

Industrial Cooling Solution Cold Room Evaporator Fan Weiguang Type Air Cooler Series DD

Basic Information

Brand Name: DM

• Certification: CE ISO

Model Number: DM-COOLER-DD

 Minimum Order Quantity:

• Price: 1000-100000

Packaging Details: Customization

Delivery Time: 20dayPayment Terms: TT,L/C

• Supply Ability: 300000/Year

Product Specification

Origin: Made In China

• Fan Quantity: 1pcs To 2,3,4 Pcs

• Function: Refrigeration

• Series: DD

• Capacity: 10,000 BTU/hr

• Power Source: Electric

• Evaporator Type: Finned Tube

Case Material: Stainless Steel Or Steel

• Highlight: Weiguang Cold Room Evaporator,

Air Cooler Cold Room Evaporator, Industrial Cold Room Evaporator

Product Description:

DM-FNH Condensing Unit

DM Open-Type Air-Cooled Condensing Unit is a refrigeration system designed to effectively dissipate heat from the refrigerant, which is essential for the cooling process in various cold storage and commercial refrigeration applications. These units are typically used in walk-in freezers, refrigerated storage rooms, and large commercial cooling systems, providing a reliable and energy-efficient solution.

The DM High Air Duct Air Cooler is a robust and effective cooling option tailored for vast cold storage facilities and extended air distribution networks. Equipped with a high static pressure fan and an extended air duct range, this cooler guarantees consistent temperature distribution throughout extensive or multi-sectional spaces, rendering it perfect for industrial refrigeration purposes. The powerful cooling capabilities of the DM High Air Duct Air Cooler make it a suitable choice for maintaining optimal temperatures in large warehouses and industrial settings. Its ability to deliver uniform cooling across wide areas ensures that perishable goods and products are stored safely and at the required temperature levels.

Features:

High Static Pressure Fan: This fan is specifically designed to deliver long-range airflow through ducts, guaranteeing consistent cooling throughout distant storage areas.

Efficient Heat Exchange: With high-quality aluminum fins and copper tubes, this product is equipped for quick and effective heat transfer.

Durable Construction: The housing is coated with anti-corrosion materials and the components are rust-resistant, ensuring dependable operation in tough conditions.

Flexible Installation: This fan is suitable for ceiling mounting and works with various refrigerants, such as R404A and R134a. **Low Noise Operation:** Engineered to operate quietly while maintaining high airflow capacity.

Technical Parameters:

Туре	Air Cooler
Origin	Made In China
Series	DD
Name	Refrigeration Evaporator
Power Source	Electric
Storage	Low Temperature Storage
Condition	New
Evaporator Type	Finned Tube
Fan	Weiguang
Case Material	Stainless Steel Or Steel

Applications:

The DM High Air Duct Air Cooler is a specialized cooling system designed for cold storage environments that have the need for long-distance or multi-zone air distribution. This cooler is commonly used in large-scale cold storage facilities, such as those for fruits, vegetables, meat, seafood, and dairy products.

Its capability to operate under high static pressure makes it a suitable choice for facilities where air needs to travel through ducts, such as multi-chamber cold storage setups, central air-cooled systems, and large logistics warehouses. Moreover, it is well-suited for environments like food processing plants, distribution centers, and export packaging warehouses, where maintaining consistent temperature control and high levels of hygiene is crucial.

The DM High Air Duct Air Cooler ensures reliable temperature regulation and energy-efficient performance across extensive or segmented spaces, making it an ideal solution for various industrial and commercial applications.

Customization:

Product Customization Services for the Cold Room Evaporator:

Brand Name: DM

Model Number: DM-COOLER-DD

Place Of Origin: China Certification: CE ISO Minimum Order Quantity: 1 Price: \$1000-\$100000

Packaging Details: Customization

Delivery Time: 20 days Payment Terms: TT, L/C Supply Ability: 300,000/Year

Type: Air Cooler

Case Material: Stainless Steel Or Steel Storage: Low Temperature Storage Cooling Capacity: 1.5-10kW

Condition: New

Keywords: Commercial Evaporative Air Cooler, Industrial Evaporator

Support and Services:

The Product Technical Support and Services for the Cold Room Evaporator include:

- Installation guidance and support
- Troubleshooting assistance for any operational issues
- Regular maintenance recommendations
- Product training for proper usage
- Warranty coverage and claims processing

FAQ:

Q: What is the brand name of the Cold Room Evaporator?

A: The brand name is DM.

Q: What is the model number of the Cold Room Evaporator?

A: The model number is DM-COOLER-DD.

Q: Where is the Cold Room Evaporator manufactured?

A: The Cold Room Evaporator is made in China.

Q: What certifications does the Cold Room Evaporator have?

A: It is certified with CE and ISO.

Q: What is the minimum order quantity for the Cold Room Evaporator?

A: The minimum order quantity is 1.
