

Air-cooled Condensing Unit for Commercial Refrigeration HVAC R Cooling Units Depending On The Product

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE;ISO
- Model Number: DM-UNIT-FNH
- Minimum Order Quantity: 1
- Price: \$2000~\$100000
- Packaging Details: Wooden Case
- Delivery Time: 30 Work Days
- Payment Terms: T/T,L/C
- Supply Ability: 1000000pcs/year

Product Specification

- Noise Level: Low
- Warranty: 1-2 Years
- After Warranty Service: Online Support
- Package Size: Depending On The Product
- Oem: Available
- Trademark: DM
- Nominal Capacity: 1 HP To 20 HP
- Suitable For: Supermarket, Food Storage, Cold Room
- Highlight: **Air-cooled Condensing Unit,
HVAC R Condensing Unit,
Commercial Refrigeration Condensing Unit**

Product Description

Product Description:

The U-type air-cooled condensing unit is a high-performance refrigeration solution designed for cold storage, food processing, and commercial refrigeration systems. Featuring a distinctive U-shaped layout, this unit provides exceptional thermal performance, efficient use of space, and simplified maintenance.

Applications:

Cold rooms and refrigerated warehouses are essential for storing perishable goods at low temperatures to prevent spoilage. These facilities are equipped with cooling systems to maintain the desired temperature levels, ensuring that products remain fresh and safe for consumption over an extended period.

Supermarket display cabinets are designed to showcase chilled and frozen food items to customers while keeping them at optimum temperatures. These display units are strategically located within stores to promote sales and provide easy access to refrigerated products.

Food processing and storage facilities play a crucial role in the food industry by ensuring that products are handled and preserved correctly to maintain quality and safety. Refrigeration units are used at various stages of food processing to control temperatures and prevent bacterial growth.

Commercial and industrial refrigeration systems are used in various settings such as restaurants, food factories, and warehouses to meet the cooling needs of large-scale operations. These systems are designed to handle high capacities and maintain consistent temperatures for efficient storage and distribution of perishable goods.

- Product updates and enhancements

FAQ:

Q: What is the brand name of this condensing unit? - - - - -

A: The brand name is DM.

Q: What is the model number of this condensing unit?

A: The model number is DM-UNIT-FNH.

Q: Where is this condensing unit manufactured?

A: The condensing unit is made in China.

Q: What certifications does this condensing unit have?

A: The certifications include CE and ISO.

Q: What is the minimum order quantity for this condensing unit?

A: The minimum order quantity is 1 unit.
