low Noise
Compressor	Optional
Usage	Refrigerating System

Zhejiang Damai Cold Chain Equipment Co.,Ltd.

Zhejiang Damai Cold Chain Equipment Co., Ltd., is a leading manufacturer of refrigeration units, like condensers, air coolers, all kinds of units, and solution provider for cold storage room.

We, Damai Cold Chain, are located in Zhejiang Province China, already supplied our machines, designing and installation services to more than 80 countries and districts clients in the world.

At present, we can supply clients for Bitzer, Copeland, Danfoss, Carrier, Damai and other brands compressors and refrigeration units, we also can supply clients for OEM & ODM service.

We want to establish a bright future with potential partners together!

Applications:

Air Cooled Condensing Units are versatile pieces of equipment suitable for various applications across different industries..Let's explore the Product Application Occasions and Scenarios for the DM Air Cooled Condensing Unit (Model: DM-UNIT-FNH) from China.

Commercial Refrigeration: The DM Air Cooled Condensing Unit is perfect for commercial refrigeration applications in supermarkets, convenience stores, restaurants, and other food service establishments. Its efficient cooling system ensures optimal storage conditions for perishable goods, maintaining freshness and quality.

Industrial Cooling: In industrial settings such as cold storage warehouses, food processing plants, and pharmaceutical facilities, the DM Condensing Unit provides reliable cooling solutions for large-scale operations. Its high capacity and durability make it ideal for demanding industrial environments.

HVAC Systems: The DM Air Cooled Condensing Unit is also well-suited for use in HVAC systems for residential, commercial, and industrial buildings. It helps maintain comfortable indoor temperatures by effectively removing heat from the air, contributing to energy efficiency and cost savings.

Refrigerated Transport: For refrigerated trucks, vans, and containers used in the transportation of temperature-sensitive goods, the DM Condensing Unit ensures consistent and reliable cooling performance on the go. It is a crucial component in ensuring the integrity of products during transit.

With certifications such as CE and ISO, the DM Air Cooled Condensing Unit guarantees compliance with international quality standards. The minimum order quantity is 1 unit, and the price ranges from \$2000 to \$100000, making it accessible for businesses of all sizes. Each unit is carefully packaged in wooden cases to ensure safe delivery.

The DM Condensing Unit boasts a supply ability of 1000000 units per year, coupled with a delivery time of 30 work days. Payment terms are flexible with options like T/T available. The unit features an Air Cooled Condenser, making it efficient and low-maintenance. It is designed for refrigerating systems and offers the flexibility of including an optional compressor.

In addition, a sample unit is available for testing and evaluation. The controller brand used in the unit is CAREL, known for its precision and reliability. Whether for commercial refrigeration, industrial cooling, HVAC systems, or refrigerated transport, the DM Air Cooled Condensing Unit is a versatile and high-performance solution for various application occasions and scenarios.

Customization:

Cold Room Condensing Unit Product Customization Services:

Brand Name: DM

Model Number: DM-UNIT-FNH

Place Of Origin: China

Certification: CE;ISO

Minimum Order Quantity: 1

Price: \$2000~\$100000

Packaging Details: Wooden Case

Delivery Time: 30 Work Days

Payment Terms: T/T

Supply Ability: 1000000pcs/year

Sample: Available

Showroom Location: None

Core Components: Compressor

Evaporating Temp: -10~+7celsius Degree

Controller Brand: CAREL

Keywords: Cold Room Condensing Unit, Condensing Unit Parts

Support and Services:

The Product Technical Support and Services for our Condensing Unit product are designed to provide comprehensive assistance to our customers. Our team of skilled technicians is available to address any technical questions or issues that may arise with the product. From installation guidance to troubleshooting and maintenance tips, our technical support team is committed to ensuring that our customers have a positive experience with our Condensing Unit product.
