

1.5-10kW Cooling Capacity Cold Room Evaporator for Function and Refrigeration

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DD
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT,L/C
- Supply Ability: 300000/Year

DAMAI COLD CHAIN EQUIPMENT

Product Specification

- Series: DD
- Capacity: 10,000 BTU/hr
- Evaporator Type: Finned Tube
- Power Source: Electric
- Tyoe: Air Coler
- Storage: Low Temperature Storage
- Origin: Made In China
- Fan: Weiguang
- Highlight: **Function Cold Room Evaporator ,
1.5-10kW Cold Room Evaporator ,
Refrigeration Cold Room Evaporator**

Product Description

Product Description:

DM-FNH Condensing Unit

DM Open-Type Air-Cooled Condensing Unit is a refrigeration system designed to effectively dissipate heat from the refrigerant, which is essential for the cooling process in various cold storage and commercial refrigeration applications. These units are typically used in walk-in freezers, refrigerated storage rooms, and large commercial cooling systems, providing a reliable and energy-efficient solution.

The DM High Air Duct Air Cooler is specifically engineered to provide effective cooling for extensive cold storage facilities and air distribution networks covering significant distances. It utilizes a high static pressure fan and a prolonged air duct system to deliver consistent temperature control throughout expansive or multi-sectional environments. This cooling solution is particularly well-suited for industrial refrigeration purposes due to its ability to ensure uniform temperature distribution across wide areas. The design of the DM High Air Duct Air Cooler is optimized for optimizing the cooling process in large-scale refrigeration settings, making it a reliable choice for such applications.

Features:

High Static Pressure Fan: Designed specifically for long-range airflow through ducts, this fan is engineered to provide even cooling across distant storage zones.

Efficient Heat Exchange: Featuring high-quality aluminum fins and copper tubes, this unit is equipped to facilitate rapid and effective heat transfer.

Durable Construction: With an anti-corrosion coated housing and rust-resistant components, this fan ensures reliable operation even in demanding environments.

Flexible Installation: This fan is suitable for ceiling mounting and is compatible with a variety of refrigerants, including R404A and R134a.

Low Noise Operation: Engineered to deliver quiet performance while maintaining high airflow capacity, this fan is designed for minimal noise disturbance.

Zhejiang Damai Cold Chain Equipment Co., Ltd.

Zhejiang Damai Cold Chain Equipment Co., Ltd., is a leading manufacturer of refrigeration units, like condensers, air coolers, all kinds of units, and solution provider for cold storage rooms.

We, Damai Cold Chain, are located in Zhejiang Province China, already supplied our machines, designing and installation services to more than 80 countries and districts clients in the world.

At present, we can supply clients for Bitzer, Copeland, Danfoss, Carrier, Damai and other brands compressors and refrigeration units, we also can supply clients for OEM & ODM service.

We want to establish a bright future with potential partners together!

Technical Parameters:

Capacity	10,000 BTU/hr
Origin	Made In China
Cooling Capacity	1.5-10kW
Power Source	Electric
Function	Refrigeration
Case Material	Stainless Steel Or Steel
Evaporator Type	Finned Tube
Transport Package	Transport Package
Name	Refrigeration Evaporator
Storage	Low Temperature Storage

Applications:

The DM High Air Duct Air Cooler is specifically designed for cold storage environments that require long-distance or multi-zone air distribution. It is widely used in large-scale cold rooms, such as those for fruits, vegetables, meat, seafood, and dairy products. Its high static pressure capability makes it suitable for facilities where air needs to travel through ducts, such as multi-chamber cold storage, central air-cooled systems, and large logistics warehouses. Additionally, it is ideal for food processing plants, distribution centers, and export packaging warehouses where maintaining uniform temperature and high hygiene standards is critical. The cooler ensures consistent temperature control and energy-efficient performance across expansive or segmented spaces.

Customization:

Product Customization Services for the Cold Room Evaporator:
Brand Name: DM
Model Number: DM-COOLER-DD
Place Of Origin: China
Certification: CE ISO
Minimum Order Quantity: 1
Price: 1000-100000

Packaging Details: Customization
Delivery Time: 20 days
Payment Terms: TT, L/C
Supply Ability: 300000/Year
Fan Quantity: 1pcs To 2,3,4 Pcs
Transport Package: Transport Package
Evaporator Type: Finned Tube
Fan: Weiguang
Case Material: Stainless Steel Or Steel

Support and Services:

The Cold Room Evaporator product comes with comprehensive Product Technical Support and Services to ensure optimal performance and satisfaction. Our technical support team is available to assist with any product-related inquiries, troubleshooting, and maintenance needs. Additionally, we offer installation services to help you set up your Cold Room Evaporator properly and efficiently. Our team is dedicated to providing top-notch support and services to guarantee your product functions effectively and efficiently.

FAQ:

Q: What is the brand name of this Cold Room Evaporator?

A: The brand name is DM.

Q: What is the model number of this Cold Room Evaporator?

A: The model number is DM-COOLER-DD.

Q: Where is this Cold Room Evaporator manufactured?

A: It is manufactured in China.

Q: What certifications does this Cold Room Evaporator have?

A: It is certified with CE and ISO.

Q: What is the minimum order quantity for this Cold Room Evaporator?

A: The minimum order quantity is 1.
