

## Low Temperature Storage Cold Room Evaporator with and Iron/Galvanized Steel/Stainless Steel Housing Material

### **Basic Information**

- Brand Name:
- Certification: CE ISO

DM

1

TT,L/C

DM-COOLER-DD

- Model Number:
- Minimum Order Quantity:
- Price: 1000-100000
- Packaging Details: Customization
- Delivery Time: 20day
- Payment Terms:
- Supply Ability: 300000/Year

#### Product Specification

• Highlight:	Stainless Steel Cold Room Evaporator, Galvanized Steel Cold Room Evaporator,
• Temperature:	High, Medium, Low Temperature
Production Capacity:	5000000000pieces/Year
Color:	White
Standard Power Supply: 380V-3phase-50hz	
Housing Material:	Iron/galvanized Steel/stainless Steel
• Fin Type:	Slotted Fin
Heat Transfer Efficiency:High	
• Wind Flow:	30000m3/h

Iron Cold Room Evaporator

**Our Product Introduction** 

Experience the Power of Pure Refreshing Air with DaMai Air-Cooled Air Cooler

# EVAPORATOR

#### DaMai Air-Cooled Air Cooler

a perfect blend of performance, elegance, and innovation. Designed to deliver a powerful cooling experience with energy efficiency in mind, this advanced air cooler harnesses the natural force of wind and water to provide a refreshing breeze that revitalizes your space. With its sleek design and whisper-quiet operation, the DaMai cooler is ideal for homes, offices, and industrial environments alike. Engineered with cutting-edge air-cooling technology, it ensures fast, even air distribution while maintaining eco-friendly performance and low operational costs.

Let DaMai transform your environment into a haven of comfort and freshness — naturally cool, effortlessly powerful.

#### **Product Description:**

The air-cooled evaporator is a highly efficient heat exchange device widely used in cold storage rooms, refrigerated cabinets, and other refrigeration systems. It operates by using fans to force air circulation, allowing the air to exchange heat with the refrigerant inside the evaporator, thereby achieving rapid cooling.

This product features a compact structure and easy installation. It is constructed with high-quality copper tubes and aluminum fins, offering excellent thermal conductivity and corrosion resistance. Equipped with high-efficiency, low-noise fans, it ensures uniform and stable cooling, making it suitable for storing fruits, vegetables, meat, seafood, and more.

M

Various models and airflow capacities are available to meet different refrigeration needs, making it an ideal solution for a wide range of cold storage applications.

#### Features:

The air-cooled evaporator is designed to deliver peak performance within refrigeration setups. Its construction comprises a sturdy and a space-efficient layout that incorporates top-quality copper tubes and aluminum fins to facilitate outstanding heat exchange. Equipped with quiet axial fans, the unit guarantees consistent air circulation and reliable temperature management. Users can choose from anticorrosion coating or stainless steel casing varieties for extended resilience in diverse settings. Its user-friendly maintenance features and adaptable installation choices render it compatible with various setups. Additionally, it offers support for quick defrosting systems, enhancing operational effectiveness.

#### **Technical Parameters:**

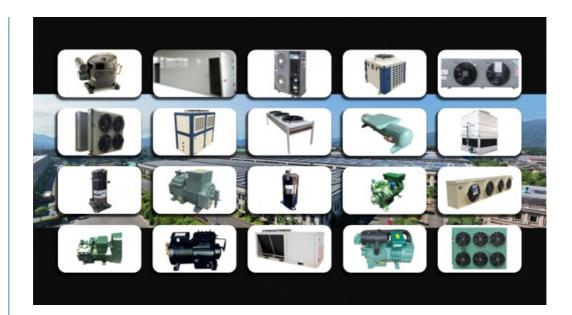

Casing Material	Galvanized Steel
Fin Type	Slotted Fin
Wind Flow	30000m3/h
Condition	New
Storage	Low Temperature Storage
Evaporating Temperature	-35°C To -5°C
Housing Material	Iron/galvanized Steel/stainless Steel
Temperature	High, Medium, Low Temperature
Standard Power Supply	380V-3phase-50hz
Col	Copper Fin Type Heat Exchanger

#### **Applications:**

This product is extensively utilized in various settings including cold storage rooms, walk-in freezers, refrigerated warehouses, and display refrigeration units. It is highly recommended for the preservation of perishable items like fruits, vegetables, meat, seafood, dairy products, and pharmaceuticals.

It is well-suited for a wide range of establishments such as supermarkets, food processing facilities, logistics centers, and agricultural storage facilities. The versatility of this product allows it to cater to diverse applications and industries, ensuring optimum preservation and storage conditions for a variety of goods.

#### **Customization:**

Product Customization Services for Cool Room Evaporators: Brand Name: DM Model Number: DM-COOLER-DD Place Of Origin: China Certification: CE ISO Minimum Order Quantity: 1 Price: 1000-100000 Packaging Details: Customization Delivery Time: 20 days Payment Terms: TT, L/C Supply Ability: 300000/Year Housing Material: Iron/galvanized Steel/stainless Steel Wind Flow: 30000m3/h Production Capacity: 500000000 pieces/Year Color: White Power Source: Electric Product Attributes: Evaporation Air Cooler, Commercial Evaporative Air Cooler

#### Support and Services:

The Product Technical Support and Services for the Cold Room Evaporator include:

- Installation guidance and support for proper setup of the evaporator unit.
- Troubleshooting assistance to address any operational issues or malfunctions.
- Regular maintenance recommendations to ensure optimal performance and longevity of the unit.
- Access to a team of experienced technicians for any repairs or replacements needed.

#### FAQ:

- Q: What is the brand name of the Cold Room Evaporator?
- A: The brand name is DM.
- Q: What is the model number of the Cold Room Evaporator?
- A: The model number is DM-COOLER-DD.
- Q: Where is the Cold Room Evaporator manufactured?
- A: The Cold Room Evaporator is manufactured in China.
- Q: What certifications does the Cold Room Evaporator have?
- A: The Cold Room Evaporator is certified with CE and ISO.
- Q: What is the minimum order quantity for the Cold Room Evaporator?
- A: The minimum order quantity is 1.
