

Low Temperature Storage Finned Tube Evaporator In Refrigeration System

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Certification: CE ISO
- Model Number: DM-COOLER-DD
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT,L/C
- Supply Ability: 300000/Year

Product Specification

- Cooling Capacity: 1.5-10kW
- Nmae: Refrigeration Evaporator
- Tyoe: Air Coler
- Case Material: Stainless Steel Or Steel
- Storage: Low Temperature Storage
- Series: DD
- Condition: New
- Transport Package: Transport Package
- Highlight: Refrigeration System Tube Evaporator,
Refrigeration System Finned Tube Evaporator,
Low Temperature Finned Tube Evaporator

Product Description

Product Description:

DM-FNH Condensing Unit

DM Open-Type Air-Cooled Condensing Unit is a refrigeration system designed to effectively dissipate heat from the refrigerant, which is essential for the cooling process in various cold storage and commercial refrigeration applications. These units are typically used in walk-in freezers, refrigerated storage rooms, and large commercial cooling systems, providing a reliable and energy-efficient solution.

The DM High Air Duct Air Cooler is a robust and effective cooling solution specifically created for use in extensive cold storage facilities and air distribution systems covering long distances. Featuring a high static pressure fan and capable of accommodating extended air ducts, this cooler guarantees even temperature distribution throughout large or multiple-zone spaces, making it perfectly suited for industrial refrigeration needs.

Features:

High Static Pressure Fan: Designed for long-range airflow through ducts, ensuring even cooling across distant storage zones.

Efficient Heat Exchange: Equipped with high-quality aluminum fins and copper tubes for rapid and effective heat transfer.

Durable Construction: Anti-corrosion coated housing and rust-resistant components ensure reliable operation in demanding environments.

Flexible Installation: Suitable for ceiling mounting and compatible with various refrigerants, including R404A and R134a.

Low Noise Operation: Engineered for quiet performance without compromising on airflow capacity.

Zhejiang Damai Cold Chain Equipment Co., Ltd.

Zhejiang Damai Cold Chain Equipment Co., Ltd., is a leading manufacturer of refrigeration units, like condensers, air coolers, all kinds of units, and solution provider for cold storage rooms.

We, Damai Cold Chain, are located in Zhejiang Province China, already supplied our machines, designing and installation services to more than 80 countries and districts clients in the world.

At present, we can supply clients for Bitzer, Copeland, Danfoss, Carrier, Danai and other brands compressors and refrigeration units, we also can supply clients for OEM & ODM service.

We want to establish a bright future with potential partners together!

Technical Parameters:

Power Source

Electric

Fan Quantity	1pcs To 2,3,4 Pcs
Name	Refrigeration Evaporator
Case Material	Stainless Steel Or Steel
Function	Refrigeration
Capacity	10,000 BTU/hr
Series	DD
Evaporator Type	Finned Tube
Origin	Made In China
Transport Package	Transport Package

Applications:

The DM High Air Duct Air Cooler is specially designed to meet the demands of cold storage environments that require long-distance or multi-zone air distribution. It is commonly used in large cold storage areas for various perishable goods, including fruits, vegetables, meat, seafood, and dairy products.

With its high static pressure capacity, the DM High Air Duct Air Cooler is ideal for facilities that need air to flow through ducts, such as multi-chamber cold storage, central air-cooled systems, and large logistics warehouses. This cooler is also well-suited for food processing plants, distribution centers, and export packaging warehouses where maintaining a consistent temperature and high hygiene standards are essential.

Moreover, the cooler ensures reliable temperature control and energy-efficient performance in expansive or segmented spaces. Whether it's a multi-chamber cold storage facility or a large logistics warehouse, the DM High Air Duct Air Cooler provides effective air distribution and temperature management.

Customization:

Product Customization Services for the Cold Room Evaporator:

Brand Name: DM

Model Number: DM-COOLER-DD

Place Of Origin: China

Certification: CE ISO

Minimum Order Quantity: 1

Price: 1000-100000

Packaging Details: Customization

Delivery Time: 20 days
Payment Terms: TT, L/C
Supply Ability: 300000/Year
Evaporator Type: Finned Tube
Case Material: Stainless Steel Or Steel
Origin: Made In China
Cooling Capacity: 1.5-10 kW
Fan: Weiguang
Keywords: Evaporator In Refrigeration System, Cold Room Air Cooler, Cool Room Evaporators

Support and Services:

The Product Technical Support and Services for the Cold Room Evaporator include:

- Installation assistance and guidance for proper setup
- Troubleshooting support for any operational issues
- Maintenance recommendations to ensure optimal performance
- Warranty coverage and information
- Product training and user manuals

FAQ:

Q: What is the brand name of the Cold Room Evaporator?

A: The brand name is DM.

Q: What is the model number of the Cold Room Evaporator?

A: The model number is DM-COOLER-DD.

Q: Where is the Cold Room Evaporator manufactured?

A: The Cold Room Evaporator is manufactured in China.

Q: What certifications does the Cold Room Evaporator have?

A: The Cold Room Evaporator is certified with CE and ISO.

Q: What is the minimum order quantity for the Cold Room Evaporator?

A: The minimum order quantity is 1 unit.
