

Evaporator Air Cooler for walk in freezer cold storage room freezer unit refrigeration equipment

Our Product Introduction

for more products please visit us on coldroomunit.com

Basic Information

- Brand Name: DM
- Model Number: DM-COOLER-DD
- Minimum Order Quantity: 1
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms: TT
- Supply Ability: 300000/Year

Product Specification

- Defrost Type: Electric
- Tube Diameter: $\Phi 16\text{mm}$
- Fan Diameter: 12 Inches
- Model: CRE-100
- Evaporating Temperature: -30°C To -5°C
- Defrosting: Electrical
- Cooling Type: Counter Flow
- Material Of Fin: Aluminum
- Highlight: **Chemical Industry Evaporative Air Cooler,
Commercial Evaporative Air Cooler,
Aluminum Fin Evaporative Air Cooler**

Product Description

Product Description:

Features:

Scientific Structure: The product is designed with a scientific structure that ensures high efficiency, even frosting, and power savings, ultimately reducing running costs.

Axial Fan Quiet Models: It is compatible with axial fan quiet models that provide a strong airflow over a long distance, promoting power savings and extending the product's lifecycle.

Stainless Electric Heater: When paired with a stainless electric heater known for its high insulating property, the product can efficiently defrost in a short amount of time.

Aluminum and Painted Stan Board: Made from aluminum and painted stan board, this product can cater to various demands to meet your specific requirements.

Applications:

Cold Storage Facilities

These air-cooled evaporators find applications in cold storage facilities for the preservation of food, pharmaceuticals, or chemicals. Industrial Workshops

In industrial workshops, air-cooled evaporators are used for cooling machinery or process areas such as plastics or metalworking. Commercial Refrigeration

Air-cooled evaporators are essential in commercial refrigeration settings like supermarkets, restaurants, or logistics warehouses. Agricultural Cooling

For agricultural purposes, air-cooled evaporators are used in pre-cooling fruits and vegetables post-harvest.

Packing and Shipping:

Product Packaging and Shipping for the Cold Room Evaporator:

The Cold Room Evaporator is carefully packaged to ensure safe delivery to our customers. Each unit is wrapped in protective bubble wrap and placed in a sturdy cardboard box. The packaging also includes foam padding to prevent any damage during transportation. For shipping, we partner with reliable courier services to guarantee timely delivery. Our team ensures that all packages are securely sealed and labeled with the necessary shipping information. Customers can track their orders online for added convenience.

FAQ:

Q: What is the brand name of the Cold Room Evaporator?

A: The brand name is DM.

Q: What is the model number of the Cold Room Evaporator?

A: The model number is DM-COOLER-DD.

Q: Where is the Cold Room Evaporator manufactured?

A: It is manufactured in China.
